

CHAPTER 153

PRESIDENT'S MESSAGE

OCTOBER 2022

Hello EAA 153 members and friends,

Hope this months newsletter finds you all well!

The September presentation by the new Schaumburg FBO, REVV Aviation, was informative and fun.

We had a good time and appreciate what REVV has brought and is bringing to Schaumburg Airport.

After we enjoyed Pizza, desserts and other attendees company, we learned about the REVV company, their staff, their aircraft and how they can help each of us continue our aviation plans. We are glad to welcome them and we thank them for their time, now and in the future!

Our October 14th presentation has been planned and it will be done by our VP Bob Meyers about his current restoration efforts on his new 1946 BELLANCA CRUISAIR SENIOR with the triple tail.

This meeting will be held in the meeting room on the lower level at Schaumburg Airport and on ZOOM. It will begin at 7:30, with social time beginning at 7pm. We should have cookies and treats, and water. Feel free to show off your cooking talents and bring a dessert we will love, if you want. A reminder that masks are still recommended for indoor meetings, but not required.

We were excited to have a EAA 153 table and participate in the fun HOPS and PROPS event on Sept 17th, with bands, food, aircraft displays and drinks. We met nice people, saw vintage airplanes and had a good time.

We will be briefly discussing the elections at the October meeting, so get ready to throw your hat in the ring to be elected in November. There is an opening for a Director.

Please send me a great picture of your aircraft or mostly completed aircraft and we can put it on the website and maybe feature it in the newsletter.

Chapter 153 has some aircraft tools for the paid members to use. Call me to discuss. We have Tech Counselors and Flight Advisors for you to consult.

We have several volunteer positions waiting for you, if you want to participate more.... Sebastian is our Young Eagles Coordinator, if you have any related questions. Some of our members have been doing Young Eagle flights. We are all interested in Safety and welcome your ideas. We may do an upcoming presentation on Aviation Safety.

Another reminder that the experts are suggesting it is safer to wear masks at indoor gatherings.

Please like and share our amazing EAA 153 Facebook page and posts.

We are doing a new recruits drive, so keep on the lookout for some new fun members we can hang out with.

Our dues will be \$20 for 2023.

Please offer us any ideas you have or may want to give us for a future presentation.

THANKS to Madeleine for this great newsletter each month. You can help us all by writing a short story (aircraft related) for publication.

See you soon!

Bob Brandt-EAA 153 President

FEATURED AIRCRAFT—JOE LIENAU'S BD4

My wife, Mary Lou and I spent 12 days at the air show this year. I flew our BD4 there and this year was forty years for our home built airplane. We were parked right by the Brown Arch, the main entryway to the flightline.

Some of the 153 members stopped by and chatted for awhile. What was really nice was the EAA lifetime members building was right across from us. The weather was great but the week went by in a hurry.

Joe Lienau is a life time member of EAA Chapter 153.
