**always, Some News from National.**

**2022 Airventure dates are July 25 – July 31**

**Flight Training Bill Clears Legislative Hurdle**

**September 24, 2021** – A bipartisan amendment that would reverse the FAA’s recent policy on flight training has been accepted into the House version of the National Defense Authorization Act (NDAA). The amendment, which encompasses the Certainty for General Aviation Pilots Act of 2021, would negate the FAA’s recent policy that requires virtually all training in experimental, limited, and primary categories to be conducted under a letter of deviation authority (LODA) or an exemption.

The NDAA is defense funding bill with a high likelihood of passage, so it is an excellent vehicle for limited and targeted legislative language such as this flight training policy. Representatives Sam Graves (R-Missouri) and Kai Kahele (D-Hawaii) introduced the successful amendment with support from AOPA, EAA, and other associations. Focus now shifts to the Senate, where a similar amendment will help ensure that the final legislation contains the GA flight training language.

In June, the FAA confirmed that a court ruling that confirmed their interpretation of FAR 91.315 meant that no training for compensation or hire could be done in limited, experimental, and primary category aircraft without a LODA or exemption. This broke with decades of precedent and even applies to an aircraft owner receiving instruction in their own aircraft. While the FAA quickly rolled out a streamlined LODA and exemption system to accommodate this new policy, it is unnecessary, contrary to safety, and has resulted in headaches and confusion for countless pilots and CFIs.

While FAA Administrator Steve Dickson announced the FAA’s intent to change the rule so that the policy would return to its previous state, the rulemaking process is a years-long ordeal. Legislation is by far the faster route to achieve this needed change.

To urge your senators to support this bill, you can use EAA’s tool by clicking the below link.

**EAA Opposes Cap on Veteran Flight Training Benefits**

**September 23, 2021** – EAA joined 14 other aviation organizations in jointly opposing a bill in the House of Representatives that includes a cap on flight training benefits available to United States military veterans.

H.R.4874, the bill in question, caps payments for flight training programs and virtually guarantees that U.S. veterans seeking to use their GI Bill benefits to pursue a career as a professional pilot will not

have the necessary funds provided to complete flight training. Other degree programs at public colleges or universities are not capped in a similar manner, meaning fields involving flight training are unfairly disadvantaged.

The 15 aviation groups noted in a letter sent to top House officials that they are committed to working with Congress to deliver on commitments made by the nation to its veterans, and they urged the House to remove the cap on flight training expenses.

## **Experimental, Limited, and Primary Category Aircraft Flight Training FAQs**

EAA continues to push the FAA for a legitimate solution to the harm and confusion the agency has created with its recent interpretation involving compensated flight training in Experimental, Limited, and Primary Category aircraft. As [previously mentioned](#), the FAA did an unexpected and stunning about-face from decades of standard policy with the change, disregarding longstanding aviation safety practices. ## **We need pilots to help fly kids**

On Saturday October 23, 2021, from 9:00 am – 1:00 pm at KMRT the Marysville EAA Chapter 1629 will hold another Young Eagles Rally. At the current time 20 kids have signed up on <https://YEday.org> for the October 23, 2021 Young Eagles rally at KMRT. I have currently limited the number of registrations to 20 until we get more pilots to confirm that they will fly kids at the rally. I know there are more kids that want to fly. We really need as many as possible for ground crew and pilots. **For those interested in being a Young Eagles Pilot or being on the ground crew during the Rally please sign-up for this event by going to <https://YEday.org> and either login to your existing id or select "Sign Up" to register as a pilot or ground crew. Also send an email to [MarysvilleEAAChapter@gmail.com](mailto:MarysvilleEAAChapter@gmail.com) saying that you will be a pilot or helping with the ground crew for the young Eagles Rally.**

**Vintage Aircraft Association's Chapter 22 - Antique and Classic**

Located in Zanesville, Ohio, EAA Vintage Chapter 22's mission is to keep grassroots aviation alive through events, activities, meetings, and educational opportunities for people of all ages. Events include an annual FlyIn, Drive-In, Car Show held on the last Saturday of September. Activities include adventures to various aviation-related activities throughout Ohio. Meetings are held the second Saturday of every month. Finally, educational activities include club projects that allow people to get hands on experience with restoring an airplane from start to finish. We have also recently acquired a flight simulator to use for educational purposes as well.

Interested in joining? Want to know more? Please email us (to the right) or call us at 740-954-0059.

### It's Scholarship Time!

The 2022 WAI scholarship program officially opens today. Members are encouraged to visit [www.WAI.org/scholarships](http://www.WAI.org/scholarships) and review dozens of scholarships that fit your aviation interests.

Currently there are 98 scholarships totaling \$479,505 offered for flight training, engineering, maintenance, dispatcher, drones, and professional development for individuals in all stages of life.

Applicants are encouraged to check for new scholarships often and may apply for up to three scholarships per year. In order to qualify for a scholarship, the applicant must be a WAI member as of October 1, 2021.

The deadline for 2022 applications is Tuesday, October 12, 2021.

In 2021, WAI awarded 149 scholarships valued at \$731,805. This total includes 47 scholarships awarded through a \$250,000 Conrad N. Hilton Foundation grant. The total amount of scholarships awarded by WAI since 1995 is more than \$14.5 million.

The 2022 scholarships will be awarded during the [33rd Annual International Women in Aviation Conference](#) in Nashville, Tennessee, from March 17-19, 2022.

*International Women's Air & Space Museum*

The team at the International Women's Air & Space Museum has been working behind the scenes to revamp our programs and offerings, to ensure that we continue to inform, educate, and inspire. This process includes planning for all scenarios to eventually welcome people back for in-person events, and plan for our continued collections preservation projects. Beginning the week of March 15, the museum will reopen to visitors. We believe it is our responsibility to do so in a measured and responsible way.

All visitors to the Burke Lakefront Airport are always required to wear masks that cover both their nose and mouth. If you do not have a mask, the museum has some for purchase both in the online, and at the in-store gift shop. Hand sanitizing stations are regularly supplied and available throughout the building. The museum staff regularly disinfects high touch surfaces throughout the day, such as interactive exhibit elements. We are limiting the total number of individuals to enter the gift shop at any given time, and we are following all new

information provided by the CDC and State of Ohio Department of Health. If you plan to visit the museum, please continue to self-monitor and if you feel ill, please stay home, and visit us at another time. At this time, the museum will not host in-person events. However, we welcome all to participate in our upcoming virtual programs.

From Radek Wyrzykowski Manager of Flight Proficiency

As you may be aware, to make things more interactive and easier to access, we are retiring our EAA/IMC Club Facebook page and closing our IMC Club Twitter feed. At the same time, we have created a Facebook group for both EAA IMC and EAA VMC Clubs. This group will serve as a discussion forum for pilots interested in building proficiency and as an exchange of ideas and information forum for IMC and VMC Club program coordinators like yourself. Please request your access to the group at <https://www.facebook.com/groups/eaaimc.vmc>. Also, please follow me at [https://twitter.com/radek\\_imc](https://twitter.com/radek_imc). Most of the IMC/VMC Club news will be there from now on, and there are a lot of new and exciting things coming your way soon.

I hope we will have spirited discussions on this forum and disagree on aviation topics civilly and intellectually. Nothing is giving me more joy than an honest intellectual discussion on any topic. Please feel free to invite any of your pilot friends to this group. IFR and VFR pilots as well.

EAA Chapter 5 is located at the Geauga County Airport in Middlefield, OH. The chapter exists to:

- Provide our members with educational and recreational opportunities
- Promote general aviation in Geauga County
- Benefit the Geauga County Airport

Chapter 5 members are builders, pilots, and aviation enthusiasts of all ages. We welcome all to stop in and see us for a program, safety seminar, fly-in event or one of our movie nights!

EAA Chapter 5 is a 501(c)3 organization, and donations of cash or other assets to the chapter are tax deductible.

## IAC Chapter 34 – Ohio We're Here to Fly

# Welcome to the Ohio Chapter of IAC

We are a group of aviation enthusiasts dedicated to the sport of recreational and competition aerobatics. Our membership is primarily in Ohio but with many members scattered throughout Indiana, Kentucky, Michigan and beyond. We are all about friends, family, and fun. You don't have to compete in aerobatics to be a member. We have many members that are interested in recreational aerobatics or who are non-pilots, but still enjoy and help in all our endeavors.

### **New to aviation or aerobatics in general? Wondering why we do this?**

Put simply: it's fun, it makes you safer, and it creates better pilots. Similar to figure skating, it is a synchronized ballet of pilot and machine through a choreographed sequence of standardized maneuvers in front of judges. Difficulty ranges from Primary and Sportsman to Unlimited...there truly is a place for everyone!

Come on out to a [chapter meeting](#)...we'd love to get to know you and answer any questions you have. **So, what are you waiting for? Come join the fun!**

EAA Chapter 2 Encourages and Promotes Sport Aviation and Aeronautical Education  
in Northeast Indiana. EAA Chapter 2 was chartered October 1, 1956  
and is a not-for-profit 501(c)(3) organization.

The National Airmail Museum will be a place for the community to come together and celebrate the storied history of Fort Wayne and the city's role in aviation history and the development of the National Airmail Service. The Museum will be housed in Hangar 2 at Smith Field Airport and feature interactive, hands-on exhibits that provide an in-depth perspective and bring this story to life. The museum will also be home to the Experimental Aircraft Association's (EAA) Chapter 2 Headquarters, gift shop and a uniquely themed dining experience.

Our goal is to revitalize hangar 2 of Smith Field as the new home of the museum and to create an exciting venue that brings these amazing stories to life through interactive exhibits, artifacts and hands-on experiences. Visitors will be transported back to a time when Fort Wayne played an essential role in the development of the Airmail Service and supported the efforts of WWII.

The mission of the National Airmail Museum is to inspire a new generation of aviation enthusiasts and bring life to the rich history of pilots and aircraft in and around Fort Wayne, including the story of the National Airmail Service.

Greenfield, IN 46140

**Programs:** IMC Club, Young Eagles, Technical Counselors, Flight Advisor, Eagle Flights

**This newsletter goes out to all EAA Chapters in Ohio, Indiana, West Virginia, Kentucky, and Michigan. It also goes to a lot of the FBO's in those states also.**

**So, if you are planning to host an event and would like to get it out there, this is a place to do so.**

**If you are a Chapter that would like an article published in the Ohio Region Chapter Newsletter, please feel free to submit an article to me. Also, if you are a manager of an airport / FBO we would like your articles also. Tell us about an event that is going to take place at your airport, a great restaurant that is on the airfield for those pilots that like those \$100 hamburgers.**

**A great place to visit that is close to the airport where you have a courtesy car or that they are willing to pick up visitors and take them to the location.**

**If you are a local chapter and are willing to transport visitors of your airport to a local event that is great. Let us know and we can post it here. Afterall, EAA is known for its hospitality.**

**If someone from your Chapter has a plane, parts, or tools for sale we can include it here.**

**If you do not want to write an article and would like for me to visit your website / Facebook page and gather my own 'intel' for an article, let me know.**

**Be sure to let me know if you have a different person that will be sending articles or to receive the newsletter to distribute to your Chapter members.**

**Please share this with your aviator friends.**

**I will be starting a comment section so please send your comments as to what you would like to see from Chapters and FBO's.**

**Also, if you would like to be added directly to the mailing list, please send me an email.**

***Thanks to all who sent me an article! Also, even if you do not have an event to talk about or an upcoming event to let us know about, a human-interest article with pics is also welcome.***

***We love to hear about your members. Also please start thinking about the November newsletter. I would like the articles for it by October 25<sup>th</sup>.***

***Send those articles or stories to me at [Daford1957@gmail.com](mailto:Daford1957@gmail.com)***

***Thanks again - Darlene Ford***
