### January IMC Chapter Meeting

Matt Van Bergen chaired this days Chapters IMC Meeting with a discussion of a Cessna Cardinal 177 flight.

A lively detailed discussion ensued with an abundance of member participation. Lots of experiences, ideas, learning and plane (excuse the pun) hanger flying. Ole Sindberg was our professional idea man. Paul chimed in with his get a jet if you want to eliminate or reduce wing icing via high speed heat friction.

Keith Petersen had lots of historical Information about the Cessna 177 Cardinal. The Scenario and discussion was enjoyed by all.

Ole suggested the chapter should hold an IMC sim training experience for its members. Tom Solar and Brad DeLisle agreed to set up such an event at our March Chapter Meeting. We will have two computers with yokes, pedals and throttles for individual usage. Anyone who wishes to bring along their home set would be most welcome.

Expect a straight in approach in IMC 10 miles out at 4000 with a breakout at 500 at an ILS runway.
