

EAA Ultralight Chapter 75

North Central Wisconsin Lite Flyers

PO Box 12 • Schofield, WI • 54476

Editors Notes by Bill Markstrum

One of the things that a Vice Pres. gets to do on occasion is run a meeting. Last month the get together for our Chapter was at the home of Jim and Sandy Shnowske. Jim and Sandy fed us well and we thank them for that. We also had a couple of brave souls fly-in for the meeting even though the winds kept the rest of us on the ground. I am sure that Jim's Secretary report will touch on the highlights. Our usual Newsletter Editor is on a busy stretch with Poppy Sales and a weekend visit from grandchildren. Bill, we look forward to your insight in the coming months.

The thing that I want to say is a plug for the upcoming Club fly-in at my home field, Little O' Hare. This event has been a blast for myself and club

members, as well as the neighbors from our area that we invite. Last year we had club members give airplane rides to more than 20 guests and neighbors. This goes a long way toward fostering good relations for flying in the neighborhood. The weekend schedule is as such, Fly-in anytime from Friday afternoon through the weekend. On Friday evening we may go to a local bar for a fish fry. On Saturday morning will be the fly/drive to Wausau for breakfast at Rick Coe's hanger. At 10:30 there will be a dynamic Prop balance demo at Little O'Hare. Lunch will follow at 12:30 sponsored by the Chapter. The meeting will take place at 1:30, with the competition event at 3:00 pm. We hope for good weather and light winds as after the competition I hope that

our club members may be available to give neighbors and guest some airplane rides. We will eat dinner at around 6 pm and that is Chicken sponsored by Chapter 75 and a dish to pass by the rest of us.

We have refrigerators available for cold dishes and plug-ins for hot dishes. Evening will bring some time for additional flying and music and a campfire to end the day. Sunday will be leftovers for breakfast and fly home whenever?

Please check the enclosed Flyer for any more details. We hope to see all the Chapter 75 members as we can for this great event.

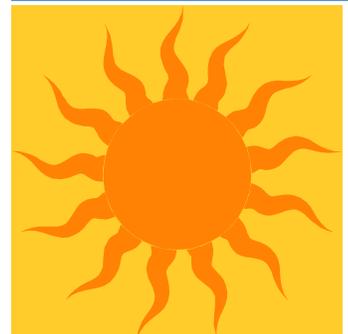

See you on the June 8th - 10th weekend.

Your VP Dan Marlenga

May 2012 NCWLF Meeting Minutes

The May meeting of the NCWLF was held at Jim Shnowske's workshop at JAKS Field. 25 people attended with only 2 airplanes flying in as the winds were 15 gusting to 25. After a delicious BBQ chicken sandwich lunch Vice President Dan Marlenga called the meeting to order. Self introductions took place. The Treasure and Secretary reports were given and accepted as read.

Old Business; There are still some jackets and hats to be picked up. Members, if you have a jacket coming, PLEASE come to the next meeting or arrange for another member to pick it up for you.

Chapter dues were due in April. Get yours paid so you can be eligible for the \$100 dollar door prize given away at every meeting. Still only \$12 dollars for the whole year.

New Business; As no one was opposed in the nominations for club officers last month, a motion was made, seconded, and passed approving all those nominated to fill the positions they were nominated for. Nominations were as follows:

President---Steve Krueger
Vice President--- Dan Marlenga
Secretary---Jim Shnowske
Treasure---Larry Wenning

Board of Directors---Joe Mapes, Paul Buss, Lyle Banser.

Jim Shnowske did a show and tell with the club's new tool library. Tools are available to be checked out or you can fly into JAKS field and use the tools right there. There was a lot of interest in the prop balancer. The group decided it might be a good idea to do a prop balance at the next meeting so members can see how to use the balancing unit. Jim Kleman volunteered to let his plane be used for the demonstration. The demonstration will be at 10:30 AM on June 9th at The Little O'Hare airstrip. A list of the tools available for checkout will be posted on our website.

Burger night at Rick Coe's hanger at the Wausau Downtown Airport is going strong. Grill your own burger. The grill is lit at about 5:30 and goes until dark. A donation is requested.

The last Tuesday Fly Night was rained out and the rain date was blown out. May 22nd destination is the Circle K airstrip in Irma. See the website for more details.

Memorial Day breakfast fly out to Doland Field on Lake Tomahawk. Breakfast served approx. 9:00-10:30.

Project reports; Dan Sire is putting together a Quicksilver GT-400. He has recently picked up his

Rotax 503 from LEAF. Wings are being worked on now. Dan hopes to fly later this summer. Rich Pranges wings are back on his Avid Flyer. He plans on firing up the engine this week. Rich also reminded our members to bring anything that is cluttering up your workshop to the Red Barn in the Ultralight area at Airventure and put it up for sale. Larry Wenning is officially starting work on his "Mangy Fox". Larry gave an update on Dave Meyers modified Avid project. The fuselage is painted and on the gear, wings and tail feathers are also painted. Now it's mostly an assembly project to put all the pieces together, hang the engine, install the panel and get it signed off!

Joe Grassl is getting some air time on his Just Aircraft Escapade. Ground hops have turned into laps around the pattern.

THE WINNER!!! of the \$100 door prize drawing this month was Chuck Fallos! Remember, you have to be present to win. (and have your dues paid!) The next club meeting will be June 9th at the Little O'Hare airstrip of Dan and Patty Marlenga, and Russ and Julie Post.

Secretary Jim Shnowske

Next NCWLF Meeting May 19

Our Next Chapter 75 Meeting will be Saturday June 9, 1:30 at the Little O'Hare fly In Little Chicago, WI

Tuesday Night Fly-In Forum

Happy spring everyone! The days are getting longer and the weather warmer. And most exciting, the grass strips are almost ready to use!! Now we need volunteers to host Tuesday Night Fly-Ins.

Just like last year, there are no special requirements, just a place to land and park. Food and drink are not required. There is no need to make it a big event (unless you really want to...)

If you don't have a private/grass strip, you are not out of the picture either. If you would like to host a fly-night at your home airport, just sign up.

We're not picky, we'll fly anywhere.

Pick a night from the list below and contact me. They will fill fast, so don't delay. We'll get the list up on the Chapter 75 website and publish it in this column every month through the season.

Fly nights will be held on the first and third Tuesdays of the month. (rain delay is the following Tuesday)

Please contact me at my e m a i l : theav8rweb@yahoo.com or my home: 715-536-5326 or my cell during the day: 715-218-8002.

Larry Wenning

August 21 tbd
September 4 Norrie Brook, Paul and Sue Buss

May 22 Tuesday Night Fly Night

Finally we had a successful Tuesday night fly-in. We all enjoyed the hospitality of Darrell and Candy Kuhn at Circle K Field in Irma. 10 planes were in attendance and we all got to practice our crosswind landings on their perfectly manicured runway (well most of us did at least). "Avid" Jim Zeitlow won the prize (a hearty handshake) for the longest trip, coming down

from Eagle River in his Jabaru powered Avid Flyer. Captain Brian Krueger flew in with the Rans float plane, still recovering from a recent medical procedure along with the rest of the usual suspects from Hatley, Merrill and Wausau. Thanks to everyone who attended and a special thank you to Darrell and Candy for the snacks and warm welcome to their

lovely airport. I apologize for not having any photos. I forgot to take some. Next we are off to Steve Kruegers Hangar at the Merrill Airport on June 5th, where it is highly recommended to land on the runway, right Jim? We still need hosts for August 21. Contact me soon.

Thanks.
Larry Wenning

UL Chapter 75 Tool Chest

Tools are available for UL Chapter 75 members to work on Rotax 2 and 4 stroke engines. Use carefully. If you damage a tool you will be responsible for replacing it. Fill out this check sheet with your name, date, and phone # for the tools you take. Please return tools within two weeks of checking them out.

Checked Out (X)	Part #	Tool Description
	877-091	Piston pin extractor
	N5203	"B" gearbox puller
	877-180	Locating sleeve for piston pin extractor
	877-051	Circlip installation tool assembly for 618 UL
	876-081	Puller plate to hold magneto flywheel 477/503/582/618
	876-065	Puller assembly for magneto flywheel 477/503/582/618
	877-805	wristpin circlip installation tool for monohook style circlip
	876-607	Insertion jig for oil seal on RV shaft 582/618 with oil pump, intake side
	876-500	Insertion jig for ball bearing on RV shaft 582
	877-860	RV shaft puller assembly
	877-825	Insertion jig for pressing in RV shaft seal
	876-612	RV shaft insertion jig
	876-980	Guide sleeve for RV shaft
	877-417	Pusher for hex nut on crankshaft magneto side
	877-379	Puller for layshaft gear in B,C and E gearboxes
	877-054	Insertion jig for RV shaft outer oil seal waterpump side
	876-512	Insertion jig for RV shaft inner oil seal water pump side 582
	877-450	46X20 socket wrench for 912 engine
	876-904	Cylinder alignment tool for exhaust flange 582/618
	876-171	Cylinder alignment tool for intake side 477/503
	877-520	Crankshaft twist diagnostic tool
		3/8" drive 60-250 in.lb. torque wrench
		1/2" drive 50-250 ft.lb. torque wrench
		Borescope
		Differential compression tester
		Belt/cable tension tester
		Maule fabric tester
		37 degree flaring tool
		Wire terminal crimper
		Oil filter cutter
		Pressure/vacuum tester
		Dyna-Vibe prop balancer
		Multi meter
		CarbMate carb synchronizer
		Rotax 2 stroke maintenance manual
		Rotax four stroke maintenance manual
		Bing carb manual

A selection of wrenches, sockets, allen wrenches, pliers, etc. are stocked in the tool chest to use if you want to work on your plane/project while at Jaks field. Wrenches and sockets are SEA and metric plus 4 different size sparkplug sockets. If you need any specialty tools (safety pliers and wire, zip ties, paper towels etc) for your plane please bring them with you.
