EAA Chapter 1387 Newsletter

President's Corner | June 2024 | Bill Jagust

2024 01 JUNE FORMER "LEARNERS AS WE GO" are NOW...JUST ROMEO'S

Ahhhh..... I remember it like it was 35 years ago.

01/20/1989 New Hire Class at TWA

But then I asked, WHERE DID THE TIME GO???

THEN 35 years later...

My BIG 2 minutes of fame on the Channel 5 news broadcast while taking the last McDonnell Douglas MD-80 on September 05, 2019

<https://www.youtube.com/watch?v=Ko5Wgtbv8u>

LANDING IN ROSWELL, NM WITH THE LAST MD-80

THEN

Transferring to the mighty Boeing 737-800 Next Gen....

FLYING THE TWA RETRO PAINTED BOEING 737-800

So now with retirement in the rearview mirror and new opportunities on the horizon containing HOT AIR, I am traveling at a much slower airspeed

KEEPING ME ABOVE THE HORIZON, we joined a new club, we are now just.....R O M E O 's

R RETIRED

O OLD

M MEN

E EATING

O OUT

So, with that new title please join the other EAA 1387 and airpark friends for the

EAA 1387 MEETING

SATURDAY JUNE 01, 2024

SALUTE TO THE OZARK/TWA RETIRED PILOTS

WITH A “ROMEO” BREAKFAST (Coffee & Donuts)

at 0900 at

311 BONANZA CT. TROY AIRPARK

TROY, MISSOURI 63379

Followed by a “ROMEO” LUNCH at 1100 at

BIG STICKY'S (upper level)

180 East Cherry Street Troy, Missouri 63379

With most of the Troy Airpark Pilot's retired from AMERICAN AIRLINES, and because we are getting OLD, this is the launch into the ROMEO era for the men of the OZARK/TWA ERA. Come by and visit the EAA 1387 MEETING of the GREY HAIRS and join in on the fun and memories of these Fabulous Men and their flying stories.

Upcoming EAA Webinars

EAA gratefully acknowledges the support of Aircraft Spruce and Specialty Co. for their generous sponsorship of EAA webinars. Registration is required, and space is limited.

Minimally Invasive | Qualifies for FAA WINGS and AMT

Wednesday, June 5, 7 p.m. CDT with Mike Busch

Medicine has enthusiastically adopted minimally invasive procedures. Instead of biopsies, we do ultrasounds and MRIs. Instead of open surgery, we use laparoscopic and endoscopic procedures. In this webinar, maintenance expert Mike Busch A&P/IA makes the case that we should also be using minimally invasive methods in the maintenance of our aircraft.

Rose Parrakeet | Museum Webinar Series

Tuesday, June 11, 2024, 7 p.m. CDT with Chris Henry & Amelia Anderson

The little Rose Parrakeet is a biplane with an interesting history as both a standard category aircraft as well as homebuilt. Join the museum team as we talk about our newest addition as well as take you along on what it takes to get an airplane shipped to the museum.

Zeppelin: The First Airliners

Wednesday, June 12, 2024, 7 p.m. CDT with John Mellberg

All about the airship. A historic overview of Zeppelins, the first airliners. Before the Wright brothers' first flight, on July 2, 1900, the first Zeppelin, the LZ-1, carried several passengers aloft for a flight over Lake Konstanz, Germany. A rigid airship was also the first aircraft to carry passengers across the Atlantic Ocean, twice as fast as the steamship of the day. Join EAA Aviation Museum Docent John Mellberg as he recounts the fascinating history of Zeppelin airships.

Making Friends with a Sukhoi | Qualifies for FAA WINGS Credit

Tuesday, June 18, 7 p.m. CDT with Wes Liu

Wes Liu, IAC chief judge, shares his journey transitioning from a Pitts S-2A biplane to a Sukhoi Su-26 monoplane with a radial engine. From first flight in this new-to-him airplane through flying aerobatics, Wes shares some tips and lessons learned during this transition process. In March 2022, Wes found himself standing next to the Su-26, 800 nautical miles from home, organizing his thoughts to plan for a first flight in the airplane. Tune in and learn all about his process to safely transition into this new aerobatic airplane.

Tips for Flying Into EAA AirVenture 2024 | Qualifies for FAA WINGS Credit

Wednesday, June 19, 7 p.m. CDT with Fred Stadler

Learn all about the 2024 AirVenture NOTICE arrival procedures. EAA's volunteer NOTICE Chairman, Fred Stadler,

describes FAA required procedures and shares useful tips for reducing pilot workload when flying into Oshkosh for AirVenture 2024.

Ultralight/Homebuilt Rotorcraft Arrival Procedures - AirVenture 2024 | Qualifies for FAA WINGS Credit

Wednesday, June 26, 2024, 7 p.m. CDT with Mark Spang

Flying into the ultralight/homebuilt rotorcraft grass runway at EAA AirVenture Oshkosh 2024 requires compliance with the FAA-issued NOTICE. Mark Spang will discuss the NOTICE arrival and departure procedures specific to the Fun Fly Zone grass runway on the south end of the airport used by ultralights/lightplanes and homebuilt rotorcraft.

EAA AirVenture 2024 Features and Attractions

Tuesday, July 2, 2024, 7 p.m. CDT with Rick Larsen and Sean Elliott

Join this webinar to learn about what to expect at AirVenture 2024. Rick Larsen, EAA vice president of communities, member programs and AirVenture features and attractions, and Sean Elliott, vice president of advocacy and safety will discuss the latest news on what to expect at EAA AirVenture Oshkosh 2024.
