Gary also provided the following from the MIG-21 exhibit on March 31. This was at the M.L. Becker Learning Center at Enid Woodring Regional Airport:

Several members attended An Evening with Astronaut General Thomas Stafford, on Thursday, April 5.

The event was a fundraiser sponsored by Oklahoma Pilots Association held at the Oklahoma History Center. Stafford, 87, spoke for almost 2 hours to a crowd of 300 relating his life as test pilot, astronaut, and advisor to military aircraft designers. His Apollo and Gemini space exploration, trips to the moon, and his distinction as the world's fastest human define his remarkable career. The Stafford Air and Space Museum at Weatherford is a must see event.
