Gettysburg Barnstormers—EAA Chapter 1041

## Henry's Hangar

By Henry Hartman

Hello Barnstormers! Have you had enough of the March winds? Quite tough for flying, let's hope April is calmer and more conducive to getting up in the air.

Last month we announced the start of the IMC/VMC Club, and we're pleased to say the first meeting was very well attended and received with enthusiasm. 'Hats off' to Keith Feaga for organizing this new group, he is going to see great results from his efforts and we will all benefit from the time Keith is investing for us. Make note to attend on the second Saturday of each month, 9 am to 10:30 am. Thank you, Keith!

June is shaping up to be a very active month for us; the regular Fly-In/Drive-In Breakfast is the first weekend, June 2-3. The following Saturday, June 9<sup>th</sup>, will be the "Community Day" open house event at Capital City Airport when we are helping Chapter 122 do Young Eagle flights.

Also that same day (June 9<sup>th</sup>) is a living history cruise on the SS John W. Brown, the only remaining seaworthy Liberty Ship from World War II. Several Barnstormers have signed up for this day of learning and supporting a floating museum, one of the only ones left in the world. Baltimore is home to the Brown, she was built there during

the war and is home again so generations to come can learn about the way these ships made it possible to win the war. Contact me if you want more information or go to "[www.projectlibertyship.org](http://www.projectlibertyship.org)". We will be ordering tickets as a group so get in touch with me to be added to the roster.

The Board of Directors met in March and had a very productive meeting. Among other things, we have Field Trips being planned for the Udvar-Hazy Center of the Smithsonian and also a return to the Control Tower at Harrisburg International Airport. Attend the regular Chapter meetings to be first in line for these excursions.

We will again have a Movie Night on May 26<sup>th</sup>, so plan on coming out to the airport and enjoying a great movie and some fun with your fellow Barnstormers.

I hope to see you at all of our events,

Henry

## Editor's Notes

*If you have read an interesting aviation related book let me know and I will include it in a future edition of The Observer*

*Have an aviation related link? I'll include that in a future edition also.*

Gettysburg Barnstormers—EAA Chapter 1041

April meeting is Monday April 2nd

## Speakers John Sibole and Bob Howe

Topic: Air Intercepts from the fighter pilot, weapons controller point of view. In this seminar we will discuss what to do if you're intercepted in security airspace. Also a former fighter pilot will share what it was like to fly the F-106 during the Cold War and a Weapons Controller will tell us about the other side of the air intercept game—the job of detecting hostile threats and directing the interceptors to them. The Cold War SAGE System will be discussed

## Book Review

## Endurance: A Year in Space, A Lifetime of Discovery. By astronaut Scott Kelly

A stunning, personal memoir from the astronaut and modern-day hero who spent a record-breaking year aboard the International Space Station—a message of hope for the future that will inspire for generations to come.

Kelly's humanity, compassion, humor, and determination resonate throughout, as he recalls his rough-and-tumble New Jersey childhood and the youthful inspiration that sparked his astounding career, and as he makes clear his belief that Mars will be the next, ultimately challenging, step in spaceflight.

In *Endurance*, we see the triumph of the human imagination, the strength of the human will, and the infinite wonder of the galaxy.

Sam's comments regarding the day's activity

**"Joni's restaurant is a cute little place with heavy horse and buggy traffic. I got an omelet with so much diced ham and fried potatoes that I had to fly half of it home and finish it tonight. (Good Stuff). Once airborne on the way home coming up on the Susquehanna river from ~ 3,000 feet I could just make out Sugar Loaf Mountain (super clear atmosphere) we just lined up on the mountain which corresponded with the purple line on the pad. On final back at W2W we really had to fight the winds to set it down safely."**
