

EAA Ultralight Chapter 75

North Central Wisconsin Lite Flyers

PO Box 12 • Schofield, WI • 54476

Editors Notes by Rich Prange

Black smoke belched from the stack of my ancient 1963 Oshkosh snowplow. The seven foot "V" blade with outriggers fully extended made the old truck grunt but I was able to break through to the main highway. My mission – help Joe Malsack open the runways at KRRL and get our Kitty Hawk flyers under way. The date was April 21, 2013, that's right the fourth month of the year. Spring!

One quarter mile down the road and an hour later, there was no snow! I drove the old Oshkosh back home, jumped into a car that could produce some serious speed and zoomed into the airport. About a mile to the southeast, a shaft of pure white light was radiating down over the northwest corner of Merrill, the

wind sock was limp, and the sky was blue. As the security gate opened, 6:30 a.m., the only aircraft in sight was a yellow Kitfox climbing rapidly to connect with the rest of the flight. For my intended send-off, there was to be hot chocolate, newly brewed Columbian coffee, farm fresh cream, and right-out-of-the-oven donuts. Their loss.

One week later – Welcome Back Kitty Hawk Flyers. This writer had to work for a few days down in Waukesha. My temporary work address offered a nice view of runway 10/28 there at UES. Does anyone remember the sound of first Lear jets or the early 707s. We're talking serious decibels. As the miserable weather cleared

out for the Waukesha area, air traffic picked up immediately including considerable corporate and small commercial jets. What a difference for modern jet engine noise suppression. I was supposed to be paying attention to my work, so on several occasions, I didn't notice the aircraft until thrust reversers were applied and they taxied passed my line of sight.

The last couple lines of an essay supposedly written by a fifth grader at Jefferson School, Beaufort, NC: I hope I don't get airsick because I get carsick and if I get airsick, I couldn't be a pilot and then I would have to go to work.

Confession – I don't own an Oshkosh snowplow and wouldn't know how operate it. Keep your needle in the green.

Tuesday Night Fly-In Forum

Hello again to the UL75 Chapter family. In spite of our recent weather "events" we are still looking forward to summer and with summer comes our famous Tuesday Night Fly-Ins.

Our opening Tuesday, May 7, is scheduled to be at Little Chicago's very own Little O'Hare airpark. I would strongly suggest contacting me or Dan Marlenga to be sure conditions will allow.

The second event, Tuesday, May 21 is scheduled to be at Merrill Airport. Again due to conditions, we may want to trade these two events.

Let's Go Flying

Tuesday Night Fly-In Forum cont...

(Continued from page 1)

But that is yet to be determined.

June 4 and 18, July 9 and 23, August 6 and 20 and September 3 are as of yet unscheduled. Sign up quickly to host a Tuesday as they will soon fill up. The same rules as last year, if weather does not cooperate we will try again the following Tuesday.

Again we ask, please do not go to catering extremes, we are happy with Kool-Aid and Cookies...

Please contact me to schedule your Tuesday and follow the website for the latest updates.

Chapter 75 Journey to Kitty Hawk

On Saturday April 20th, nine planes and twelve chapter 75 members departed from Stevens Point Airport for the 2nd Journey Trip. Our goal was to

fly to Kills Devil Airport, Kitty Hawk, North Carolina. With gracious tailwinds and fair weather, all nine planes, pilots and passengers arrived at the

destination of Kitty Hawk. Expanded details of the Journey trip story in next months newsletter addition.

Arrival of 12 Chapter 75 members at the Wright Memorial in Kitty Hawk, North Carolina. Back row l-r Larry and Mary Gordon, Dave Meyer, Paul Buss, Lyle Banser, Brian Krueger Front row l-r Jim Jaeger, Larry Wenning, Karen Krueger, Steve Krueger, Mary Banser, Jim Shnowske
