1 year Director – Jack Norris
2 year Director – Cheri McGunagle
3 year Director – Dave Biddle
Webmaster – Darren Henley
Newsletter Editor – Alex Bodak

June 12, 2017

Hello Chapter 538 members!

Last month we had Steven Chung, Director – Emergency Services of Domestic & International Response Corps, LLC and his son Chris return and presented a follow up of last year's presentation of preparation and desert survival. Steve's presentation had us working in groups with an exercise in decision making in case of an emergency landing in a desolate desert area. The exercise had the groups work on decision making and priorities from a list of available items. Good brain storming and sensible thinking from the chapter. Congratulation's again to Chris' acceptance into the West Point Academy!

No presenter scheduled for this month so we will be showing EAA's June Chapter Magazine Video. We spoke last month of fundraising ideas. The Poker Run was brought up and this month I'd like to ask the membership what month would best work for everyone for this event to happen. Heat is of course an issue here in the Valley of the Sun and the fall is also a very active time for flyers with Airventure in July-Aug and Copperstate in October time frames.

June 3 was our last scheduled Young Eagles event for this school year. It was in support the Tuskegee Airmen Association ACE (Aviation Career Education). We had a total of 19 Young Eagle flights. We had a good pilot turnout and were a little thin on ground crew but all went smoothly. Briefing was started at 6:45 and flights were done by 8:30. Thank you volunteers!

Special announcements:

I'd like to recognize that we have two new E-AB aircrafts that received their airworthiness certificates this last month. **Chris Rute** received the certificate for his RV7A 3 weeks ago and **Tom Velvick** received the certificate for his RV6A this past weekend. Congratulations gentlemen on your accomplishments and safe flights in your phase I!

Do you have a project you're working on and don't mind visitors? We're looking for members with projects that would like to show off their work! If you do, let us know and we'll work on having a project visit! Contact Carlos at eea538board@gmail.com to coordinate.

I look forward to seeing YOU on Tuesday June 13, 2017 at 7:00 pm in the Deer Valley Airport Restaurant. Come early if you are hungry and enjoy the Social Hour starting at 6:00 pm. Please plan to attend, and don't forget to bring a friend!

Thank you for being a part of EAA Chapter 538!

Here are some photos of my AeroSun VX taxi/landing light installation. The original wingtips need to be modified. Basically you have to cutout the mounting location and insert another. Fiberglass layups and 3M Lightweight body filler were used to do the job. I also include a shot of me testing the landing light of one VX shining it across the street to my neighbor's house. Brighter than I expected for LED's. Can't wait to see what both together will do.
