January News & Views

Airport news

- After successful surgery on Tuesday, January 23, Jack Hemmings is doing well and on the road to recovery! Fortunately, the surgery was moved up from the original date near the end of February...
- The row of T-hangars that have been under renovation are looking good and are all but ready for occupancy.

- The new hangar for the King Air is also nearing completion and should be ready for move-in in the next few days.

Continued on page 2

RV-12 Build

- The RV-12 build project continues to move forward.

- There are now four youth participants in the project. They include Mason Sanders, Gavin Low, Aiden Chesire, and Elijah Hatton.

Aiden joined the group two sessions ago. Interestingly, he worked on this airplane as an eighth grader in Columbus where the plane first started as an Aviation Nation Project prior to Bob Kelly's stroke. Though Aiden is now a high school graduate, he has seen fit to rejoin the project!

Elijah, shown below working on the RV-12 canopy, will graduate from Jennings County High School this spring and intends to pursue a career in aviation. To that end, through an intern program at the high school, he is able to job shadow various functions at the Seymour Airport. He is also taking flight lessons in Seymour, having accumulated 21 hours of training toward his private pilot's license. As a result of this interest he has shown in aviation, the EAA Chapter 1328 Scholarship Committee has awarded Elijah a Ray Scholarship to help cover the training expenses necessary to acquire his private pilot's license. He has only to receive confirmation from the National EAA scholarship folks. Congratulations to Elijah!

Note: The Calendar below includes changes made at our January 13 membership meeting.
