

North Central Wisconsin
Light Flyers

June 28, 1995

NEWS UPDATE

Greetings:

North Central Wisconsin Lite Flyers is now officially in it's third month and have now established it's officers and directors for the first term. This organization was established to promote the sport of "light aircraft aviation" and create fellowship among all whom share the enthusiasm of enjoying it from aloft. We are greatful that among us there lies a wealth of knowledge, experience and a variety of light aircraft designs that give our organization a different twist! (of course some of our stories are a bit twisted also!)

Our last meeting was held at Alexander Field (ISW) in Wisconsin Rapids on June 17th and the original draft of bylaws was presented for review. Please take the time to review them and if there is any suggestions for modifications, they can be addressed at our next meeting scheduled for July 8th at 1:30 at John Verfuert's field located just south of Spencer, WI. If anyone needs assistance with directions, please contact John at (715) 387-3856 or Steve Norris at (715) 842-4286.

The Ultralight Fly-In held at Pioneer Airport in Oshkosh on June 24th - 25th received great preliminary reviews. It was a First Time event of this nature and monumental in fostering good relations with EAA and FAA. Our hats off to Ken Snyder of Wisconsin Rapids as he was instrumental and a key player in the preparation and coordination of this event. We are happy to report there were no major incidents or accidents reported and we are hoping this will become an annual event. The accommodations provided by EAA we're second to none including free Museum tours, sleeping accommodations and good weather to top it off! (We'll thank the Chief pilot in the Heavens for that!) A great time was had by all, namely the "101st Screaming Porkchop Squadron"

Upcoming Fly-Ins

Location: Tomahawk Airport

Date: July 23, 1995

- * **Free Lunch and Fuel** for Attending aircraft
- * Fly-By event for Ultralights
