

EAA Ultralight Chapter 75

North Central Wisconsin Lite Flyers

PO Box 12 • Schofield, WI • 54476

Editorial Notes by Rich Prange

42-36229

Numbers, let us clear that up right now in the event that you were skimming or speed reading the April edition of Sport Aviation. L-3B is a military version of an Aeronca produced in 1941.

The number on the tail of Darrell Kuhn's L3-B Aeronca, 42-36229, is an Army Air Corps serial number with its "N" number 64482 placarded inside on the panel.

The article entitled

Affordable Warbird\$ by Jim Busha, features Darrel Kuhn from Irma (USA), a Chapter 75 member, and his two Aeronca warbirds. Two pages caught my attention, one explaining the comparison specs and the second page listing Darrel's top eleven tips of restoration advice. Perhaps you were just cruising through April/Sport Aviation; it is worth going back for a re-read. If you were to compliment Mr. Kuhn on his craftsmanship, he will probably respond with, "Awe shucks."

Sourdough Sky cont

From editorial #90 I wrote a brief summary of an Alaskan flying adventure from 1932. Here is a second installment from that same text. Pilot Oscar Winchell, "returned to civilization after breaking the

tip off one of his propeller blades. With his pocket knife he whittle the jagged end smooth and round and then whittled the other blade down to match the broken one to length. With reduced

thrust, he needed a take-off run of nearly five miles (he must have been on a river) to get air borne. In describing the marathon run over the obstacle course, Winchell said the vibration was so bad he couldn't even read his instruments and that he thought the engine would jump off its mounts any minute." Winchell's pocket knife; it must have been a Bowie knife.

Capt Brett Crozier

Desperate measures in desperate times? If you are reading this editorial you have probably read enough information about Captain Crozier to form a reasonable opinion. In the most simplistic terms, the Captain was driving a boat load of airplanes and the necessary pilots and

crew to keep those aircraft in the air. At the time of this writing those sailors, pilots, and Capt Crozier are getting dangerously sick.

In his four page letter the Captain spoke the obvious, to

protect his crew and his ship, "We are not at war, and therefore cannot allow a single Sailor to perish as a result of this pandemic unnecessarily."

Capt Crozier asked for decisive compliance

from the CDC and guidance from the Navy. For that request he was relieved of his command!

Chapter 75 members, do you have children or grandchildren in the Navy (or Military)? Or, are you ex-Navy? My next mission with this keyboard is to write a letter of protest and concern to our WI senators. To reduce or compare this pandemic crisis to a baseball game, I don't think our president can even find left field. I make no apology for my opinions.

Please take care of yourselves, the ones you love, and be a good neighbor. I hope to see you at a chapter meeting in the near future when the time is right.

Keep your needle in the green.

AirVenture 2020 Canceled

Dear Chapter UL 75

I wanted to share an update from Jack Pelton regarding the cancellation of AirVenture 2020. Please see attached Jack's AirVenture Statement.

For our Chapter, IMC/VMC, and Young Eagles team here in Oshkosh, this is very disappointing news as it means we will not see you, our extended family,

in July. This is always the best week of the year for us; offering us opportunities to connect with you, learn from you, and share our passion for aviation. **While we won't be able to gather at Oshkosh this summer, EAA's commitment to your chapter remains as strong as ever.** All of us in the chapter office are available to answer

your questions as we navigate this unprecedented situation together.

Thank you for your ongoing support and involvement in EAA.

Tailwinds,

Charlie Becker

EAA Director of Chapters

We Don't Gamble, We Need A Sure Thing

May 1, 2020

AirVenture 2020 is officially cancelled

My fellow EAA'rs. It is May here in Wisconsin, and unfortunately like many of you across the country, we are still under a stay at home order through May 26. Normally, this is the month when we start our preflight planning for EAA AirVenture Oshkosh. By this time, we should have begun ramping up our entire site in preparation for our July convention. Volunteers from across the country and world would have descended on Oshkosh. Together they would have formed work parties, our suppliers would begin start setting up tents and infrastructure. Our EAA staff would be printing wrist bands, campers guides, programs and an assortment of EAA collateral as full-on AirVenture execution begins.

But because of circumstances beyond our control, none of this can happen now. We cannot even get to the hangar so our preflight is left to watching the prog charts. While this certainly makes the ability to prepare for the event a scheduling problem, it does not preclude the bigger issue of predicting what will be the health guidelines in July. Right now, there are three phases that have been defined in Wisconsin as the recommended procedures. As I write this, we are not in Phase 1 yet. Phase 2 restricts gatherings to 50 people. Phase 3 allows for mass gathering with restrictions.

Our convention attracts EAA members not only from the U.S. but around the world. Today we cannot predict when we will be at a point that our event meets the all clear Phase 3 milestone for mass gathering with restrictions. As your leader, I see no clear path to meet our own requirements to insure the health and safety expectations our organization demands for our employees, members, volunteers, exhibitors and attendees. That includes sanitization, separation and personal protection requirements.

My conclusion is, like in any good flight planning, don't take the risk. Therefore, I have no choice but to cancel AirVenture 2020. Together, we can come back stronger, safer and ready for AirVenture 2021 and create a memorable world class aviation event. Because of our dedicated and enthusiastic EAA members, our Association is strong. We know that at some point this storm will pass. And over the next 12 months we will continue to support all of you as we again, together, grow EAA in the Spirit of Aviation.

Respectfully,

Jack J. Pelton
Experimental Aircraft Association
CEO and Chairman of the Board
