SPEED'S NEWS

SAINT PAUL

AUGUST MEETING:

MONDAY, AUGUST 8TH
7:30 AT SANBORN AVIATION

54

This is your slightly irregular newsletter; Only one page because the Editor is in the middle of a move, and it's AUGUST!

JULY'S meeting was mostly planning for the Convention.

THE SPIRIT Project will be the big feature of the AUGUST meeting. August 7th it will be over at Wold, (Mpls), then monday it will come down to Holman Field. ✓

If you're reading this after you've returned from OshKosh, please make haste to get your pictures ready for the september meeting, as many members will be bringing in their photos then.

Wanted: A skilled seamstress or silkscreener to help make the Chapter 54 Flag. this is surely your chance to go up in history.

LOST: One member, (Boy is this a beauty!) named ED SMITH -which is why we didn't just call him up. It seems Ed paid his dues, then split for the high country. We don't have his address, phone number, or any fingerprints. If you know where or where he is, Call Rosemary Frank at 451-8187. Ed SMITH has some newsletters coming.

THE PRICE IS RIGHT: (Or, Eat Your Hearts Out) Did you hear about Sherryl Krause? She won \$20,000 in prizes while on vacation out in L.A. She was on "THE PRICE IS RIGHT" when she won a small plane - a Grumman Trainer. Her husband has been flying for 12 years, but apparently it took having her own to get Sherryl into the air, she's now taking lessons. Boy, would I like to talk to her travel agent.

Make It Safe in '77: A single engine experimental crashed in Arlington, Washington last week. The Pilot was 28 yr-old Jack Belund from Kent Washington. An FAA man riding along was sent to the hospital in critical condition.

OFF THE BOOKSHELF: "ONCE UPON A THERMAL" By RICHARD A. WOLTERS. "Old Dog" Wolters wrote books about dogs, and stories about hunting and such for years, which is how he got his nickname. Late in his youth (48) he discovered Soaring. Wolters is a funny man, and this book is the compendium of his reflections about his new sport. It's a good look into the mind of a good pilot, with plenty of amusing ~~maxix~~ stories, like the one about the time the author ate poison ivy. If you want to know more, you've got to read the book.

PLEASE NOTE: Your EDITOR Pat Riley, is relocating to: 309 E. 1st Street,
CHASKA, MN 55318
