#### CHAPTER MISSION STATEMENT:

"EAA Chapter 113's major focus is on the relationships with people who have diverse aviation interests, centered around their love of flight, fellowship, learning, and fun.

Chapter members have a passion for flying and are willing to share it with others.

Chapter 113 provides the opportunity for exchange of information, as well as the interaction that leads to friendships that last a lifetime."

#### **BOARD OF DIRECTORS:**

"The Board of Directors are to provide both advice and assistance to the chapter officers on an ongoing basis."

#### **PRESIDENT'S PODIUM**

Joe Kirik (248) 872-3220 president@eaa113.org September 2016

Seems like Oshkosh was just the other day, but here we are already past Labor Day and the kids are back in school (be careful out there!). I hope everyone enjoyed some great summer flying, which should have you pumped up for aerial fall color tours – is there any better way to appreciate the beauty of our great state of Michigan?

Another sure sign of fall is the resumption of our Chapter's builders' meetings (first Thursday) and Flying Safely/IMC meetings (fourth Thursday). We cancelled the Sept. 1 builders' meeting due to its proximity to Labor Day, but Mike Scovel will be back with a great program in October. And Dave Buck has an excellent presentation set for the IMC meeting on the 22nd. Dan Valle will show us what you can – and can't – believe about in-cockpit weather displays and info. And, there will be a special door prize which will be of great interest to instrument pilots who need to get some practice "under the hood."

For the membership meeting on the 15th, Marc Stobbe will share his experiences of flight planning and flying over the water to the Bahamas. He'll also show some great photos of the trip. In the EAA Chapter video, Jack Pelton takes a quick look back at AirVenture 2016, touches on AirVenture 2017, and discusses SOLIDWORKS, EAA STC expansion and the Founder's Innovation Prize winner. And Charlie Beker talks to Valdez STOL competition winner Frank Knapp about his airplane, "Lil' Cub."

September brings another Young Eagles event. We'll need pilots and ground crew from 8:30 to 11 a.m. on Saturday the 24th, so please mark your calendars and let Debbie know you're willing to lend a hand to support the future of aviation.

During the August 113 Board meeting we had a discussion about improving the quality and availability of our flight planning facilities. One of the computers in the library is capable, but a question was posed as to whether a computer in the meeting room for flight planning would be useful and more convenient. If you'd like that arrangement let Grant Cook or one of the officers know.

As members of Chapter 113 we pride ourselves in representing general aviation in a positive manner to the community. Tenants of 1D2 recently received a reminder about the airport's noise remediation procedures. This is an important part of our collective effort to be good neighbors and minimize any negative impacts of our flying, so please take a moment to review the procedures posted later in this newsletter. And please forward to pilots you know who are not based here but fly in from time to time.

Are you looking for a project, and do you enjoy working with wood? There is a partially built Sequoia Falco project available for donation to the Chapter if anyone is interested. It's beautiful and fast design. The empennage and main spar are complete. Contact Pete Waters at petewaters@charter.net for info.

Speaking of Pete, I owe him a big thank-you for letting me store my Waiex kit in the back of the hangar on his private airstrip until I relocated. What was

supposed to be a couple of months turned into a year! Finally, I was ready to retrieve it, and an email request to a few 113 members resulted in four pairs of hands to help load the kit, along with its VERY heavy 4 X 10' workbench, into a rental truck and unload it into my recently acquired hangar at Mettetal. So when Dave Buck, Sanjay Dhall, Mike Scovel or Ed Audet ask me for some help, I'll only be too glad to oblige -- thanks guys! It's more proof that the great members of our Chapter are always ready to pitch in, whatever the chore. Now to get it all organized...

Enjoy the (hopefully) cooler weather, we'll see you on the 15th!

Joe Kirik

Robert Aardema is the EAA Chapter 221 president over in Kalamazoo, and chapter coordinator for the AOPA Fly-In pancake breakfast on September 17th.

-----

Robert and Chapter 221 could use some help that Saturday morning putting on the AOPA breakfast. If anyone could lend a hand, please let Robert know. Robert's Cell is: 269-358-7267.

EAA Chapters that stick together, rule the skies together!

Thanks! And Happy Landings! John

#### EDITOR'S NOTE

*Elizabeth MacKenzie Hebron* (734) 776-9294 newsletter@eaa113.org September 2016

I apologize for both the lateness and briefness of this month's newsletter. Late August and early September have not been kind.

This is also a plea to members to start thinking about and writing some great stuff for the October newsletter! Photos of your projects are always welcome.

A big thank you to Shunsuke and Pete, without whose photos this newsletter would have been sadly lacking in content.

May you high and land safely! Liz Hebron
