**Presentation:** Jim Haunstein regaled the group with his presentation on “Restoring a Aeronca L-16 Champ.” The L-16 was a militarized version of the Aeronca Champion that saw extensive service during the Korean War as a liaison aircraft. Restoration of this L-16 turned out to be a 11-year project for Jim, as extensive time was spent looking for parts to replace those missing or damaged. Jim provided many pictures and a short video of his L-16 in flight upon completion. Jim is a long time member and former president of the Keystone Corps and has extensive building/restoration experience in both experimental and certified aircraft. He is also a designated EAA Technical Advisor and can provide advise and oversight for members projects. Our Events Schedule for 2023 is in work, and will be posted soon at: <https://chapters.eaa.org/ea122/2022-events>.
