## Last meeting of 2022

Bruce Cynamon, VP, conducted the last Chapter meeting of the year on December 10th. Guest speaker and Chapter member, John Leary, shared his first hand experience of the benefits of knowing and practicing your aircraft's minimums in case of engine failure on takeoff.

It was also the month to elect (in this case re-elect) the Chapter Officers. All current office holders agreed to return to serve the next two years. By then the bruising from the arm twisting should be healed.

The Chapter also agreed to purchase 30 six foot tables to be used for Fly In's and other functions.

## Did you know that the Chapter has a "Tool Bin" for members' use?

Don Bartlett, our EAA Chapter Tech Counselor, is the keeper of the Tool Bin Inventory. These items can be signed out and returned via Don by contacting him at [flyerpa22@gmail.com](mailto:flyerpa22@gmail.com) or 618-521-8591.

### INVENTORY

- \* Rotax carburetor synchronization gauge set
- \* three Rotor 912 engine manuals
- \* cable tensioner 50-350 lbs for 3/16 and 5/32 cables
- \* cable tensioner 10-70lbs. For 1/16, 3/32 1/8 cables.
- \* Hawkeye Bore Scope with functioning AA Battery light source, plus a non-functioning high intensity light source (needs charger)
- \* set of three scales 1000 lbs capacity
- \* dual shop light set

Have ideas as to what we can add to the Tool Bin? Contact Don.

## Time to RSVP for the Chapter 1236 Annual Party

**RSVP's are Required....**

**Deadline is Sunday, January 15th.** RSVP and list your name(s) to Janette Carlile.  
[janette.g.carlile@gmail.com](mailto:janette.g.carlile@gmail.com)

**Here are the details:**

**When?** Saturday, January 21st  
5:30 arrival 6:00 dinner

**Where?** John & Julie's hangar  
3841 SE 158th Terrace. Go  
through the Marion Co. Road  
Love's Landing MainGate - it  
will be open

**Cost?** Nothing

**Bring?** BYOB & name tags

**What's provided?** Dinner,  
dessert, & entertainment by  
Ron the Music Man

## What's ahead for January's Chapter mtg?

9:00 donuts & coffee; 10:00 meeting....

Steve Wolf, Chapter member, will be sharing his recent trip to Washington DC's, Air & Space Museum where his aircraft, the Challenger III, is now prominently hanging inverted in this popular Smithsonian Museum.

## Heads Up 2023 Chapter Dues will be collected at the January 14th meeting

\$15 for Individual, \$20 for Family

80 + years young? Honorary Member (free)

Janette Carlile was able to visit Steve's plane the day of the reopening of the Air & Space Museum in October 2022.

# FYI - for those of you into Homebuilts... from National EAA

## Homebuilders Week – Online Event Starts January 23

### *An online opportunity to learn about all aspects of building your own aircraft*

By Charlie Becker, EAA Homebuilt Community Manager

EAA will be hosting our third annual Homebuilders Week online learning event for aircraft builders: ([www.EAA.org/HomebuildersWeek](http://www.EAA.org/HomebuildersWeek)). It will be five straight days of educational forums covering a broad spectrum of aircraft building topics. It will start on Monday, January 23, 2023, and run until Friday, January 27, 2023. The live online presentations will be open to everyone interested in building their own aircraft. Sessions will start at 11:30 a.m. CST and run until 8:30 p.m. CST daily.

This event is an opportunity for a new person to jump in with both feet and learn a lot about the wonderful world of homebuilding. We will cover areas like getting started successfully and techniques when building with sheet metal, composites, steel, and wood. But it won't be just for the newbie; we are offering in-depth talks on panel planning, engine selection, FAA certification, flight testing, and selling a homebuilt aircraft. There will be something for every builder, whether you are just starting out, knee deep in a project, or just received your airworthiness certificate — it is going to be a great learning opportunity.

EAA is working with industry experts, kit manufacturers, and other subject matter experts to provide top-notch material for builders. The sessions will be live and allow time for attendee questions. Recordings will be archived and available to EAA members for review.

EAA Homebuilders Week coincides with the 70th anniversary of the founding of the Experimental Aircraft Association in 1953. Those founding members of EAA lit the fuse on the homebuilt movement that provides affordable access to aircraft ownership and today has spread worldwide.

EAA Homebuilders Week is possible through the generous sponsorships of Aircraft Spruce & Specialty Co., Dynon, Scheme Designers, Inc., and Van's Aircraft, Inc.

Visit [EAA.org/HomebuildersWeek](http://EAA.org/HomebuildersWeek) to review the schedule and sign up for a session.

## Still looking for Toy Box Submissions...
