- January 26th EAA Birthday born 1953
- January 30th Soup-R-Sundae Noon to 4 PM
- February 7th Regular Chapter meeting 7PM G'burg regional Apt

Gettysburg Barnstormers—EAA Chapter 1041

Gettysburg, Pennsylvania

Henry's Hangar

Hello Barnstormers, and welcome to Fall! I want to start off this month's column with a huge Thank You to all of our members who came out and helped make the September Breakfast event a great success. We had asked for extra help after we finished serving on Sunday, when the clean-up and packing of all our equipment takes place, and I'm so happy that we had a good response.

The September breakfast was a wonderful weekend, especially weather-wise, and we had very good attendance numbers. While we did not break the record attendance we had during June, the number of breakfasts served was better than average and we had a very nice profit. Thanks again to everyone who helped in any way.

Your Board of Directors met in October to plan our activities for 2022. The usual monthly Chapter gatherings, Soup-R-Sundae dates, IMC Club, Fly-Outs, and much more are scheduled and you'll be seeing the information very soon. Let's make 2022 a "come-back" year after nearly two years of uncertainty with the virus situation.

The Board of Directors voted to fund four young people to attend the 2022 EAA Air Academy at Oshkosh. Look for more news on who's going at upcoming meetings. Unlike past experience, EAA is now limited chapters to a single reservation for the

Advanced Air Academy (16-18 age group), and we have a candidate. Another young person will be applying on his own and if accepted, Chapter 1041 will sponsor his tuition fee. We have 2 other young people locked in for the Basic Air Academy (14-15 age group) and we will be sponsoring them as well. Congratulations to our 2022 Air Academy Campers!

Stay tuned for news about our annual Christmas Party that is planned for Friday, Dec. 10th at a new facility. After not being able to hold this popular event in 2020, we hope you'll make plans to join the rest of us for an evening of great food, wonderful fellowship, and as always, some surprises. As the details come together, we'll pass them along to everyone.

I hope to see a great attendance at our Monday, November 1st Chapter gathering. Please be there for another very interesting program about a trip to AirVenture Oshkosh and more!

Henry

November Program

AirVenture Again

Dale Graves, Dianna Moy, and Conrad Brown attended AirVenture as well as experienced a few other adventures.

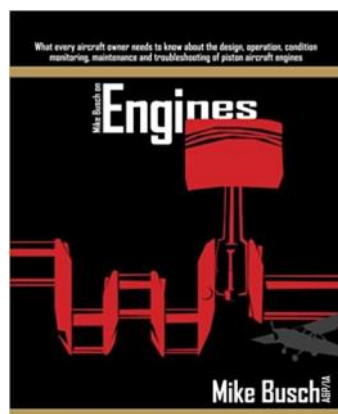

Join them as they recount their busy week

Arrangements for a 2021 Christmas party are in the planning stages.

We have reserved the Spring Grove area High School cafeteria for the event. The menu will be similar to past Christmas Parties. More details to follow in the this and the next edition of *The Observer*. There will be a sign-up sheet at the November Meeting.

Book Review

. Mike Busch on Engines: What every aircraft owner needs to know about the design, operation, condition monitoring, maintenance and troubleshooting of piston aircraft engines Paperback – May 12, 2018

“The risk of engine failure is greatest when your engine is young, NOT when it’s old. You should worry more about pediatrics than geriatrics.”

Busch begins with the history and theory of four-stroke spark-ignition engines. He describes the construction of both the “top end” (cylinders) and “bottom end” (inside the case), and functioning of key systems (lubrication, ignition, carburetion, fuel injection, turbocharging). He reviews modern engine leaning technique (which your POH probably has all wrong), and provides a detailed blueprint for maximizing the life of your engine.

The second half presents a 21st-century approach to health assessment, maintenance, overhaul and troubleshooting. Busch explains how modern condition monitoring tools—like borescopy, oil analysis and digital engine monitor data analysis—allow you to extend engine life and overhaul strictly on-condition rather than at an arbitrary TBO. The section devoted to troubleshooting problems like rough running, high oil consumption, temperamental ignition and turbo-charging issues is worth its weight in gold.

Fly-Out Destination

The Fly-out destination for November will be discussed at the November meeting. Fly-out requests can be made to Dick Young our fly-out Coordinator.

THE EAA 1041 SKY RAIDERS

The EAA 1041 Sky-Raiders have a scheduled fly-out on the 3rd Saturday of each month. Each pilot will make their own go/no go decision. Please call or email Dick Young (717-521-7942) (dicknraney@comcast.net) no later than Friday afternoon if you plan to join the flight. Dick will make restaurant reservations at the destination airport; therefore, an accurate count of participants is appreciated.
