

An exciting summer coming up, EAA has committed to bringing the B-17 to Canada this year with Regina as one of the four Canadian tour stops. If you would like to get up close and personal with the iconic warbird watch out for a chance to volunteer!

I welcome any input EAA and COPA members might have for future issues, I can be reached via email at wood23@sasktel.net, by phone 306-751-1064

Spring Project tour

Every spring we like to get out and have a look at progress made on the various members aircraft. Suggested projects for this year are Mike's RV9A, Wayne's RV12 (or will it be flying by then?) and Vic's Sky Bolt which has had considerable progress this winter.

Any other suggestions or members that would like to show off their project please let me know.
