Flying, Food, Flying, Fun, Flying!!! Great Family Event!

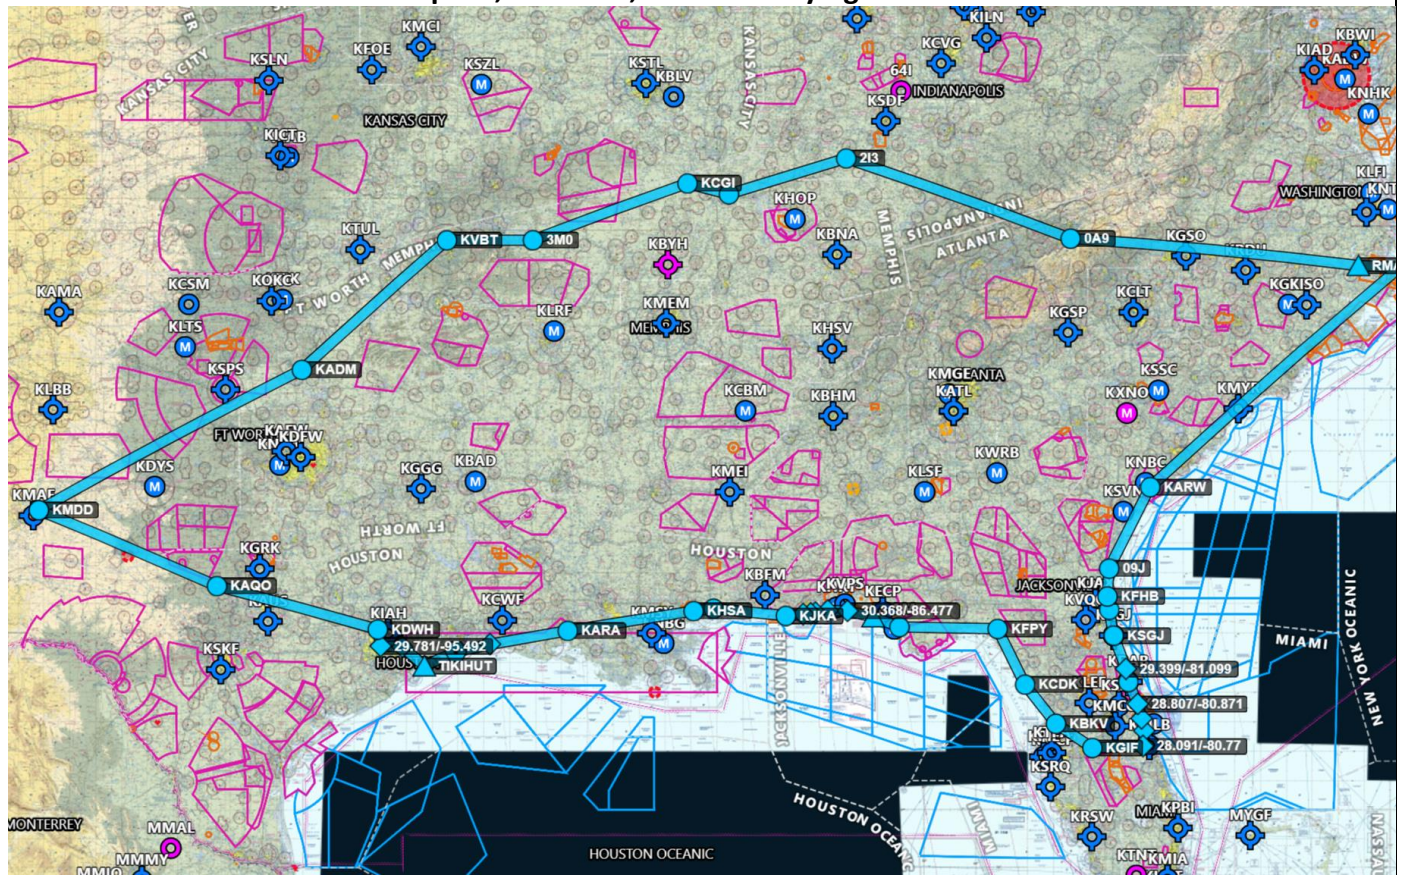

READY-SET-WAIT!

The Federal Air Surgeon has determined that FAA medical certificate holders may not act as pilot in command, or in any other capacity as a required crewmember for 48 hours after each dose of the Pfizer-BioNtech, Moderna, and Johnson & Johnson vaccines. The Federal Surgeon made this determination after evaluation of available medical information about these COVID-19 vaccines and potential side effects. As a result of this determination and consistent with 14 CFR 61.53.a, each person subject to part 67 who receives the vaccine must wait 48 hours after each dose before acting as pilot in command or as a required crew member.

WAZZUP – What our members have been up to!

John's and Eddie's Sun n Fun Trip – 3,826 miles, 39.4 hours flying & 14 states.

We need more pictures from our members! Projects? Travels? Planes? \$100 Hamburgers?

This Month In Aviation History

1 May 1960 — A Lockheed U-2 reconnaissance aircraft, piloted by United States Air Force Col. Francis Gary Powers, is shot down over the Soviet Union by a surface-to-air missile.

2 May 1925 — The Douglas C-1 biplane makes its first flight at Santa Monica, California and during the month completes trials at McCook Field

3 May 1923 — United States Air Service Fokker T-2 pilots Lts. Oakley G. Kelly and John A. Macready complete the first non-stop flight across the United States in 26 hours, 50 minutes, 38.4 seconds from Roosevelt Field, Long Island to Wickenburg, Arizona.

4 May 1924 — The first helicopter flight in a closed circle is made in France by Etienne Oehmichen's helicopter No.2. The previous month, it established a world record by flying 1,182 feet (360 meters).

5 May 1961 — Commander Alan B. Shepard, Jr., United States Navy, becomes the second man to explore space when he rides his Mercury "Freedom 7" capsule, launched by a Redstone missile, to 115 miles above the Earth. It is three weeks since Yuri Gagarin's first manned space flight.

6 May 1937 — The German dirigible "Hindenburg" explodes and burns on landing approach, killing 36, Lakehurst, New Jersey.

7 May 1958 — Lockheed F-104A "Starfighter" sets altitude record for aircraft of 91,243 feet.

8 May 1935 — Amelia Earhart makes first non-stop from Mexico City, Mexico, to Newark, New Jersey in 14 hours 19 minutes (Lockheed Vega, Pratt & Whitney Wasp engine.)

9 May 1926 — The first airplane flight over the North Pole is made by Americans Lt. Cdr. Richard E. Byrd and Floyd Bennett in a Fokker F-VII/3m. Their total distance from Spitzbergen, Norway is 1,600 miles (2,575 km).

10 May 1961 — A Convair B-58A "Hustler" cruises at a speed of 1,302 mph (2,095 kph) and wins the Blériot trophy, created 30 years ago for the first airplane to maintain a speed of more than 2,000 kph for more than 30 minutes in a closed circuit.

11 May 1927 — Charles Lindbergh lands his new Ryan airplane, the "Spirit of St. Louis," in St. Louis after a record non-stop overnight flight from San Diego of 14 hours, 25 minutes.

12 May 1963 — American flyer Betty Miller lands in Brisbane, Australia, to complete the first transpacific flight by a woman; she left Oakland, California, on April 30.

13 May 1940 — The first successful free flight of a true helicopter is made by Igor I. Sikorsky's single-rotor VS-300.

14 May 1908 — The first passenger flies in an airplane. Wilbur Wright takes Charles W. Furnas of Dayton, Ohio on a 28-3/5 seconds flight that covers 600 meters at Kill Devil Hills, North Carolina.

15 May 1921 — Laura Bromwell loops in New York State 199 times in 1 hour, 20 minutes, setting a new women's record for consecutive loops.

16 May 1919 — The first transatlantic flight is made in stages by the United States Navy's Curtis N-4 seaplane flown by Lt. Cdr. A. C. Read and his crew.

17 May 1997 — The first flight of the McDonnell Douglas X-36 tailless fighter technology demonstrator, power for which is provided by a 700 lb. s.t. Williams International F112 turbofan. The fighter takes off from Edwards AFB, California.

18 May 1953 — American Jacqueline Cochran becomes the first woman to fly faster than the speed of sound while flying a Canadian-built North American F-86 "Sabre." On the same day, she sets the world speed record for women at 652 mph (1,049 km/h).

19 May 1959 — The first Boeing 707-436 "Intercontinental," destined for British Overseas Airways Corporation (BOAC) makes its maiden flight, landing at Boeing Field, Seattle, after 1 hour, 11 minutes in the air. BOAC ordered 15 "Intercontinentals" in 1956.

20 May 1927 — The first solo non-stop flight across the Atlantic is made by Charles A. Lindbergh. In his Ryan monoplane “Spirit of St. Louis,” he covers 3,600 miles in 33 hours, 29 minutes and wins the Orteig Prize of \$25,000.
21 May 1977 — The Concorde makes a special trip from New York to Paris to mark the 50th anniversary of Charles Lindbergh's historic flight on the same route in the “Spirit of St. Louis.” The airliner takes just 3 hours, 44 minutes, compared with Lindbergh's time of 33 hours, 29 minutes.
22 May 1929 — Pan American Airways inaugurates a new passenger service from Miami, Florida to Managua, Panama with stops at Belize. The journey by a Fokker F.VII/3m takes 56 hours.
23 May 1940 — 320 Army aircraft participated in the first simulated European combat operations.
24 May 1922 — Master Sgt. Chester W. Kolinsky, 90th Squadron, at Kelly Field, San Antonio, Texas, makes parachute jump from altitude of 10,600 feet.
25 May 1910 — Orville Wright takes his 82-year-old father for his first airplane ride. Also on this day, Wilbur and Orville fly together for the only time in a six-and-one-half minute flight at Simms Station, near Dayton, Ohio.
26 May 1942 — The Northrop XP-61 “Black Widow” night fighter prototype flies for the first time.
27 May 1920 — The GAX twin-engine triplane armed with 6 machine guns and 37 mm cannon tested.
28 May 1920 — The first Lewis & Vought VE-7 (Vought Experimental No.7) is delivered to the United States Navy.
29 May 1951 — Capt. Charles Blair lands in his North American F-51 “Mustang” after making the first solo flight across the North Pole in a single-engine aircraft, from Bardufoss, Norway to Fairbanks, Alaska, covering 3,375 miles in 10 hours, 29 minutes.
30 May 1912 — Wilbur Wright dies of typhoid fever at the early age of 45. His death marks the end of his extraordinary partnership with his brother Orville, which culminated in 1903 with the first true powered flight in history.
31 May 1995 — The first flight of the Schweizer RU-38A “Twin Condor” long-range surveillance aircraft takes place in Elmira, New York.

CLASSIFIED ADS
