# INDY FLYER

## Gearing up for Spring

### Indy Flyers Pancake Breakfast Fast Approaching

Our annual Pancake Breakfast and Spring Walk-around is coming up on April 24th from 7:30a - 12p. The local EAA Chapters have been invited via Facebook and email but please share the event posts you see on social media to increase awareness of this year's event.

### AirVenture 2021 Tickets Available Now

**AirVenture 2021 dates: Monday, July 26-Sunday, August 1**

**NEW THIS YEAR!** Free youth admission ages 18 and under!

We should begin planning our adventures. With some coordination we can meet up in OshKosh and share some flying, activities, classes, camping and camaraderie.

### Volunteers Needed

Recruiting efforts for EAA AirVenture Oshkosh will begin soon! They will be looking for Tech Talk presenters, and/or a simulation instructor. If you qualify and are interested, visit the EAA website for details.

**"Volunteers are not  
paid, not because  
they are worthless,  
but because they  
are priceless"**

## Chapter Meeting

Our February 10th meeting is being moved from the Westfield Airport Pilot Shack to member Scott Meyer's home. The usual business will be discussed and work will continue on the Flut R Bug project. The small group is interested in working on more projects. How and where we accomplish the work will be determined by the project. We have a few submissions waiting for warmer weather but we want to make sure everyone who wants it, gets the attention and innovation of the group. Please contact Amy Solomon or Scott Meyer if you want to get involved. NO EXPERIENCE NECESSARY.

## Updates on our Member Friends

Mike Ward has had a very large surgery on his back and he is at home recovering. He reports that he is in very little pain but he is pretty stir crazy and has limited mobility. I know we are all wishing Mike a speedy recovery. Best wishes to his wife Becky, too!

## Newsletter Needs

In order to make the newsletter more effective, we are asking for your submissions. We would love to hear about your project updates! If you are buying or selling a plane, it's part of our member fleet and we want to know about it! If you are trying something new in this "experimental" world, we definitely want to hear the story! Call or text Amy Solomon at 317-903-6887 and she will follow up with you for the details.

*Volunteer to be a Chapter Officer!*

Getting involved is the best way to get what you want out of the club experience. Lending a hand can be a positive way to gain a partner in your project! Contact Monty Bolinger if you're interested.
