#### Secretary Corner

Much the same as last month. Work and not much play. Covid went through the work place and had 3 of my 12 coworkers off for two weeks. Change of schedules and working one day off and a day on really tires me out. After working on the Sundowner project baffle seals, I am going to replace mine. And yes. I don't need another job. Garden is finally producing and may get something to eat before the frost comes.

Gathering started at 7pm. Eight at the building and three attended by ZOOM.

Next board meeting will be at the Big Hangar at 6 pm. This will be a walk through for the Young Eagles Fly In. The Hangar will have to be configured to make the ease of transition to the airplanes and safety for the Young eagles. Lots of work for the first one in years. Ron will be in charge of the Young Eagles Program. Registration is mostly on line. Paperwork and

certificates are ready when the passengers get back the hangar.

About 100 have registered. There will be a pilot's lunch afterwards for the ground crew and pilots. Make sure your background checks and certificates are done.

The UAV school will give time on flight simulator and other demonstration to help with education and understanding for flight.

Very good turnout of members and the College Place Chapter filled in the rest of the needed position.

The Event was cancelled due to poor visibility and unhealthy air quality. Will be scheduled for August 28<sup>th</sup> 2021. Then we get to do this all over again. Hope for better weather and blue skies. Hope the turnout is just as good.

Sundowner Project. Work has been happening on Sunday AM at 8 to 11 at T hanger. Help is always needed. Plenty of tools and little projects. Baffles are going on and the right wing tip is the present points of interest. The more to work the faster it goes. SEE YOU THERE.

Flyout to Neilson Ranch.

Very good turnout. Lots of food and great company.

Will post pictures on the web site and facebook in the next month.

The gathering closed at 745pm

Refreshments and hangar flying commenced.

Submitted  
Bruce Mayfield  
Secretary
