

EAA Chapter 1314

July Monthly Meeting

July 22 2020

Electric Beaver pictures from the EAA Electric Flight Presentation

63-year-old DHC-2 de Havilland Beaver retrofitted with a 750-horsepower electric motor. A 3 minute flight demonstrated in December 2020
Range of 100 miles max (Lithium Ion Battery)

Tonight's Meeting

- ▶ Get Connected
- ▶ A “Taste of Oshkosh”
- ▶ Reminder about “Spirit of Aviation Week”
- ▶ Mike Perkins Fly-By-Wire Presentation
 - ▶ Mike founded start-up company Millennium Flight Systems, Inc. in 2006 and is familiar with the many advantages of FBW systems along with the many challenges facing those who design them and use them. Mike built and regularly flies his Kitfox Model I and is currently building a Tango 2.
 - ▶ He is a past president of Chapters 790 and 1420, an EAA Flight Advisor, and Technical Counselor. He has written articles and has given talks on several topics ranging from AOA to Zero-defects.
- ▶ Some Chapter Business
 - ▶ EAA Member Numbers
 - ▶ Preview of Next Month's Builder Night
