Mike Kelley's Totally Great Adventure Cross Country in a Sonex

At the May meeting, over 70 members enjoyed guest speaker & chapter member, Mike Kelley as he detailed his preparations and journey from Oregon to Florida in July 2022. Mike shared not only the preps needed for getting the airplane ready, but also for himself as this was a three day/two night excursion. He ultimately used 120 gallons of fuel and eeked out 21 mpg. Mike flew his Sonex to the meeting and folks were able to see first hand what a fine aircraft it really is.

What's Happening at the next meeting, June 10th?

Join us at 9:00AM for coffee/donuts and 10:00 meeting. Our Guest Speaker will be Linda Sollars...a Jet Blue pilot, and an aviation pioneer. She built the first High Wing Sling at the Sling Factory in South Africa. She then embarked on a 72 hour journey from South Africa to OshKosh, Wisconsin for AirVenture 2022.

AFTER THE MEETING: Steve Wolf will be opening up his hangar for all who would like to walk down from the meeting and see the P-47 progress with the wings.

Surveys taken at May meeting

Joel Samu, a grad student at Emory-Riddle, asked pilot volunteers at the May meeting and within the Love's Landing neighborhood to fill out a survey that was designed to discover risk taking traits in pilots in general. He needed 200 completed surveys in order to begin the data. He only needed 26 surveys to make it to his goal and he did it! He will be working on his thesis and final graduate presentation due this summer. Joel indicated that maybe in the fall, he will return and share his findings. He also said that this was the friendliest club/organization that he ever had the pleasure to visit.

Mike Angell - finding out what the survey was all about...

Melody & Joel Samu - so happy they made it to the 200th survey!
