Steady progress is being made on the CH 701 build at the Saturday morning and Wednesday evening build sessions. Sept 1 saw a test run of the Viking engine, a very smooth running engine and surprisingly quite with no muffler.

Be sure to drop by to check out the plane or lend a hand, we are hard at work Saturday morning after 9 or Wednesday evenings after 7 in Noel's second garage behind the house 3115 Zeck Place.

VMC Club Meeting Tuesday Oct 2, 7pm

The VMC (Visual Meteorological Conditions) Club presents an opportunity for EAA Chapter 154 to hold meetings with the intent of sharing knowledge and encouraging fellowship among pilots with the added benefit of improving awareness, skills and promoting safety.

The format of the meeting is a short video that presents a real life flight situation followed by a discussion What Would You Do. There is no solution provided so it is up to the pilots at the meeting to present their thoughts on a resolution. Meeting starts 7pm in the RFC pilot's.

Everyone welcome to attend.
