December 2022

Chapter 289 Newsletter Around the Patch

Flag hanging in Bruce Beecroft Hangar.

Around the Patch and now on Final

AMAZING that 81 years later, there's still survivors that make the trek back to PEARL HARBOR to commemorate that DAY OF INFAMY. LESS AMAZING, that we're headed into a winter weather advisory (December 8, 2022), and our members are trekking south or holiday traveling, or stocking up for hibernation!

A VERY BIG HURRAH for our friends over at the CTE ACADEMY on the NW side of town, for their super successful GRANT to procure THREE FRASCA FLIGHT SIMULATORS! WOW!! A VERY GREAT DEVELOPMENT for our students getting into that aviation program. MEGA KUDOS!!! ADVICE TO ALL, NEVER PASS UP an opportunity to fly a state-of-the-art Flight Simulator, it's definitely a worthwhile experience. 289ers.

TO EVERYONE, WHEREVER YOU ARE, MERRY CHRISTMAS and HAPPY NEW YEAR! Bruce B

Pictures or Information (articles)

EAA Chapter 289 would like pictures of members past or present projects or other information. These pictures will be displayed at Chapter building or posted on Chapter Website or published in Chapter Newsletter. This way we can showcase what the Chapter is all about. Please include a short story about the project.

E-mail to pethau@sio.midco.net

November 19, 2022 Lincoln County Airport.

It was cold morning with temp about 21 or so and partly cloudy sky along with nice sunrise. Throughout the day it was windy and partly cloudy.

Think &
Fly

Lincoln County Civil Air Patrol "Lobos"

Pictured in the center, Capt. Brad Lofland flew as part of the CAP aircrew that participated in training missions with the 114th Fighter Wing, Air National Guard. These training missions, referred to as Felix Keynote, help F-16 pilots prepare for the possible interception of aircraft that may violate restricted airspace.

LCCS was invited to have an information/recruiting table at the Career Technical Education Academy (CTE) as part of their Career Days. CTE students and their parents stopped by to learn more about Civil Air Patrol. Manning the table were 1Lt Kyle Clement and Capt. Denise Clement.

EAA CHAPTER 289 AVIATION 4-H CLUB

Rick Schuer
605-332-7734 or rcsflyer748@yahoo.com

2003 Calendar

September 4 - Pot Luck Picnic (Chapter is invited)
October 2 - General Meeting

Teenie Two Airplane Project Work Times - Everyone is Welcome!
Saturdays - 8:00AM - 11:00AM
Thursdays - 7:00PM - 9:00PM

We have room for more kids. Do you know someone ages 7 to 18 who is interested in aviation? Invite them to come check us out and join our club. Contact Rick Schuer.

RAFFLE WINNER

Ed Parkhurst (right) presents the Pro V Air Transceiver to raffle winner Rick Schuer.

Congratulations to Rick and thanks to Ed for a very successful late raffle ticket sales effort.

A SMALLER PROJECT?

Not ready for a full-size construction project? Check this out.

Rick Schuer has obtained plans for a Tailorcraft "Pedal Plane" and would like to gather a group to build it -

possibly as a future raffle prize.

This is a mostly wood project - a metal parts kit is available. This one won't take 3000 hours to complete.

If interested, come out to the Builders Group on Thursday evenings at 7:00PM or Saturday mornings at 9:00AM or contact Rick Schuer at 332-7734.

CONSTRUCTION AT Y14

The Lincoln County Airport ramp expansion, including 12 additional tie-downs, is nearing completion.

Also, site preparation is underway for new hangars west of the ag ramp.

Safety Tip

Winter flight operations

By Bruce Beecroft

Winter flight operations open a very large Variety of subject areas that CANNOT BE NEGLECTED. TOO MANY to casually summarize, so winter requires pilots to get INTO SELF STUDY REVIEWS BIG TIME. What about physiology of COLD WX OPS, CARBON MONOXIDE, clothing for flying AND survival eyewear, survival equipment, preflight operations, run up procedures, icing on surface and aloft, aircraft performance, visual issues with snow and ice, heater ops, ski ops, passengers on slippery ramps, briefings, landing distance on icy surface, NIGHT operations and MANY MORE. ENTIRE BOOKS have been written on these subjects, perhaps because people have been injured or lost BECAUSE of lack of knowledge OR preparedness. So THIS month's TIP IS READ UP, REVIEW, THINK and PLAN BETTER. Assign yourself some TIME to dig in and review ALL THAT YOU CAN. KEEP YOUR PERSONAL FUN METER IN THE GREEN. FLY AND ENJOY THE SMOOTH AIR! BB

Lincoln County Civil Air Patrol "Lobos"

Aerospace Education Day at Lincoln County Composite Squadron: Cadets gathered at their squadron to continue their journey in Model Rocketry. They have been learning about the history, the three stages of rocketry and building rockets at their monthly Aerospace Education meetings. Cadets completed building their rockets and the online testing needed for their goal of earning their Model Rocketry Badges. Unfavorable wind conditions delayed launching of the rockets until a more favorable day in the near future. All in all, it was a very successful and fun day.

With the help of pilot Lt. Col. Justin Johnson, **(left)** LCCS was able to complete 5 Orientation Flights. Cadets are instructed, shown the parts of the plane and how they contribute to flight before taking off. Cadet Bella Brewer **(right)** completed her first Orientation Flight and received her Certificate of First Flight.

③ Remember the pilot is always the first to arrive at the scene of the accident.

If in doubt - get out!
