

EAA106 monthly (2nd Friday) program:

Phillip Johnson and his highly modified Cozy IV

FRI, September 11 – 7 PM (EDT) – On-Line (zoom link below)

Phillip will show us how he designed and fabricated many modifications to his Cozy IV, including Automotive engine conversion to replace the recommended Lycoming O-360, "Infinity" retractable main landing gear, Hydraulically retractable nose gear, Hydraulic landing brake, Increased canopy size with hinges at the front to simplify entry and exit, gull wing door for rear entry and exit, and home built propeller.
