**As always, Some News from National.**

**2022 Airventure dates are July 25 – July 31**

Four flying aircraft from one of the largest flying warbird collections in the world will be coming to EAA AirVenture Oshkosh 2022, as the Military Aviation Museum of Virginia Beach, Virginia, brings World War II-era airplanes to participate in this year's event. The 69th annual EAA fly-in convention is July 25-31 at Wittman Regional Airport.

The four airplanes — a de Havilland DH.98 Mosquito, Curtiss P-40 Warhawk, Goodyear FG-1D Corsair, and North American P-51 Mustang — will be flown to Oshkosh and exhibited in the warbirds area. Several of these aircraft from the collection will also make appearances on Boeing Plaza, with the schedule to be determined. The appearance is part of the museum's celebration of its founder, Jerry Yagen, and his aviation achievements. Yagen is scheduled to attend as well.

"Jerry Yagen's passion for warbird aircraft has through the years evolved into one of most magnificent airworthy collections in the world," said Rick Larsen, EAA's vice president of communities and member programs, who coordinates AirVenture features and attractions. "To have these airplanes as part of the world's largest annual gathering of warbirds that occurs at Oshkosh every summer makes this year's event even more special, both in the air and on the ground."

Each aircraft brings a unique story:

- **de Havilland DH.98 Mosquito** – This airplane was sold surplus to a Canadian farmer in 1948, where it sat until a Canadian museum acquired it in 1978. The Military Aviation Museum obtained it in 2004 and shipped it to New Zealand for restoration. It made its first flight in 2012 and at the time was the only flying example of the type in the world. The aircraft previously attended AirVenture in 2015.

-

- **Curtiss P-40 Warhawk** – This aircraft is painted in the markings of David Lee “Tex” Hill of the famed “Flying Tigers” American Volunteer Group based in China. The aircraft was built in 1941 and sent to Great Britain as part of the lend-lease program, then on to the Soviet Union, where it was lost in action and not recovered for a half-century. The P-40 was the aircraft that established the Military Aviation Museum collection.
- **Goodyear FG-1D Corsair** – Delivered in May 1945, the Corsair spent much of its military career in storage, thus being one of the lowest time Corsairs known. The “Skull and Bones” livery honors a hometown hero, Norfolk, Virginia-born Ray Beacham, who flew with the famous VF-17 unit in the South Pacific.
- **North American P-51D Mustang** – Arguably the most iconic American fighter of WWII, the Mustang is a testament to American ingenuity and industrial capability. The Mustang was designed in 1940 with the first flying prototype built in just 120 days. The Military Aviation Museum’s example was built in 1945 and wears the markings of the 353rd Fighter Group.

Yagen will also bring his soon-to-be-published book to AirVenture and speak at Warbirds in Review sessions and other venues about building the warbird collection. The aircraft committed to Oshkosh are some of his favorite airplanes, as each played a key role in building the collection. More details will be announced as they are finalized.

### **Vintage Bonanzas Invited to Join VAA During Airplane’s 75th Anniversary**

The Vintage Aircraft Association and the American Bonanza Society are joining to highlight Beech Bonanzas built prior to 1970 during activities at EAA AirVenture Oshkosh 2022 on July 25-31. The groups are also encouraging owners of those aircraft to register now, so they can receive updates on special events at Oshkosh this summer.

If you own a Bonanza of any type that was built prior to 1970, register now at [info@bonanza.org](mailto:info@bonanza.org) with the following information: First and last name, your city and state, and your email address.

Pre-registrations are already approaching 100 vintage Bonanzas, which will be a great addition to the traditional Bonanzas to Oshkosh mass arrival prior to AirVenture week. Forums and other events will be hosted by the American Bonanza Society in their tent just north of Theater in the Woods on the AirVenture grounds.

In addition, VAA is already stocking special [Bonanza 75th anniversary merchandise](#) to commemorate this special occasion.

## Volunteer at EAA

Ever since EAA's creation, volunteers have been our heart and soul. Volunteers from all over the world have helped make EAA a recognized leader in the aviation community.

Join us and be a part of this tradition of excellence, while helping us continue to provide high quality programs and services to our members and visitors.

<https://www.eaa.org/ea/support-eea/volunteer>

Come and be a part of our volunteer family. It is not like you have to volunteer all week. At least volunteer an hour or so just to see what it is all about. Being a volunteer is a lot of fun. It is also a rewarding experience. The satisfaction of being a part of something so huge is tremendous. You feel like you are a part of an exceptionally large family.

## Our Next Gen of Enthusiasts

### Free Admission for Ages 18 and Under at EAA AirVenture Oshkosh 2022

Young people ages 18 and under will be admitted free to EAA AirVenture Oshkosh 2022, as a way to introduce more youth to the possibilities in the world of flight. The 69th EAA fly-in convention will be July 25-31 at Wittman Regional Airport. Free youth admission is supported in part by The Boeing Company.

This effort is designed to encourage more aviation-minded families and their children to attend the event that brings more than 10,000 aircraft from around the world to Oshkosh each year.

## EAA Young Eagles 30th Anniversary

2022 marks 30 years since the Young Eagles program was launched at EAA Oshkosh 1992. EAA will be kicking off the Young Eagles 30th anniversary at EAA AirVenture Oshkosh 2022, which will include a number of special AirVenture activities, and year-round recognition of volunteers

### AirVenture Activities

- Thursday, July 28, 2022 – Young Eagles Day at AirVenture
  - Commemorative flight to recreate the first Young Eagles flight
  - Group Photo – Time TBD – All Young Eagles pilots, chapter coordinators, ground volunteers, and former Young Eagles are invited
- Free Young Eagles buttons available for pick-up at the EAA Blue Barn and Young Eagles booth near the EAA Learn to Fly Center
- Special flight activities all week long
- Commemorative shirt-and-hat combo available for purchase at EAA retail locations

## EAA Aviation Foundation 2022 Aircraft Raffle

### Grand Prize: Restored 1946 Piper J3C-90 Cub Or \$25,000 Cash

The EAA Aviation Foundation 2022 Aircraft Raffle has launched as of October 1, 2021. The drawing will take place on July 31, 2022, during EAA AirVenture Oshkosh 2022 at the Member Center.

This raffle aircraft — a restored 1946 Piper J3C-90 Cub — features certified aluminum ribs, spars, and ailerons from a Dakota Cub wing kit, Univair PA-11 struts, two Air Energy 12-gallon wing tanks, and an immaculate interior with a useful load of 358 pounds.

The best part? You CAN win because only 3,000 raffle tickets will be sold! This stunning aircraft is feature-packed and is valued at \$52,000. The winner can elect a cash prize of \$25,000 in lieu of the aircraft. Visitors at the EAA Aviation Museum can see the aircraft on display.

Raffle tickets can be purchased for \$100 each at the EAA Aviation Museum, certain events throughout the state of Wisconsin, and on the EAA AirVenture Oshkosh grounds during AirVenture 2022.

### Stewards of Aviation's Past and Future

With a collection of more than 200 historic airplanes along with world-class galleries and displays, the EAA Aviation Museum is a year-round destination, combining the passion of aviation's past with the promise of its exciting future.

You may want to come to Airventure a day or two early just to be able to go visit the Museum. You will be amazed at some of the exhibits. Truly a great museum! You will want to go back.

## 2022 Pilot Your Own Adventure Writing Contest Winners Announced

**April 29, 2022** - Based on the enthusiasm from last year, we weren't surprised to get a lot of entries for EAA's Pilot Your Own Adventure Contest, supported by Flight Outfitters. Our panel of judges read nearly 200 stories, and, while it was an extremely close race, ultimately chose five winners. You will be able to read their stories in July, as we will publish them, both online and in the daily AirVenture Today newspaper, during this year's AirVenture.

This year's winners are:

**Grand Prize**                      Brittany Lozier Moon                      Noblesville, Indiana  
*Story: A Taperwing's Tapestry*

**Second Prize**                      Dewey Davenport                      Jamestown, Ohio  
*Story: Full House - New Standard D-25*

**Third Prize**                      Mathew Northway                      Eugene, OR  
*Story: Unbroken Chain - Brunner Winkle Bird*

**Fourth Prize**                      Emily Herron                      Beaver Dam, Kentucky  
*Story: Cub 45H*

**Fifth Prize**                      Justin Spence                      Memphis, Tennessee  
*Story: The Little Auster*

## Bounty of Activities for Kids at EAA AirVenture Oshkosh 2022

**April 28, 2022** – EAA founder Paul Poberezny said it from the start: get the kids and families involved at the annual EAA fly-in and it will become an annual family tradition. The same holds true at EAA AirVenture Oshkosh 2022, as young people will find plenty to do and discover at Oshkosh on July 25-31.

Again, this year, it is free admission for all those age 18 and under, thanks in part from support by The Boeing Company.

Among the activities on the AirVenture grounds for kids and families in 2022 are:

**KidVenture:** Full activities return this year at Pioneer Airport.

**Youth Education Center:** EAA's new youth education area adjacent to the EAA Aviation Museum will be open for exploration during AirVenture week. There will be opportunities to sign up for hands-on projects during the week.

**EAA Aviation Museum/KidVenture area:** This [hands-on area](#) is specifically for our younger visitors and is highly interactive. The centerpiece is the Raptor Gallery, which contains 16 interactive exhibits focuses on the world's most advanced airplane, the F-22 Raptor. It includes a half-scale model of the F-22 where young people can climb into the cockpit. KidVenture also features a scenic overlook from the Tower of Flight — a stunning observation deck for viewing activities on the grounds.

**Young Eagles 30th anniversary:** Located on the Four Corners crossroads at the center of the AirVenture grounds, kids and their parents can find out more about getting a free introductory flight in their home area.

**Warbirds area flight simulators:** Young people are invited to take the controls of virtual warbirds in the Quonset hut located just east of Knapp Street in the Warbirds area.

**Vintage area kids' tent:** For all kids **ages 8-12** who want to learn more about using tools! This workshop includes various stations that allow kids to **practice the proper use of basic hand tools**, such as hammers and pliers. Presented by Vintage volunteers, there are even more advanced, aviation-related stations such as safety wiring. Parents are encouraged to attend and watch their kids' progress. Located outside of the Vintage Hangar on the south side, look for a white tent with tables underneath! More information will be available at [eaavintage.org](http://eaavintage.org) and [facebook.com/EAAVintage](https://facebook.com/EAAVintage) as details are finalized in the coming weeks.

**NEXTGEN Aviators:** [NEXTGEN Aviators](#) will be hosting their ground-based programs at Aviation Gateway Park at AirVenture. Hands-on activities, flight simulators, and more are part of the daily schedule of events.

**NASA exhibit:** Discover the universe and space travel with the displays inside the NASA Pavilion, located in Aviation Gateway Park, just northwest of the FAA control tower

**Pedal Planes!** Young aviators can discover their inner pilot at the Aviation Products exhibit, just east of the EAA Warehouse.

**Air shows:** Nine air shows in seven days are among the biggest highlights of EAA AirVenture Oshkosh. Daily afternoon air shows with the world's finest aerobatic pilots on July 25-31, with special night air shows (including fireworks) on July 27 and 30. In addition, Twilight Flight Fest returns to the Fun Fly Zone on July 25-26 and July 28-29.

**More family-friendly activities!** Evening programs at Theater in the Woods and aviation movies at the Fly-In Theater make it a full day for families on the AirVenture flightline!

Title: CFI/DPE Forum Open Discussion with Your Local DPEs

Topic: CFI/DPE Forum discussing Cross Country training in preparation for the practical test.

Speaker(s): Steve Buchenroth, CFII-DPE

Brief Description: This is an open discussion for CFIs and DPEs.

In a previous presentation we discussed the events and best instructional practices that lead to the first solo flight. We will be talking about cross-country training and preparation for the Practical Test.

This example consists of a Private Pilot Airplane Single-engine Land student but a lot of our discussion and best practices can apply to most students.

Finally, we will talk about what happens after the Practical Test is passed.

We will then take a break for the summer months and come back in September. If you have a topic you would like for us to address, please email us.

## EAA Chapter 402, Newark-Heath Airport Treneff Field, KVTA

EAA Chapter 402 has been approved for a 2022 Ray Aviation Scholarship. They will start on the selection phase now and need names of candidates. **Congratulations!**

EAA 402 has a member who is applying to National to become a Technical Counselor! We will keep our fingers crossed.

Heart of Ohio Fly-Outs – Fly-outs are the 1<sup>st</sup> Sunday and 3<sup>rd</sup> Saturday of each month, and usually depart from Newark/Heath Airport (VTA) at 8:00 AM unless otherwise indicated. Contact Rollie Bailey, Fly-Out Coordinator for more information.

Update on Airport – They have received three bids for the new terminal building construction, and this includes the construction of the new parking lot.

They have received a grant for the paving upgrade of the runway.

The new T-hangar row has minor work to be done.

Aviation Works has moved ahead with renting the new hangars and backfilling the old ones vacated by renters moving from old to new and most of the hangars are already rented.

VA 22 Zanesville, OH      Zanesville Municipal Airport (ZZV)

# EAA LEARN TO FLY DAY

Saturday, May 21, 2022

9 AM Young Eagle Rally

4 PM Spaghetti Dinner

<https://eaa284.wordpress.com/>

EAA Chapter 284 will hold its first LEARN TO FLY DAY on Saturday, May 21, 2022, at Red Stewart Airfield (40I), the home of Chapter 284.

We will begin the day with a Young Eagles rally, starting at 9 AM. **As we are a small chapter, we would welcome pilots from other chapters to assist us.** Volunteer YE pilots must meet all current EAA requirements for YE Pilots, including completion of the Youth Protection Program training and pass the background check. Please contact our Chapter President and YE Coordinator if you would like to help. All earned YE credits would go to the chapter of your choice. (President, Bob Luken [rpluken@earthlink.net](mailto:rpluken@earthlink.net))

We hope to have displays set up with information on Ultralight, Light Sport and glider pilot training, and quite possibly hot air balloon training. We are reaching out to local chapters to provide staffing for these pilot training programs. Our aim is to provide exposure to the full range of pilot training.

We will have coffee and donuts available in the morning. We will hold a spaghetti dinner starting at 4 pm.

Red Stewart Airfield, founded in 1946 in Waynesville, Ohio, is dedicated to the preservation of grass roots aviation. They are a very active grass airfield, possibly the oldest, continuously active commercial grass strip in Ohio. Stewart Flying Service has been providing pilot training since the inception of the airfield. Their emphasis is on basic stick and rudder flying. Their training fleet include Piper J-3 Cubs and an Aeronca Champ. In addition, they also have more modern aircraft. Stewart offers a full range of pilot training from basic, sport pilot, instrument training, commercial pilot, glider training, aerobatic training, and tail wheel transition training.

Take the time to visit their website: <https://stewartsaircraft.net/index.html>

### **The Cold War, The Berlin Airlift, and the Candy Bomber**

**WACO will conclude the Lecture Series with a talk that is sure to interest ALL ages. On Wednesday, May 18th, John Jannazo will present a program titled “The Cold War, The Berlin Airlift and the Candy Bomber.” This interactive presentation will weave the story of Col Gail Halvorsen, and his story as part of the Berlin Airlift, June 1948 to May1949. Jannazo will review and discuss one key event in the chronology of the Cold War, and how no matter the war, cold or hot, it is not about the many factors involved; it is all about people the war affects. Based on the true story and children's book "Mercedes and the Chocolate Pilot" by Margot Raven, the speaker will review how one man's bold idea helped those most affected--the kids of Berlin. The talk is suitable for all ages and will involve an optional, but fun, audience participation activity (hint: it involves chocolate).**

**John "Jazz" Jannazo, served 21 years in the USAF, with over 3400 hours in multiple fighter aircraft with world-wide assignments, to include the F-106 Delta Dart and the F-15C Eagle, and combat tours in the Southwest Asia theater. In addition to his time as a fighter pilot and squadron commander, Jannazo also had extensive experience in development of new fighter technologies prior to transitioning to industry. He has a master’s degree in Modern US History, has been an adjunct professor for Embry Riddle Aeronautical University with their Aviation History section, and is currently a consultant to several major defense-based corporations.**

**This lecture is free and open to the public; donations to WACO Air Museum are gladly accepted. Lectures are held in the Willis Wing of the WACO Air Museum at 1865 South County Road 25A in Troy, OH. Doors open at 6:30 and the program begins at 7 p.m. Programs are scheduled to last one hour with questions to follow. For questions, please call 937-335-9226 or visit [www.wacoairmuseum.org](http://www.wacoairmuseum.org). This program is sponsored by Collins Aerospace.**

**September 14th - 17th 2023, we will be hosting the 100th Year Anniversary of WACO at Troy, OH.** As such, we have made a goal of attempting to get 100 WACO planes to the Museum those few days. To do this, we are reaching out to all WACO owners for some information. We will respect your privacy and this information is only used to send invitations and information for WACO Pilots for this event. We are looking for....

Owner Name, N-Number, Model and Year and a way you preferred to be contacted (email, phone etc.)

We are planning a very big event and want to have you all visit and share in the celebration.

Thanks!

Eric

EAA's annual Learn to Fly Day is Saturday, May 21, and it's a great time to host a Flying Start event and invite the community to your local chapter.

EAA's Flying Start program allows EAA chapters to welcome, encourage, and educate new aviation enthusiasts to the fun, freedom, and accessibility of personal aviation. The program is a great way to grow your chapter membership and engage with local aviation enthusiasts in your surrounding community. [Learn more >](https://www.eaa.org/ea/eaa-chapters/ea-chapter-resources/chapter-programs-and-activities/flying-start?utm_source=eblast_ltf_reminder_031422&utm_medium=email&utm_campaign=ea_lea_rntofly_2022&utm_content=ltf_cta&mkt_tok=OTEwLVNFVS0wNzMAAAGDJ-sH4pz_MhzvGhxr9kSLzZ6QfN2Xxi7tPPkFYH0GhwGO2Y-ESbMs4eRdq7efWG-Risr5c3Gf1HDxMk3kkkOi9JF223HG8igmfnqa45Vt7W0) [https://www.eaa.org/ea/eaa-chapters/ea-chapter-resources/chapter-programs-and-activities/flying-start?utm\\_source=eblast\\_ltf\\_reminder\\_031422&utm\\_medium=email&utm\\_campaign=ea\\_lea\\_rntofly\\_2022&utm\\_content=ltf\\_cta&mkt\\_tok=OTEwLVNFVS0wNzMAAAGDJ-sH4pz\\_MhzvGhxr9kSLzZ6QfN2Xxi7tPPkFYH0GhwGO2Y-ESbMs4eRdq7efWG-Risr5c3Gf1HDxMk3kkkOi9JF223HG8igmfnqa45Vt7W0](https://www.eaa.org/ea/eaa-chapters/ea-chapter-resources/chapter-programs-and-activities/flying-start?utm_source=eblast_ltf_reminder_031422&utm_medium=email&utm_campaign=ea_lea_rntofly_2022&utm_content=ltf_cta&mkt_tok=OTEwLVNFVS0wNzMAAAGDJ-sH4pz_MhzvGhxr9kSLzZ6QfN2Xxi7tPPkFYH0GhwGO2Y-ESbMs4eRdq7efWG-Risr5c3Gf1HDxMk3kkkOi9JF223HG8igmfnqa45Vt7W0)

Not only is this a wonderful opportunity, but it's also easy to do. All your chapter needs are:

- Comfortable gathering area/presentation space for up to 20 participants

- Audio/visual equipment with a screen and speakers
- Availability of local flight instruction
- Volunteer pilots available to provide Eagle Flights
- Buy-in from chapter members to engage with participants during and after the event

Additionally, chapters that host a Flying Start event on EAA Learn to Fly Day — or any time during the month of May — using the online registration tool will receive **two free weekly passes for EAA AirVenture Oshkosh 2022!**

## WomenVenture Celebrates 15 years at EAA AirVenture Oshkosh 2022

All WomenVenture participants are also eligible to receive the WomenVenture 15th anniversary T-shirt, designed by pilot Christy Holy. Those T-shirts can be pre-ordered for pickup at AirVenture by registering at [EAA.org/WomenVenture](https://www.eaa.org/WomenVenture), the location for all information regarding the 2022 WomenVenture activities.

EAA's local Chapters 1095 is about people, bringing together individuals interested in learning more about aviation as well as sharing their own knowledge.

Chapter members are involved in a variety of social and educational activities, including Young Eagles rallies, fly-ins, building seminars, and more, to build awareness in the community.

**EAA Name Tags** if you would like to order name tags for your members or at least your officers please check out Chapter 1095's website. These name tags are very professional looking and hold up well. <https://chapters.eaa.org/ea1095/ea-name-tags>

Come join our Ohio historical aviation journey....

Dear fellow Ohio and Midwest aviation enthusiasts...

My name is Kevin Korterud, and I am writing to you about an opportunity to preserve aviation history in an area where flight began by joining a new unit of the Commemorative Air Force in Central Ohio...where you do not need to live here to be an active and engaged member...

Being a member of the Commemorative Air Force for more than 20 years and serving in various roles including as a PT-19/T-34 pilot, I am very enthusiastic this New Unit Growth Program that includes the assignment of a Fairchild PT-19 or similar aircraft to new units achieving a base level of requirements.

Several new units have either acquired an aircraft or are in the process of doing so. More information about this program can be found here >>> CAF New Unit Program the Ohio and surrounding areas have been a hotbed of aviation history starting with the Wright Brothers and proceeding through many historical people and places...almost too many to mention.

Our new unit has already started to form with an airport location, hangar, and an initial set of members in Marysville Ohio just north of Columbus Ohio. This airport has SkyVista Aviation, an excellent aircraft maintenance facility as well as paved and grass runways...

We are seeking new members to help reach a level of 30 members and 5 pilots in order to qualify for the assignment of a Fairchild PT-19...the birthplace of many WW2 pilots. You do not have to be a pilot, mechanic or working in an aviation-related profession...units need people from all walks

of life that have an interest in preserving aviation history! If you are already a CAF member, our annual dues are \$48/year. If you are not already a CAF member, you can become one for as little as \$19/month.

Feel free to email me at [kkorterud@yahoo.com](mailto:kkorterud@yahoo.com) or call 678-982-1824 for more details...we would welcome new members to help advance our aviation history journey!

Sincerely,

Kevin Korterud

The Commemorative Air Force (CAF) is the World's Largest Flying Museum, a non-profit organization dedicated to the preservation and exhibition of historic military aircraft. The organization has a fleet of over 170 aircraft which are assigned to Unit locations world-wide. These Units consist of CAF members who volunteer their time and talents to maintain and exhibit aircraft as-well-as share their passion for aviation and history with audiences of all ages.

## Support IWASM's new exhibit *Quest for the Stars*

From 1960 to 1961, Dr. Randolph Lovelace recruited 25 women for testing to see if women could become astronauts. In a privately funded, non-NASA endorsed project, 13 women successfully underwent the same psychological and physiological testing as NASA's Mercury program members, including Ohioan John Glenn. However, NASA abruptly canceled the project in October 1961. It took 60 years for one of those 13 to realize the dream of spaceflight when on July 20, 2021, Wally Funk made her historic flight aboard Blue Origin's *New Shepherd*.

IWASM's newest exhibit, ***Quest for the Stars***, set to open to the public in October 2022, expands the story of women in our global quest for space exploration. *Quest* provides a holistic understanding of women's experiences, drive, and determination in achieving the global enthusiasm for space within historical context. We highlight the members of the Mercury 13, and shine a light on women of NASA, including Katherine Johnson, Mary Golda Ross, and Annie Easley. Members, sponsors, and special guests are invited to the special opening reception!

Our current display initially opened in 2007 thanks to the generous support of our members and corporate supporters. Join us in our project to usher in the next iteration of the exhibit!

**EAA Chapter 582**

**Toledo, Ohio**

Hello Chapter, 582 member/friend,

The Toledo Public Schools Aerospace & Natural Science Academy of Toledo has requested that the mighty Five Eighty Second put together a Young Eagle Rally again this year. This may be our only rally this year so let's step up and do it right!

The event date is May 14th and 15th, 2022.

The event location will be at the ANSAT hangar at Toledo Express Airport (TOL).

The details are not finalized, but the dates are set so this email is just to get the date on your calendar and give pilots/volunteers time to make sure they are current with the EAA Youth Protection Policy and Program, found at this website:

<https://www.eaa.org/eaayouth/youth-protection-policy-and-program>

Ground volunteers and pilots will be using the online rally management system. This system allows Young Eagles to pre-register online in time slots which means we can meter the number of participants coming at any one time which should help with planning. It worked well last year. Here is a link to the website: <https://youngeaglesday.org/>

**\*\*\*Pilots and ground volunteers will need to register on this website prior to the event.\*\*\***

This system is involved enough that it will require some training for ground volunteers in advance of the weekend. We will meet the week before the event either on Friday or Saturday to run through its use.

***Please go to that website and familiarize yourself with it if you plan to take part in this event or any events in the future. There are instructional videos available.*** It does not lend itself well to open "first come/first served" events like Plane Fun but should work well for events like this. Good news compared to last year's event... NO MORE MASK MANDATE!!!! Whether to wear a mask or not will be a personal decision.

I don't have the full schedule, but I would guess we will start flying around 9:00 in the morning and finish around 4:00 pm.

I can't have too many pilots and it's always helpful to have 4 or 5 ground volunteers running the table.

As always, I promise coffee and doughnuts.

**Pilots, be advised that I will need a firm commitment from you on your participation as the number of available seats directly affects pre-registration and scheduling.**

**The pilot requirements are:**

- Be an EAA member
- Hold an appropriate Airman's Certificate (sport pilot or greater)
- Possess a current Medical Certificate (if applicable)
- Be current to carry passengers in the aircraft you plan to use
- Have a current biennial flight review
- **Complete the Eagle Flights registration form before the flight**, signed by you and each of your passengers
- Conduct flights in an aircraft that is in airworthy condition
- Have Aircraft Passenger Liability Insurance for the aircraft used (owned, rented, or borrowed)

- Adhere to all applicable Federal Aviation Regulations

If you have general questions, please feel free to email me or call me.

## Theater in the Woods Preliminary Schedule Announced

April 07, 2022 – Aviation anniversaries and notable personalities are part of the lineup as the nightly Theater in the Woods evening programs bring the world of aviation to EAA AirVenture Oshkosh 2022. The 69th edition of EAA's fly-in convention is July 25-31 at Wittman Regional Airport in Oshkosh, Wisconsin.

This year's schedule of evening programs includes interests from homebuilt aircraft to spaceflight. The nightly programs give AirVenture attendees the opportunity to hear directly from the history makers and the innovators.

"The format of the evening Theater in the Woods presentations brings out not only the highlights, but the fascinating background stories from aviators who were there," said Rick Larsen, EAA's vice president of communities and member programs, who coordinates AirVenture features and attractions. "Spending an evening at Theater in the Woods is an Oshkosh tradition that creates countless memories for those in the audience and great stories that they take back home."

This year's major highlights include:

- Sunday, July 24: An Evening With Champions – The traditional AirVenture "pregame show," with aviation personalities in an evening of storytelling
- Monday, July 25: Van's RV 50th anniversary – The world's most popular kit aircraft celebrates a half century with more than 11,000 built
- Tuesday, July 26: Flying the Presidents – Experiences from the pilot's seat in Air Force One, Marine One, and other aircraft
- Wednesday, July 27: Women Legends of Aerobatics – Air show legends and champion aerobatic pilots discuss flying on the edge
- Thursday, July 28: Young Eagles 30th Anniversary/Pilots of *Top Gun* – Commemorate the largest youth aviation education program ever created, then hear from the people who were the inspiration for the iconic film
- Friday, July 29: The Next Bold Step: The Future of Space and Beyond – Representatives from NASA and SpaceX talk about what's next as we explore the solar system
- Saturday, July 30: U.S. Air Force 75th anniversary – The legacy and the future of America's aviation branch with top USAF officials present

Additional events and guests will be announced as they are finalized. All evening programs begin at 7 p.m., except on July 27 and 30, which begin at 6:30 p.m. due to the night air shows on those dates. Theater in the Woods programming is presented by M&M'S.

**This newsletter goes out to all EAA Chapters in Ohio, Indiana, West Virginia, Kentucky, and Michigan. It also goes to a lot of the FBO's in those states also. In**

June, I will be adding Pennsylvania to the newsletter. I have had a few people ask about news in Pennsylvania for the chapters and airports.

So, if you are planning to host an event and would like to get it out there, this is a place to do so. There is NO cost to advertise your events here.

If you are a Chapter that would like an article published in the Ohio Region Chapter Newsletter, please feel free to submit an article to me. Also, if you are a manager of an airport / FBO we would like your articles also. Tell us about an event that is going to take place at your airport, an excellent restaurant that is on the airfield for those pilots that like those \$100 hamburgers.

If someone from your Chapter has a plane, parts, or tools for sale we can include it here. There is no cost to put something in the newsletter to sell.

If you do not want to draft an article and would like for me to visit your website / Facebook page and gather my own 'intel' for an article, let me know.

Be sure to let me know if you have a different person that will be sending articles or to receive the newsletter to distribute to your Chapter members.

Please share this with your aviator friends. If you are getting this from a friend and would like to receive your own copy of the Newsletter, please let me know.

I will be starting a comment section so please send your comments as to what you would like to see from Chapters and FBO's.

Also, if you would like to be added directly to the mailing list, please send me an email.

*Thanks to all who sent me an article! Also, even if you do not have an event to talk about or an upcoming event to let us know about, a human-interest article with pics is also welcome. We love to hear about your members. Also please start thinking about the June newsletter. I would like the articles for it by May 22 nd. Send those articles or stories to me at [Daford1957@gmail.com](mailto:Daford1957@gmail.com)*

*Thanks again –
