As always, Some News from National.

Space Day Returns to EAA Aviation Museum on October 8

A day of fun family activities and exciting guest appearances are on the horizon, as the EAA Aviation Museum's annual Space Day returns to Oshkosh on Saturday, October 8, with a theme of sustainability in space.

[Space Day](#) marks EAA's participation in [World Space Week](#), with activities from 10 a.m. until 4 p.m. all included with regular museum admission that day.

Eileen Collins, the first female space shuttle pilot and commander, will be the featured speaker. Collins was selected as an astronaut in 1990 and made history in February 1995 as the first female pilot of a U.S. space shuttle while serving on the Discovery. In July 1999, Collins took the shuttle Columbia into orbit as the first woman to command a space shuttle mission. Before becoming an astronaut, Collins served in the Air Force where she was the first female T-38 flight instructor. Collins will be presenting at 4 p.m. in the museum. Additional Space Day activities include:

- **Mercury and Gemini Capsule Replicas:** Climb inside a full-scale replica of the Mercury space capsule, which was the first U.S. spacecraft, and the Gemini space capsule, which helped NASA get ready for the Apollo moon landings.
- **Moon Game:** Work as a team to solve a series of challenges founded in science about living and doing research on the moon.
- **Compressed-Air Rockets:** Learn what makes a rocket fly high by building an air-compressed rocket out of basic household materials.
- **Re-Entry Capsule Design:** Ever wonder how astronauts return to Earth after a mission from space? Design a re-entry capsule that can survive a wind tunnel.

In addition, youths 18 and under can submit entries in the Space Day Habitat Creation contest. Participants can choose from two types of habitats, land-based or orbital, and must be constructed at home or off-site with recyclable material. More details are available at the [EAA Aviation Museum website](#).

General Aviation Moves Closer to an Unleaded Future 9/1/2022

The FAA today signed supplemental type certificates to allow General Aviation Modifications Inc.'s 100-octane unleaded fuel (G100UL) to be used in every general spark-ignition engine and every airframe powered by those engines. The move was hailed by the GA industry as a major step in the transition to an unleaded future. The FAA's approval of the use of G100UL fuel in all piston aircraft directly addresses the industry's long-standing goal of finding unleaded solutions that can be used for the entire GA piston fleet.

"Congratulations to GAMI on this achievement, which is another initial step toward a goal we all want – an unleaded fuel for general aviation," said Jack J. Pelton, EAA CEO and Chairman of the Board. "This is a significant accomplishment that opens the door to the hard work that remains to create a commercial pathway and acceptance across the broad spectrum of GA aircraft."

In 2021 the FAA approved STCs for GAMI covering a smaller number of Cessna 172 engines and airframes, and then expanded those STC approved model list (AML) to include essentially all lower-compression engines. Though that was seen as an encouraging step forward in the years-long path to supply unleaded aviation fuel to the piston aircraft fleet, the STC's did not include aircraft needing the higher-octane fuel that accounts for approximately two-thirds of avgas consumption. Today's announcement by the FAA addresses the needs of those higher-compression engines.

GAMI co-founder George Braly said, "This is a big day for the industry. It means that for a lot of our general aviation communities, and especially for a high fraction on the West Coast, relief is on the way. And it means that our industry will be able to go into the future and prosper, and provide the essential infrastructure for this country for everything from Angel Flights to critical training of our future airline pilots."

Braly thanked the GA community for its support through this long process. "Without it we couldn't have gotten this done," he said.

GAMI's Braly has said that Ann Arbor, Michigan-based fuel supplier AvFuel is standing by to manage the logistics and distribution of G100UL, and said he is open to partnerships. "Our arrangement is that any qualified refiner or blender of existing aviation fuels will be eligible to produce and sell it subject to the quality assurance requirements that the FAA has approved," he said.

The timing for when G100UL will reach airports is still uncertain. "It's going to take a while to manage the infrastructure including manufacturing and distribution," Braly said. The supply chain "is still a very wounded infrastructure and that's not going to make the process any easier, but we have a handle on how to do this, and with the support of the major players I think we can do that. It's going to be limited to begin with, but it can be ramped up rapidly," he said.

Pelton noted that certain regions, such as the West Coast, are priorities to receive approval as soon as practical. Some California municipalities, for instance, prematurely banned the sale of leaded avgas and threatened a safe and smart transition to unleaded.

“There is a process in place for a safe transition to unleaded fuel for the GA fleet,” Pelton said. “Let’s keep forging ahead on that path in a unified fashion, rather than a patchwork of local ordinances that will only set political hurdles in front of the ultimate goal.”

While the cost of the fuel has not been determined, Braly said the small batch production process that will initially mark the arrival of G100UL at airports means that the fuel will cost slightly more than leaded avgas. “Small volume batches cost money,” he said. “Until we can get [production] revved up that we’re making millions of gallons at a time, there will be an incremental cost,” he said.

“It’s not going to be unreasonable,” Braly added. “Pilots in America will not be paying what they’re paying for avgas in Europe today.”

Owners can also expect to see engines that operate more efficiently. “I think the days of cleaning spark plugs every 50 hours are going to be behind us for good,” Braly said.

Swift Fuels Inc., an Indiana based company, has received FAA approval for its 94-octane unleaded fuel, and has expanded its distribution, particularly to the West Coast. Swift Fuels’ 94-octane fuel meets some, but not all, of the demand of aircraft with lower-compression engines. The company is developing a 100R unleaded fuel with more than 10 percent renewable content.

In addition, two fuel candidates are currently in the EAGLE/PAFI testing process.

All fuel manufacturers continue to be encouraged to follow through with their own formulations, Pelton said. “Innovation and multiple options have always been a key to ultimate success, so we welcome any and all ideas to bring unleaded fuel to the marketplace for general aviation.”

You can contact us for more details on the IMC Club meetings via email. Dr. Michael Stretanski, President of 1629 is our Coordinator along with Andrew Hale and myself, Darlene Ford as co-coordinators. Email marysvilleeaachapter@gmail.com

We will be starting the IMC meetings back up in November. If you have a topic you would like for us to address, please email us.

Our Fly In was a huge success again. We sold out of food at breakfast and again at lunch. We had even prepared for a bigger crowd than last year. At lunch we had to go get more hamburgers and bratwurst to fix. Guess that means next year we will have to prepare for even more.

The sky on Saturday morning was gorgeous.

We had Haven's Aviation out of Lancaster doing helicopter rides. That was a huge success. First time here and people wanted to see what Zanesville looked like from the helicopter.

They also do helicopter lessons, if you want to learn.

We also had the Grimes Flying lab come in from Urbana. Now that was a treat.

The Flying Lab made the perfect backdrop for the Dancing Diva's.

Another perfect backdrop.

Smith Field Airport ([KSMD](#)), [Fort Wayne, IN](#)

EAA Chapter 2 Chili Lunch Fly-In, Cruise-In, Drive-In Saturday October 8, 11:00 AM-2:00 PM at Hangar 2, Smith Field, 426 W. Ludwig Rd, Ft. Wayne. Vintage cars, restored or rough, Collector cars, Show Cars welcome to park inside the gate.

Public welcome. Free will donation for lunch. All proceeds benefit Youth Aviation Scholarship Fund. EAA Chapter 2 is a not-for-profit 501 c3.

OHIO AIR & SPACE HALL OF FAME AND MUSEUM

Ohio Air & Space Hall of Fame and Learning Center

Naming of 'Founders Walk' and flight simulator stations will recognize commitment of organizations to the renovation of original Port Columbus air terminal and tower

This in from Ron Kaplan, Executive Director Ohio Air & Space Hall of Fame, and Learning Center

Ohio Air & Space Hall of Fame and Learning Center receives City of Columbus grant for renovation of original Port Columbus terminal and tower

\$275,000 grant to also support aviation-themed STEAM education programs and workforce development partnerships

About The Ohio Air & Space Hall of Fame and Learning Center:

The Ohio Air & Space Hall of Fame and Learning Center (OAS) is a 501(c)(3) non-profit organization dedicated to permanently preserving the inspiring legacies of this state's outstanding pioneers of flight, prominently heralding their achievements both as a point of pride and to foster continued innovation and a skilled workforce. The OAS will additionally educate the public about the rich history of Ohio's aviation and aerospace industries, and its airports, including that of the OAS future home in the soon-to-be-renovated original Port Columbus Air Terminal, located at John Glenn International Airport (CMH) in Columbus, Ohio.

2260 International Parkway North Canton, OH 44720 330-896-6332

<https://mapsairmuseum.org/>

MAPS Air Museum is an internationally known museum of aviation and serves as a center of aviation history for Northeast Ohio. The museum features exciting educational displays of its collection of acquired artifacts, interactive exhibits, and historical archives in its own library.

Call for Volunteers!

MAPS relies heavily on volunteers for many tasks. If you have some time volunteer please consider doing so. They have a significant need for volunteers to work in their gift shop. If you like talking to people and have some free time, consider volunteering. Contact Bob Hollis – hollis.robert@mapsairmuseum.org or call 330-896-6332

EAA Chapter 421 Urbana Ohio

Monthly Chapter Gatherings:

First Saturday of Each Month at 10:00 AM Grimes Field Airport - I74, Champaign Aviation Museum, 1652 N. Main St. Urbana, OH 43078

Chapter Contact Information: President, Mark Curtner 937-726-1244 or mcurtner@ohiohipoint.com

GRIMES FIELD (I74) URBANA, OHIO UPDATE

- 1. Mid America Flight Museum of Texas Restoration Shop** – currently with a New Standard they have restored and are now finishing up. Monday thru Friday 9:00 am to 4:00 pm) They now have a Beechcraft B-18 on site. Volunteers always welcome!
- 2. Grimes Flying Lab Museum**, which has one of Grimes's original Beech C45 aircraft that flies at special occasions, events, July 4th, etc. and examples of many of the lights and equipment that Grimes built (Hours – April thru November Saturdays 10 to 1)
- 3. Champaign Aviation Museum** – Building B-17 Champaign Lady, flying B-25 Champaign Gal, Stinson, Fairchild, COD1 (Hours Tuesday thru Saturday 9:00 am to 4:00 pm)

Grimes is the only Airport in the U.S. with 3 museums.

- 4. Grimes Airport Café** – New Owners Mindy & Chat Orahood – same great food, adding some new dishes. Still making pies 100% from scratch, crust, filling, etc. (Hours – Tuesday thru Saturday 7:00 am to 8:00 pm, Sunday 8:00 am to 2:30 pm)
- 5. Ohio Hi Point Career Center** (Bellefontaine) has an aviation class here. Champaign County high school students attend class first half of the day, then after lunch attend workshop/class here at Grimes where they learn about aviation. (Pilotage, maintenance, administration, riveting, etc.)
- 6. EAA Chapter 421** meets Hangar 6, first Saturday each month. All are welcome. More info - <https://www.facebook.com/eaachapter421>

7. **Champaign County Pilots' Association** meets first Wednesday monthly at Champaign Aviation Museum, library/training room – All are welcome
8. **2022 Grimes Field / FAA Construction Update** – No major construction planned for this year, next year we will replace/repair the pavement around T-Hangar buildings A & B

Dec 17, Grimes Flying Lab Christmas Party w/Santa Flying In

Located at Grimes Field (174) in Urbana, Ohio. The Museum's purpose is to restore and preserve aircraft specifically but not limited to the aircraft of World War II. It is also the intent of the Museum to operate these aircraft for static and flying displays. Stop in for a visit!

Exciting times are ahead! New events and activities are coming up for the museum and our B17 project!

Museum Hours: Tuesday-Friday: 9 a.m.- 4 p.m.; Saturday: 9 a.m. - 2 p.m.; Closed Sunday and Monday

Tour groups or for other times, please call the museum for information. 937-652-4710
Admission is FREE. Donations are welcome in assisting efforts in the restoration rebuild of the B-17 project and maintenance of the facility.

<http://www.facebook.com/pages/CAM-Champaign-Aviation-Museum/121903357954105>

Champaign Aviation Museum is located on Grimes Field as well as the Grimes Flying Lab the Airport Cafe! What a great way to spend a Saturday checking out history! Fly in or drive in!

The WACO Air Museum located at [1865 S. Co. Rd. 25A, Troy, OH](https://www.wacoairmuseum.org/) will be closed on Wednesdays. Here are our new hours of operation:

Mon	09:00 AM - 3:00 PM	Tues	09:00 AM - 3:00 PM
Wed	Closed	Thur	09:00 AM - 3:00 PM

Fri 09:00 AM - 3:00 PM Sat 12:00 PM - 5:00 PM

Sun 12:00 PM - 5:00 PM

Eric A. Combs, Museum Operations Manager, WACO Air Museum

937-335-9226 www.wacoairmuseum.org

WACO Aircraft Factory was the 1 manufacturer of civil aircraft in the country in the 20's 30's.
The museum preserves the factory and employees. (1WF)

EAA's local Chapters 1095 is about people, bringing together individuals interested in learning more about aviation as well as sharing their own knowledge.

Chapter members are involved in a variety of social and educational activities, including Young Eagles rallies, fly-ins, building seminars, and more, to build awareness in the community.

EAA Name Tags if you would like to order name tags for your members or at least your officers please check out Chapter 1095's website. These name tags are very professional looking and hold up well. <https://chapters.eaa.org/ea1095/ea-name-tags>

EAA 1252s Annual Flyro-Gyro

Sat, Oct 1, 2022 - Sat, Oct 1, 2022 10:00 AM - 2:00 PM

Address: 44050 Russia Road Elyria OH 44035 Contact: Dan

Maly Phone: 440-305-1695 :

Free fun family event. Fly in or Drive in. Learn about careers in aviation. Free Young Eagle Airplane Rides for kids 8 to 17. Parent or legal guardian must be present. Enjoy a Gyro or Hot Dog for lunch.

(ARB) Come join us for a cup of coffee and engaging aviation

conversion and solving other world subject matter problems. Coffee is fair, but the conversation is stimulating. On arrival, ask tower controllers to give you a progressive taxi to the EAA Welcome Center located on the southeast side of the airport SE-T's. - Submitted by Mark Perry

Young Eagles and Pancakes

Sunday, Oct 9,

2022

Drive-in/Fly-in Pancake Breakfast and Young Eagles Event, Butler, PA

Pittsburgh-Butler Regional Airport (KBTP), Butler, PA

EAA Chapter 857 is having a Drive-in/Fly-in Pancake breakfast on Sunday, October 9, 2022 at the Pittsburgh-Butler Regional Airport in Butler, PA. We will begin serving breakfast at 9 am. Breakfast includes 2 pancakes, two sausage patties, scrambled eggs, coffee and orange juice.

We will cut over to hot dogs, hamburgers, and cheeseburgers with chips and a drink at 11:00. We will also be flying Young Eagles, kids ages 8-17 beginning at 10:00 and ending at 2:00. The flights are FREE! Proceeds from the food sales are used by our chapter to send kids to the EAA Aviation summer camp in Oshkosh, WI. Come on down!

WAI Relaunches Aviation for Girls App

A purple rectangular advertisement for the "Aviation for Girls" app. At the top left, it says "Download the free Aviation for Girls App." in white. To the right is a pink app icon with the text "AVIATION for Girls" and a QR code. Below the main text is a list of features: "Available year-round with hours of new content including:" followed by a bulleted list: "Three age-appropriate content tracks for elementary, middle school, and high school students", "Meet positive female role models", "Instructional activity videos", "Scholarship information", "Education resources", and "Expanded Aviation for Girls magazine". At the bottom left are the App Store and Google Play logos with their respective download links: "apple.co/3dm2MIG" and "bit.ly/AFGAppGooglePlay". On the right side, there is an image of a smartphone displaying the app's interface, which includes the app logo, a grid of content cards, and a "Book Store" section.

September 16, 2022 – To commemorate the 8th Annual Girls in Aviation Day, Women in Aviation International is relaunching a free and year-around Aviation for Girls App to enhance youngsters' learning experience. Available on Apple and Android devices, the user-friendly AFG App is custom designed for WAI to provide an extraordinary engaging and educational experience. This new app features a broad range of content including hands-on activities, virtual tours, interviews, scholarship information, instructional videos, book readings in multiple languages, as well as all of the digital

issues of *Aviation for Girls* magazine. And despite the name, all kids, regardless of gender, are welcome to participate. The Aviation for Girls App is available for free all across the globe. Download the all new *Aviation for Girls* App here: <https://bit.ly/AviationForGirlsApp>

Dinner with a Slice of History

"Flying over the Himalayas in WWII"

Featuring: Deborah Chung

October 7, 2022
6:00-8:00 p.m.
Burke Lakefront Airport

The speaker's late mother, Rebecca Chan Chung (1920-2011), was a U.S. World War II Army veteran having worked as a nurse with the Flying Tigers during the Battle for Hong Kong. For her service, she was awarded the Congressional Gold Medal. As a nurse, Rebecca Chan Chung's work included flying over the Hump for about 50 times—considered the most dangerous in the history of aviation.

Made possible thanks to:

www.iwasm.org | 216.623.1111

When: Friday, October 7, 2022

Time: 6:00 p.m. - 8:00 p.m. EDT

Where: IWASM

The International Women's Air & Space Museum (IWASM) is pleased to announce the return of Dinner with a Slice of History, a program made possible through a [Cuyahoga Arts and Culture](#) (CAC) grant.

Deborah Chung's late mother, Rebecca Chan Chung (1920-2011), was a U.S. World War II Army veteran having worked as a nurse with the Flying Tigers during the Battle for Hong Kong. For her service, she was awarded the Congressional Gold Medal. As a nurse, Rebecca Chan Chung's work included flying over the Hump for about 50 times—considered the most dangerous in the history of aviation. Numerous lives were lost due to plane crashes, insecurity of attacks by Japanese fighters and unpredictable weather. Rebecca's story and experience was necessary, because the Burma Road that crossed the Himalayas had been cut and the eastern seaboard of China had been closed by Japan. Hear about Rebecca Chan Chung's legacy and trailblazing experience as an aerial nurse during World War II.

Deborah Chung is a professor of Mechanical and Aerospace Engineering at the University of Buffalo. In 2021, she was named #1 in the world in the field of Building and Construction by a Stanford University study. She earned a M.S. in Engineering from the California Institute of Technology (1973) and PhD from the Massachusetts Institute of Technology (1977).

Dinner begins promptly at 6:00 p.m. EST.

Program begins promptly at 6:30 p.m. EST

Registration Information

Registration is required prior to the event.

- Non-IWASM members - \$25
- IWASM members - \$15
- Get Tickets & Join IWASM for 1 year - \$55
- Virtual -- minimum \$5 donation

In person tickets include admittance to the program, and a boxed dinner. When registering, consider donating to IWASM. Even \$5 will go toward furthering the museum's mission, activities, and services. Donations are non-refundable.

Space is limited for the program. Registrations made via check can be sent to: 1501 N Marginal Rd. Ste 165, Cleveland, OH 44114 and must be received no later than October 4. Visit www.iwasm.org or call 216.623.1111 for more information.

WACO Kitchen, Battle Creek, MI

(KBTL) Nice new restaurant right on the field. Located at Battle Creek Executive Airport, WACO Kitchen offers one of the most unique dining experiences in Southwest Michigan and is open to the public from the road or ramp. Second-story accommodation provides panoramic views of runway 5L/23R as well as large observation windows into WACO Aircraft

(O74) Best food around. Especially their country fried steak breakfast. Nice grass strip that ends right at restaurant. Runway 15-33

London-Corbin Airport, London, KY (LOZ) Airport is in town with hotels and other restaurants nearby. Some of the country's best lakes are located within a few miles including Laurel and Cumberland. Cumberland Falls is a few miles south, the world's only moonbow you will see outside of Africa. KFC started here, but you'll be happier at

the Hangar Restaurant judging landings. Nice big 150 foot wide runway stretches almost 6,000 feet.

The Hangout: an AOPA Fly-In is landing at **Tampa Executive Airport (KVDF) on November 4-5 in Tampa, FL!** We are excited to return to our roots and provide a unique, casual environment for pilots to hang out, enjoy some entertainment, food, and camaraderie.

During this fly-in, you can:

- Participate in educational seminars
- Browse exhibits and displays
- Visit the 39 Lounge for food and beverages
- Meet aviation influencers and AOPA Staff
- Watch aerial entertainment from the flight line
- Camp, play cornhole, and swap stories around the campfire

We can't wait to "Hangout" with you!

Tickets are \$20; free for anyone under 17.

Choose to volunteer during your registration and receive a refund of your ticket price at the show!

Apply for AOPA scholarships

More than \$1 million in scholarships available

The financial constraints of an aviation education shouldn't prevent prospective student pilots or aviation enthusiasts from pursuing their dreams. Through the generosity of member donations, the foundation aims to relieve the financial burden of education and training—offering dozens of scholarship packages annually ranging from \$2,500 to \$14,000.

One notable example is the high volume of scholarships offered for flight training courtesy of the Ray Foundation, founded by and named for aviator, philanthropist, and entrepreneur James C. Ray. These scholarships each include a \$10,000 award for the purpose of obtaining a private pilot certificate. Eighty scholarships are allocated for high school students and up to 20 for high school educators who use the AOPA Foundation [You Can Fly High School Aviation STEM Curriculum](#).

Other fantastic scholarships to keep on your radar include the Landsberg Endowment Scholarship – Aviation Maintenance and Avionics for those interested in pursuing an aviation maintenance technician certificate, and the Edward B. Shafer Future of Flight Scholarship for those interested in pursuing a career in aviation (including aerospace engineering, professional pilot, aircraft maintenance, airport management, or another avenue).

The 2023 scholarship window opened September 5, and applications will be accepted through February 10 at 11:59 p.m. Eastern time. This year AOPA has made it easier than ever to apply, moving to one streamlined application. All applicants must be a member of AOPA, and student pilots, youth, and military personnel are eligible for a free AOPA membership. Check out our [website](#) for more details and to see which membership package is the best fit.

And visit our 2023 AOPA Foundation [scholarship page](#) for the full scholarship list, FAQs, and the application. <https://www.aopa.org/training-and-safety/students/aopa-flight-trainingscholarships>

**J P's Barbecue Ribs, Columbus, OH
(KTZR)**

Nice little BBQ place right on the airport next to the FBO.

Saturday, October 1, 2022

Upcoming Gathering - Saturday, October 1 at the Noblesville Airport, 14782 Promise Rd, Noblesville, IN 46060. Visit <http://www.eaa67.org/> if you need directions.

This is the Chapter 67 Picnic. All family, friends, chapters, and aviation groups are invited. Any general public who happen by (because they saw airplanes?) are also invited. Please bring a side dish to complement our hamburgers, hotdogs, and brats.

- 11:00 AM - A few of us will be setting up
- 11:30 AM - Start grilling
- **NOON** - Should have some food coming off the grill
- **Meeting After That** - Monday, November 7, 2022. Brian and Allan will be doing chili.

Chili Fest at Metro - Saturday, October 8 at the Tom Wood Hanger starting about 11:30 until the chili runs out.

Ford Tri-Motor at Metro - Thursday, October 20 thru Sunday, October 23. IF YOU HAVE ANY MEDIA CONTACTS (print, radio, television, social, etc) PLEASE TELL THEM ABOUT THIS EVENT. Thursday, October 20th is media day! This is sponsored by Chapter 67 and we can use your help.

Thanks,

--

Nick Boland

EAA Chapter 67 President

Red Shed BBQ and Benny's Pizza, Marysville, OH
(KMRT)

Just a mile from KMRT is both the Red Shed BBQ and Benny's Pizza. Great food at either location. Benny's features live bands every Friday night Wednesday through Saturday until Labor Day. Super food, well maintained airport.

MAPS Halloween Dinner Dance on October 29, 2022

There will be more phantoms at the MAPS Halloween Dinner Dance on Saturday, October 29, 2022, from 7 pm to 10 pm, than the museum's McDonnell Douglas F-4S Phantom II.

Saturday, October 29, 2022

Dinner Served 5:30 PM

Dance Only Opens 6:30 PM

Dance 7:00 PM – 10:00 PM

MAPS Air Museum

A costume contest will be judged during the break.

Event Details

Option One: Dinner and Dance, \$21.72 each (Advance Tickets Required). Dinner served at 5:30 PM. **Deadline for Dinner & Dance Only is 10/27/22 at 1:00 PM.**

Option Two: Dance Only \$10 each (Purchased at Door beginning at 6:30 PM)

Mr. Mike's Catering will provide dinner of a Pulled Pork or Chicken Salad Sandwich, Mac & Cheese, Cole Slaw, and Bottle of Water.

No outside food, drink, alcohol allowed, but the MAPS Snack Bar will be open during the event. Live music will be provided by perennial favorite *LaFlavour*, with the theme of "Five Decades of Hits". The event will end at 10 PM.

To Order Tickets To register, go to

www.mapsairmuseum.org or www.laflavour.com.

Phone registration is also available by calling 330-896-6332 ext. 110 for ticket options. No reservations are needed for Option Two.

Reservations for Option One and attendance for Option Two are on a first-come first-served basis. Please make reservation for Option One as soon as possible so MAPS may determine the number of meals needed.

The Apron, Jackson, MI

(JXN)

Nice little airport restaurant. You can taxi almost up to the door. Quick service, interesting menu.

-

This newsletter goes out to the EAA Chapters in Ohio, Indiana, West Virginia, Kentucky, Michigan, and Pennsylvania. It also goes out to the FBO's in those states.

So if you are planning to host an event and would like to get the information out there, this is one of the places to do so. There is NO cost to advertise your events or your Airport Restaurant.

We would like to put your events or happenings in the Ohio Region Chapter Newsletter. So please feel free to get the article to me about a week before the end of the month. This way it can be included in the following month's newsletter. If you have an interesting story you want to share, send it. We like those feel good stories also. Let us know about those restaurants that are located on the airfield. This way pilots will know of a good place to fly to for those \$ 100 hamburgers.

If someone from your Chapter, or on the airfield has a plane, parts or tools they want to sell or give away let us know. It can be included in the newsletter. There is NO cost for this.

If you do not have time to draft an article and would like for me to visit your website / Facebook page and gather my own "intel" for an article please let me know.

Be sure to let me know if there is a different person that I should reach out to for an article. Or if there is someone else who should receive the newsletter to distribute to your Chapter members.

Please share this with your fellow Chapter members, aviator friends and your local FBO's. You never know who would be interested in one of the articles in the newsletter. Or if you received this from a friend and would like to receive it directly, please let me know.

Send in your comments as to what you would like to see in the newsletter. Thanks to all those that contributed to the newsletter. I know your time is limited and I don't mind researching your events to share with fellow aviators.

We like those human-interest stories, especially those with pictures.

Send articles for the November newsletter to me by October 25th if possible. Email them to Daford1957@gmail.com

Thanks again and enjoy the newsletter.

Darlene Ford
