## ***President's Corner***

### **Who's ready for summer???**

I know I sure am. Unfortunately, my cowling mod is taking a lot longer than I had originally planned, But I am getting closer and definitely looking forward to some warmer weather and flight testing it. I'd love to make this month's meeting a hype meeting for the upcoming flying season. For projects and flight Reports I also want to hear your summer plans. What projects do you have planned? what trips do you have planned? are you looking to get a new rating? fly somewhere new? Let's hope our warm thoughts and plans help bring in some warm weather. Also, in preparation for summer we will be rolling silverware for the dawn patrol at the end of the meeting. due to the colder weather and how much smoke the burgers made in the hangar we will be doing hotdogs for the cookout this month and hopefully will be warm enough to cook outside next month. As always, I am excited to see all of you and talk all things aviation, as you all know I am never short on that.

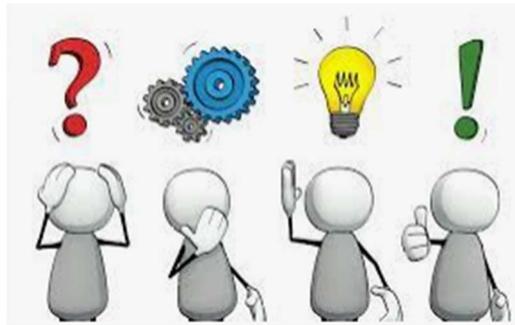

Jake Carmer

## Looking for Program Ideas!

We are looking for programs for future membership meetings. Remember, these meetings are YOUR meetings and meant to be fun and engaging! So, share your ideas with us!

- Project report?
- New technology or aviation concept?
- Special flyout location you'd like to share?

Send them to Sandie Carmer at [EAA77Newsletter@gmail.com](mailto:EAA77Newsletter@gmail.com).

## Did You Know...

This reads:

Luckiest flier in the world was the pilot of this aeroplane who flew into a high-tension line at San Diego last month. The impact caused a short circuit, which saved him from electrocution. As sparks showered around him, the pilot crawled out, pulled himself to the power pole (right), slid to safety as his machine burst into flames. He escaped without a burn, cut, bruise or even a splinter from the pole.

*New Zealand Holland, 11 August 1939*

## TaylorCraft Project Update

*Submitted by Doug Isham*

We have seen some great progress the past month, we've got about a half dozen volunteers showing up to work on Saturdays now!

We have removed the landing gear and Randy Labar is making repairs to the bungee landing gear flange. Greg Nolan, Eric LaForest, Darrold Isham and I helped disassemble, clean and label brake and wheel parts for replacement and reassembly. We have done more preparation on the fuselage and replaced some hardware for the control cable pulleys.

Any volunteers interested in working on the Taylorcraft please contact me directly at 810-820-0765 or see me at this month's meeting. We will be not only hands on with the aircraft rebuild, but also on other aspects of the project such as fundraising, increasing club awareness online and corporate sponsorships!

I would like to ask anyone that has pictures or stories of N77FJ to please contact me as I am trying to put together a little history project about the plane.

-Doug Isham

By the way, did you know that on 12 September 1940 Grace Huntington soared to a world record altitude record of 24,310.975 feet in a Taylorcraft just like N77FJ? She was a legend of her time and by restoring our little tail dragger we're continuing their legacy!

# EAA® Pilot Your Own Adventure Writing Contest

Supported by Flight Outfitters®

Just wanted to share with you a fun contest posted on the EAA National webpage.

Just tell “the true story of how pursuing the dream of flight enabled you to do something that would have otherwise been out of reach.” Do so in 500-100 words and include 2-8 photos.

“How did you pilot your own adventure? Tell us how flying helped you transform from dreamer to doer.”

A lot of prizes to possibly win! Everything from jackets, fleeces, duffel bags, kneeboards, t-shirts, etc.! And grand prize is a teardrop camper for eight nights the week of Oshkosh in Camp Scholler, two free wristbands for Airventure, one free annual membership for a year, and a selection of everything above!
