EAA AirVenture 2023 Jack Pelton Closing Remarks

EAA AirVenture Oshkosh 2023 Facts and Figures

This year's annual convention turned out to be another record-setting year.

“There was so much going on during the week that encompassed the entire world of flight, from the presence of the U.S. Air Force Training Command and NASA, to magnificent aircraft restorations and exciting new flying technology,” said EAA Chairman and CEO Jack J. Pelton. “Oshkosh was again the place that brought the aviation world together.”

This year's attendance was approximately 677,000, up from the previous record of 650,000 last year. But attendance numbers weren't the only record.

“We had record-setting totals of campers, exhibitors, volunteers, and more,” said Jack. “It was also a challenging year at times with weather, logistics, and other factors, which makes me even more proud of the efforts by our volunteers and staff to organize an outstanding event.”

Here are some additional details from this year's fly-in:

Total aircraft: More than 10,000 aircraft arrived at Wittman Regional Airport in Oshkosh and other airports in east-central Wisconsin. At Wittman alone, there were 21,883 aircraft operations in the 11-day period from July 20-30, which is an average of approximately 148 takeoffs/landings per hour when the airport is open.

Total showplanes: 3,365 including a record 1,497 registered in vintage aircraft parking, plus 1,067 homebuilt aircraft, 380 warbirds (up 3 percent from 2022), 194 ultralights, 134 seaplanes and amphibians, 52 aerobatic aircraft, and 41 rotorcraft.

Camping: More than 13,000 sites in aircraft and drive-in camping accounted for an estimated 40,000 visitors.

Volunteers: More than 5,500 contributing in excess of 250,000 hours.

Commercial exhibitors: 848 (another record number).

Forums, Workshops, and Presentations: More than 1,400 sessions hosted throughout the week.

Social media, internet, and mobile: More than 18.3 million people were reached by EAA's social media channels during AirVenture (up 78 percent over 2022), with engagement of 1.9 million; More than 189,000 hours of viewing EAA video clips online also occurred during the event (more than double the 2022 total).

International guests: International visitors returned in a big way in 2023, with 2,372 attendees registering the International Visitors Tent from a record-tying 93 countries outside the U.S. Adding a significant number of international visitors who do not register at the tent when they arrive, the actual total is much higher.

The Gathering: The EAA Aviation Foundation's annual event to support its aviation education programs attracted more than 1,000 people and raised more than \$2 million dollars that will be focused on EAA's mission of growing participation in aviation.

Media: 863 media representatives on-site, from six continents.

Estimated economic impact*: \$170 million for the five counties in the Oshkosh region (Winnebago, Outagamie, Fond du Lac, Calumet, and Brown).

* - based on 2017 University of Wisconsin Oshkosh economic impact study

By the time you read this, planning for EAA AirVenture Oshkosh 2024 has begun in earnest.

“We are already looking at a number of big activities, including the 100th anniversary of the Royal Canadian Air Force,” said Jack. “Plenty of ideas have also been forwarded to us from EAA members and others that will be part of the planning for 2024.”

Boeing Plaza Hosts WomenVenture 2023 Group Photo

WAI Kicks off WomenVenture with Dynamic Breakfast for More Than 350 Attendees

July 28, 2023 – Now in its sixteenth year, WomenVenture, a week-long social and networking event for women during EAA AirVenture Oshkosh, attracts thousands of women who are part of the aviation community and gather to be inspired, to network, and to have fun together at the Oshkosh airshow. Women in Aviation International (WAI) kicked off WomenVenture Wednesday with WAI's annual WAI Connect Breakfast followed by the WomenVenture annual group photo on Boeing Plaza with thousands of women in attendance.

The backdrop for this year's photo, during EAA's 75th AirVenture, was the Boeing Dreamlifter operated by Atlas Air.

WAI's Connect Breakfast, sponsored by Avemco and United Airlines, was attended by over 350 enthusiastic participants, whose passion could not be washed out by strong thunderstorms and rain. Royal Shoen, a general aviation advocate and an aircraft owner with commercial and instrument certificates, shared her inspiring story and encouraged young women to pursue their aviation dreams.

The interior progress is also moving along and the FBO operation may be able to move in as early as April this year. Airport Terminal Interior Renovation

Construction to begin 8/14/2023

Airport friends,

The south half of the main terminal building will be undergoing a complete interior update and renovation starting August 14, 2023. This \$500,000+ project is made possible by APRA grants from our Greene County Commissioners and design/construction admin grants from the FAA. Many thanks go out to both for this much needed building update, first constructed in 1968. Many thanks as well to our dedicated Board of Directors for their hard work and inspirations to better our public-use airfield facilities.

The project will last until the first of December and not be accessible during this time. You can still reach my office and Stacy's office (MacAir) by entering through the double doors on the north side, marked with red signs above the door.

Please feel free to contact me with any questions.

CLEVELAND NATIONAL AIR SHOW

Featuring the U.S. Air Force Thunderbirds

September 2, 3 & 4 - Labor Day Weekend
Burke Lakefront Airport

<https://www.clevelandairshow.com/>

Cleveland will host the U.S. Air Force Thunderbirds as headliners of the 2023 Cleveland National Air Show presented by Discount Drug Mart.

Each show day, the six select Thunderbird demonstration pilots will put their distinct red, white, and blue F-16 Fighting Falcon jet fighters through a choreographed 50-minute performance at speeds up to 500 mph and as close as three feet from each other.

2023 will mark the 70th year the Thunderbirds have been performing and Cleveland is a part of the team’s rich history. In 1965, the Thunderbirds made their first Cleveland appearance flying their North American F-100s (first supersonic jet fighters).

The Thunderbirds are the U.S. Air Force “Ambassadors in Blue” and composed of twelve officers (including six demonstration pilots), two civilians and 120 enlisted personnel performing more than 30 Air Force specialties. The Thunderbirds represent the United States at approximately thirty sites each year.

The EAA Ray Aviation Scholarship Program is funded by the Ray Foundation. Through the support of the Ray Foundation, EAA can provide up to \$11,000 to youths for flight training expenses. In total, there is \$1.8 million gifted in annual scholarship funding.

More than 300 youths have earned their private pilot certificate with support from the Ray Scholarship Program. Take it from our Ray scholars who have been able to do just that.

EAA is able to grow The Spirit of Aviation through its Ray scholars. Without scholarship donations such as these, we would not be able to support young pilots and make their dreams come true. Thank you for your support.

Have you ever seen such a pretty port-a-potty

This newsletter goes out to the EAA Chapters in Ohio, Indiana, West Virginia, Kentucky, Michigan, and Pennsylvania. It also goes out to the FBO's in those states. So, if you are planning to host an event and would like to get the information out there, this is one of the places to do so. There is NO cost to advertise your events or your Airport Restaurant.

We would like to put your events or happenings in the Ohio Region Chapter Newsletter. So please feel free to get the article to me about a week before the end of the month. This way it can be included in the following month's newsletter. If you have an interesting story you want to share, send it. We like those feel-good stories also. Let us know about those restaurants that are located on or near an airfield. This way pilots will know of a good place to fly to for those \$ 100 hamburgers.

If someone from your Chapter, or on the airfield has a plane, parts, or tools they want to sell or give away let us know. It can be included in the newsletter. There is NO cost for this.

If you do not have time to draft an article and would like for me to visit your website / Facebook page and gather my own "intel" for an article, please let me know.

Be sure to let me know if there is a different person that I should reach out to for an article. Or if there is someone else who should receive the newsletter to distribute to your Chapter members.

Please share this with your fellow Chapter members, aviator friends and your local FBO's. You never know who would be interested in one of the articles/events in the newsletter. Or if you received this from a friend and would like to receive it directly, please let me know.

Send in your comments as to what you would like to see in the newsletter. We like those human-interest stories, especially those with pictures.

Send articles for the September newsletter to me by August 20th if possible. Email them to Daford1957@gmail.com

Thanks again and enjoy the newsletter.
