What's Happening at the next Chapter meeting - August 12th

Join us at 9:00AM for coffee/donuts and 10:00 meeting. Our own Chapter member, Craig Ritson, will present his experiences and lessons learned test flying seven experimental aircraft. Weather permitting, he will be bringing an aircraft or two to the meeting. . . One such aircraft we might be able to see is an RV-8, another one of John Stahr's masterpieces.

Linda Sollars, Aviation Pioneer, shared her life experiences at the June Chapter Meeting

Linda Sollars, a Jet Blue pilot & world traveler, spoke to a nearly packed hangar at the June Chapter meeting. She flew in with her High Wing Sling aircraft. She built it in South Africa and flew 9,000 miles to Oshkosh 2022 last year. If you want to keep up with all of Linda's aviation experiences, follow her on Facebook. (Linda Langenfeld Sollars) She is a remarkable woman who has forged many paths in aviation.

But Wait... there was more after the June Chapter Meeting. . .

After the June Chapter meeting was over, nearly 40 chapter members walked over (or drove) to Steve Wolf's hangar at Love's Landing to see first hand the progress he's made on the P-47 (65% replica). He was in the process of making wings.

Chapter member, Kevin "KO" Oliver, shares the Flight Journey of his 1938 DeHaviland at July's Chapter meeting...

Kevin Oliver had quite the adventure flying his 1938 DeHaviland TigerMoth from northern Indiana to Love's Landing in Florida. He arrived safely, of course, but the DeHaviland being an 85 year old aircraft, one had to be ready for anything.

Special Thanks to Kevin for his great presentation...
