Greetings EAA Chapter 524 and Friends,

We have completed our application for the Ray Aviation Scholarship and submitted it to National. Now it's just a matter of time to see if we will be a recipient of the funds. The board members and the scholarship committee are working on the methods we will use to make the program successful and the process we will use to select the right person for the grant, if we get it. We are very excited about this scholarship and feel that with the help of everyone in our Chapter, we can mentor the right youth to receive his or her private pilot's ticket!

On January 17th, AOPA held a kick-off meeting for their 80th Anniversary Fly-in that will be held at Frederick Airport on May 10th and 11th, 2019. Several Chapter members attended AOPA's pre-fly-in meeting to see how we could help at the May event. AOPA projects around 500 airplanes, 2,000 cars and 6,000 people will attend. Looking at these numbers, AOPA will need all the help they can get. More information at our next meeting.

I, as well as many other Chapter members, participated in the SportAir sheet metal workshop this past weekend, January 19th and 20th. It was another successful workshop with many people seeking to hone their metalworking skills. I thank everyone who helped with this event and especially Rex, who works with National EAA to plan, schedule, coordinate, set up and break down the event to make it successful for everyone involved!

A big "thank you" to everyone who helped this past weekend!

Wishing you clear skies (and less wind),

Mark Gosselin

February Program

The Joy of Flying in Europe and North America

Our presenter this month will be Janet Davidson, and her program is titled "The Joy of Flying in Europe and North America." Janet has lived and flown overseas, and will share with us the challenges and rewards during these travels. Come hear about her real world lessons learned.

Weather Policy

EAA Chapter 524 Weather Policy

During periods of inclement weather or other travel-related issues, one of the Chapter Board members will issue a notice of meeting cancellation. This will be sent as early as possible to all Chapter members who receive the newsletter electronically. The notice will also be posted on [our website](#) and [Facebook](#) page. If travel is dangerous where you live, you should stay home. As safety is the number one priority in our flying, it is also for our Chapter activities.

Final Dues Reminder

The new year means it's membership renewal time. If you have not renewed your membership yet, you have several options for paying. You can mail your dues to our Treasurer (see the form at the end of this newsletter), you can bring cash or check to the February meeting, or – for the really tardy – you could pay at the banquet. Our dues have not changed again this year – same low price of \$30 for both individuals and families. With our current membership level, these dues do not cover the cost of our hangar rent and other expenses, so please do consider renewing as soon as you can.

We were once again fortunate to welcome several new members last year. If your membership has lapsed, please consider rejoining us.

Banquet Info

Our annual banquet date has been set for Saturday, March 9th. Reservations will once again be \$50 per person. We have encountered some issues scheduling the venue so we can't confirm the location yet. However, we do know that the program presenter will be Preston Burch of NASA and he will be talking about the amazing Hubble Space Telescope.

We hope to have final details available by the next meeting on February 7th. In the meantime, you can make your reservations by contacting Ernie O'Roark.

January Membership Meeting Minutes

03 January 2019

Meeting brought to order at 7:01 p.m. by Mark Gosselin

Mark P. detailed further trials and solutions with his Odyssey battery.

Rex confirmed that the next workshop is a completely full, sheet metal workshop on January 19 and 20.

Jerry updated everyone on the progress of the Cub. The instruments are in the panel, and a shutoff valve has been installed on the fuel tank.

Erick shared that AOPA is holding a fly-in on May 10 and 11 and there will be an opportunity for the Chapter to participate in volunteering and an opportunity to raise funds by helping with the pancake breakfasts that AOPA will produce.

Mark P. reported that the banquet will be on March 2 or 9 and will be \$50 per person. Preston Burch, an engineer who worked with NASA, will present a program about the Hubble telescope. RSVP to Ernie as soon as possible.

Mark G. informed the Chapter that EAA will send email invitations for the Ray Aviation Scholarship.

Jerry Blake continued his Wright Brothers program by speaking on their accomplishments in 1904 and 1905, particularly Flyers 2 and 3.

Meeting concluded at 8:32 pm

Submitted,

Erick Webb, Secretary
