

# Visual Meteorological Conditions (VMC) Club

Consider an engine failure on takeoff

# What is VMC Club?

- VMC Clubs are semi-formal forums within an EAA Chapter where VFR pilot proficiency topics are discussed.
- A few months ago, *Sport Pilot* featured a series on return to airport operations due to an engine out. The following is video of one such scenario considered.

# The Video

- [Cessna 210 Turbo Centurion engine failure – Edward Frye \(pause @ 6:11\)](#)
  - What would you have done?
- [Edward Frye’s analysis of the flight](#)
- [Discussion into the causes of the engine failure](#)
- Please check out Charlie Precourt’s excellent “Flight Test” articles in *Sport Pilot* for more discussion on returning to the airfield after an engine out: Sport Pilot March 2021, **May 2021**, November 2021
