CHAPTER 1527
NEWS AND UPDATES

INDY FLYER

The Search is On

The EAA has a couple of volunteer advisory positions that members can apply for. It's a way to let other members know your areas of expertise and willingness to answer questions. The Indy Flyers would like to search its ranks for members willing to fill those positions. We can also assist you in finding local experts of this nature. Please contact Amy Solomon at 317-903-6887 if you are interested in becoming or in need of either of the following:

EAA TECHNICAL COUNSELORS

EAA Technical Counselors are experienced airplane builders, restorers, and mechanics who volunteer their time to visit other EAA members who are in the process of building or restoring their own aircraft.

The goal of EAA's Technical Counselors program is to help members present a "zero defect" aircraft at final inspection by the FAA. It's aimed at providing experienced builders to help you make the right choices during construction.

If you are building or restoring, tap into this member benefit early in the project to save time, money, and aggravation! Get the peace of mind that can only be had from an experienced builder looking over your work to provide you with a best path forward.

EAA FLIGHT ADVISORS

EAA Flight Advisors can help you find the right path to get you flying efficiently and, most importantly, safely.

The Flight Advisors program is designed to increase sport aviation safety by developing a corps of volunteers who have demonstrated expertise in specific areas of flying and making them available to EAA members who may be preparing to fly an unfamiliar aircraft.

Access EAA's Flight Advisor program if you are:

- Considering purchasing an airplane or ultralight
- Preparing for flight in a newly built or restored aircraft
- Looking to transition to a high performance or unfamiliar aircraft

**"Volunteers are not
paid, not because
they are worthless,
but because they
are priceless"**
