

EAA CHAPTER 145

e-Bulletin

Update on Chapter activities - Veteran Flight

A couple of weeks ago, Andrew contacted me about giving a vet an airplane ride. Bruce is about 90 and in hospice. His father was a CFI and had taught him to fly in a Cub at age 16. Bruce's eyes shine when he talks about flying. What could I do? I have a C-172, but my right hand is in a cast. Of course, it's Riverview, so I ask John to use my 172 to give them a flying tour over Holland.

Bonnie, Bruce's wife, and Andrew took the back seats with Bruce as co-pilot. The flight over to Lake Michigan and Holland was very successful. I understand Bruce and Bonnie are still talking about it.

Cheers, Dick
