Transcend Air Vy400

by **Peter Schmidt, COO**

Bio at: <https://transcend.aero/team>

Transcend Air has engineered a brand new high performance personal aircraft that combines the speed and comfort of a jet with the convenience and flexibility of a helicopter.

- Speed of 405 mph / 353 kts;
- Range of 550 miles
- Tilt-wing, fly-by-wire design
- No need for a runway. Take off and land from your home.
- Significantly lower costs than executive helicopters
