It was my pleasure to spend a Saturday morning helping and learning with other Chapter members restoring the J-3 Cub. If you haven't had the opportunity to get to one of the J-3 work sessions, do yourself a favor and experience the process of this project!

Under the guidance of Jerry Blake, I and several others worked on the Cub that morning. I have to admit I spent most of the

time watching those who were working making progress on the plane.

As I observed Jerry give instructions to us, I was taken back to the short time I tried to teach in the classroom; he explained the details and looked into documents to show us drawings to help us to better understand what we were looking at and trying to do. The patience and enthusiasm he showed and to spend the extra time with us was amazing! I thought as I watched Jerry doing what he loves to do—and how much aviation has been such a big part of his life—what a huge role he has played in the Chapter from its inception. For him to stay so active with our Chapter is truly inspiring.

Thank you for all you do for us, Jerry!

Wishing you clear skies,

Mark Gosselin
