Airventure 2021: July 26 - Aug 1

**As always, Some News from National.**

*Do you know someone who dreams of becoming a pilot or wants an additional rating?*

**Tell them to apply for an EAA scholarship!**

Through many generous donors, EAA awards more than \$1 million in aviation scholarship money via various programs each year.

They can learn more about the scholarship qualifications at [EAA.org/Scholarships](https://www.eaa.org/Scholarships). The scholarship deadline is **November 1, 2020**.

**September 3, 2020** – EAA's annual Wright Brothers Memorial Banquet, which has brought some of the world's top aviation personalities to Oshkosh for nearly 20 years, is moving to a virtual online format for this year's event on Thursday, December 10.

Apollo 13 commander James Lovell will be the special guest for the evening, which honors the 117th anniversary of the Wright brothers' first successful powered flight at Kitty Hawk, North Carolina, on December

17, 1903. Capt. Lovell will be interviewed by Charlie Precourt, a former NASA space shuttle commander and member of EAA's board of directors, in a program that begins at 7 p.m. Central Time on December 10.

"As much as we would love having Capt. Lovell and EAA members all together at the EAA Aviation Museum as we've had for past Wright Brothers banquets, limits on large gatherings because of the COVID-19 pandemic have just made that impossible this year," said Jack J. Pelton, EAA's CEO and chairman of the board. "We are grateful, however, that Capt. Lovell has agreed to join us for an online streaming interview session where he'll talk about his aviation and spaceflight experiences."

This December 10 special event is free for all EAA members. EAA members must log in to their [EAA.org](https://www.eaa.org) web account and visit [EAA.org/WrightBrothers](https://www.eaa.org/WrightBrothers) to access the event. A recording of the event will also be available on demand for members to view at their convenience. Nonmembers may attend the event by first purchasing a one-year EAA membership for \$40 at [EAA.org/Join](https://www.eaa.org/Join), and then creating a member web account at [EAA.org](https://www.eaa.org).

Capt. Lovell, a longtime EAA member and supporter of the organization's programs, grew up in Milwaukee, Wisconsin. He attended the U.S. Naval Academy and after graduation flew McDonnell F2H Banshee fighters off of the USS Shangri-La before attending test pilot school at NAS Patuxent River. In 1962 he applied for and was accepted into the second group of U.S. astronauts. The Mercury astronauts were known as the "Original Seven," while Lovell and his peers became the "New Nine."

Lovell's first space mission was Gemini 7 with fellow EAA member Frank Borman, followed by Gemini 12, in which he and Buzz Aldrin worked on extravehicular activities and docking. In December 1968, Lovell was command module pilot alongside Borman and Bill Anders on Apollo 8, which was the first manned mission to orbit the moon. Lovell planned to return to the moon in April 1970, as the commander of Apollo 13.

With Lovell's crewmates Fred Haise and Jack Swigert, the Apollo 13 mission was to include a landing in the Fra Mauro Highlands on the lunar surface. Three days into the mission, an explosion severely damaged the spacecraft. Working hand-in-hand with mission control, Apollo 13 improvised a brilliant and safe return to Earth.

## **Presidential TFR Violations Have Serious Ramifications for General Aviation as a Whole**

Since the dark months immediately following September 11, 2001, when general aviation was all but grounded around major metropolitan areas, and EAA along with other aviation associations were fighting for the future of personal and recreational aviation, the use of temporary flight restrictions (TFRs) increased in prevalence and size. Whereas a presidential TFR was once a three-mile restriction, today they are ten times that size — 30 nautical miles of restricted operations with a 10-mile no fly zone in the center. The closure of these massive swaths of airspace become far more frequent and unpredictable during campaign season, especially in a presidential election year.

While the level of in-person campaigning has been dramatically reduced during this presidential election cycle due to the COVID-19 pandemic, the president is still making many stops across the country, often on very short notice, resulting in pop-up presidential TFRs appearing in what otherwise might seem like unlikely places. Further, in the event that the administration changes in November, both the president-elect and the sitting president receive full security protection, thus resulting in even more TFRs.

Whenever a general aviation pilot violates a presidential TFR, a series of event is triggered across the presidential protective service, law enforcement, and the military. It is hard to overstate the seriousness with which these security services take incursions to the restricted airspace, and the response ripples from the president's immediate protective service members all the way through the North American Aerospace Defense

Command (NORAD) system. The offending flight is intercepted by fighters, radio contact is attempted, and failing that, flares are released to try to gain attention. Under the gravest of circumstances, if an incursion appears to pose an imminent threat, the use of deadly force is an option — albeit the absolute last resort.

Thankfully, no incursion has resulted in a deadly outcome to date, but violations of presidential TFRs continue to happen. It is understandable that many VFR pilots who fly, day in and day out, through a given piece of airspace might have no reason to believe that today is any different. But particularly during a campaign season when TFRs are more numerous, no pilot should ever assume that there won't be a TFR along their intended route of flight. Careful pre-flight planning and checking in with Flight Service should be a part of even the most routine VFR flight.

Each time there is a GA incursion of a presidential TFR, it not only increases scrutiny on our community from the security and military services tasked with presidential protection, it hardens that viewpoint that more should be done to keep general aviation flights at an even greater distance, an issue that EAA and others have had to repeatedly fight against. Furthermore, incursions attract significant media attention as the press are often in the midst of, or at least witness to, the scramble to protect the president, drawing first-hand attention to the matter. This never fails to paint personal and recreational aviation in a negative light, something none of us want or need.

So please take extra precautions every time you fly, even for the most routine VFR flights, to ensure that your intended flight path will not come anywhere near a presidential TFR. Your extra diligence will go a long way toward ensuring that the freedom of personal flight is not further impinged upon by those mandated to provide protection to our top elected official.

## Chapter 333 GrillVenture 2020: A Pleasant Evening Visiting with People and Aircraft

On July 21 the *Flying Stinkers* held a cookout timed to coincide with the virtual AirVenture program, *Spirit of Aviation Week*, put together by EAA HQ. About 20 members and guests, and 4 aircraft attended. The club provided a hot grilling surface and everybody took care of themselves. Doug Gross demonstrated a couple of takeoffs and landings in his gyrocopter. While smaller than the real AirVenture, we still had a representative sampling of AirVenture's diversity including: a high-wing homebuilt, a low-wing homebuilt, a beautifully restored vintage aircraft, and a gyrocopter.

*Marc Murawski Van's Aircraft RV-6A 1997*

*Nelini Faulkner Globe Swift GC-1B 1948*

*Doug Gross SportCopter II 2014*

*Mike (builder) and Hanna (pilot) Rans S-20 Raven 2017*

IMC Club is hosted by Will Minette every 4<sup>th</sup> Tuesday of the month at 7pm.

### **Future Events/Airport Usage**

**Many of the events for 2020 have been canceled or postponed due to COVID 19 and ideas were discussed for the future of the airport and ways to bring more citizens to its grounds.**

**Wilbur Wright Fly-In (Postponed till September 20th) Hagerstown**

**Fireworks (postponed till the fall)**

**EAA Chapter Fall Fly-In Weekend (Date TBD for 2020)**

**Boys Scout Aviation Badge camping weekend was discussed**

**RC Club youth flying events was discussed**

The Chapter also stated that we currently don't have an accurate system for measure the airplane traffic at the airport. While there is a log that pilots are asked to fill out, many pilots don't exit their aircraft when landing or using the field. It was suggested that a trail camera system be set up to track the daily traffic of the planes. The possibility of holding other events at the airport was also discussed.

## **September Breakfast Update** **Saturday September 12**

**Due to an unforeseen illness, our Speaker Gary Quigg will not be able to give his Amelia Earhart Presentation this Saturday, September 12th at KRID Richmond Municipal Airport. **Chapter 67**  
Noblesville, Indiana

<http://www.eaa67.org/>

EAA Chapter 67 normally meets the first Monday of every month at 7:00 PM at the Noblesville Airport.

There is often a pitch-in at 6:30 PM prior to the meeting.

A business meeting takes place at 6:00 PM before the pitch-in and is open to all. **Visitors and Guests are Always Welcomed**

September: open. October: Family Day. November: Brian and Allan will have chili. **NOTE** - Please consider volunteering to help with this. I believe the pitch-in is a great opportunity to visit, network, and getting to know people. Simple things like a stew, casserole, burritos, potpie, spaghetti, soup, lasagna, and chili are great. And all of those have nearly infinite variations. We reimburse you for the raw materials. Talk to me if you would like some guidance.

### **Flight of a Lifetime for chapter member Paul Reidy in a Mitchell B-25**

Paul had an opportunity to fly a Mitchell B-25 (Old Glory) from Florida to San Diego and watched as it was hoisted onto the USS Essex. The aircraft was now enroute to Hawaii for the 75th anniversary of wars end. Paul says, "It was a real honor for me to be a part of it".

*This had to be an awesome trip for Paul! Thanks for sharing and congrats on the wonderful trip!*

## Join us in supporting EAA

This has been an unprecedented year, and the impact on the aviation industry as a whole and EAA in particular has been significant. To help our friends in aviation, The Sporty's Foundation has created a matching gift initiative: for every dollar Sporty's customers donate, up to \$25,000, we'll match it, with 100% of donations going to EAA. Our goal is to raise \$50,000 for an important cause.

Your donation will help EAA continue to provide quality programming that will have a profound and positive impact on the aviation industry. Sporty's has been a longtime supporter of Young Eagles and this program - as well as many other EAA initiatives - is more important than ever right now.

Please donate whatever you can. You might consider an amount equal to your expected ticket fee for 2020: \$36 for a daily ticket, \$125 for a weekly, or \$196 for a weekly camping ticket.

## Van Sant Airport, Erwinna, PA 9N1

Van Sant is a classic, grass field airstrip in Erwinna, PA. Bar and Dannie Eisenhower operate the FBO and offer rides in a 1928 Travel Air biplane, a 1942 Stearman, a 1946 Piper Cub and more.

Located on the field are some of the finest examples of vintage planes anywhere. Check out the website for more info. During the summer they hold a dinner movie night on the last Saturday of the month. During the afternoon they give airshow priced plane rides. During dinner there is usually live music with the movie starting at dusk projected on to a hangar door. People fly in, drive in, bike in and walk in for this event.

Please come visit. Fun for everyone - adults, kids and dogs! Or fly in any time for a good burger at the Betty Boop grill and just sit under the trees and watch the aviation action!

Dear WACO owners, pilots and aviation enthusiasts,

This has been a difficult year for all of us but as of today, WACO is planning to hold their 24<sup>th</sup> annual Fly-In. It will be September 17-20 and as always, all GA are invited to attend.

**AVGAS** will be available but not as easy as in the past. Mote no longer carries Av Gas. We have contracted with Swift fuel. It is a 94 octane av gas that is certified for low compression aircraft engines. If that doesn't work for you, fuel is available locally at Piqua, Phillipsburg and Moraine.

**Thursday evening** will be dinner on your own.

**Friday** morning is a tour of the Woodland Cemetery with an aviation theme. Orville & Wilbur Wright are buried there, along with a number of other aviation people. (Bob & Patty Wagner have a plot and headstone there - unused of course!) We will leave WACO at 10:00 to caravan. We will make a stop at Esther Price Candies and lunch will be at Ladder 11. Friday evening at 5:30 will be a gathering at Troy Skypark in Sean Saddler's hanger. BYOB

**Saturday:** On Saturday we will have our banquet in the Willis Wing to salute the pilots who flew in. In order to comply with Ohio Liquor Laws, WACO is unable to allow the sale of alcohol on the premises. Therefore, if you would like an alcoholic beverage, we welcome you to bring your own beverage. We will be providing water and soft drinks with your

dinner. (Social hour 6PM/dinner 7PM/ Auction 8PM) We will also hold a silent auction with some special WACO artifacts and memorabilia available. Price for the banquet is \$25 per person.

**Lodging:** There is a block of rooms at the Fairfield Inn Troy (937-332-1446) \$112 plus tax or Hampton Inn \$99.75 plus tax (937-339-7801). Give the WACO name.

**Cars:** As usual, we will have courtesy cars available to get back and forth to the motel and for your use during the weekend. We can't provide a car for every individual pilot, but there should be adequate transportation if we share.

We look forward to seeing you at the 2020 WACO Fly-In! Please pass the words to all your friends.

**\*\*The plan to hold the Fly-In has been approved by the Miami County Health Department. However, things change on a weekly basis. Please call the week before to be sure we are on.**

**EAA CHAPTER 284** Due to CDC and health department restrictions EAA Chapter 284 is regretfully cancelling its 2020 Taildragger Fly In and Pancake Breakfast

We have held this event for many years at Red Stewart Airfield (40I), Waynesville OH on Labor Day Sunday. The scheduled date for 2020 would have been September 6, 2020

We look forward to 2021.

EAA Chapter 284's annual Taildragger Fly In and Pancake Breakfast is traditionally held on the Sunday proceeding Labor Day. The date for 2021 is September 5th.

We look forward to seeing everyone next year.

A boy's dream, an aeronautical chart, and a bit of creative magic united in 2015 to create Chart it All. Trevor Simoneau, 15, is a student pilot. In 2015, Trevor crafted a plan to finance his future education at Embry-Riddle Aeronautical University and the cost of AvGas with custom, one-of-a-kind shirts printed with aeronautical charts. Trevor is an IB Sophomore at DeLand High School and president of Aviation Explorers 747, a club dedicated to inspiring kids of all ages interested in all aspects of aviation. He also works as an aviation news reporter for Sun 'n Fun Radio.

Today, his small family business offers distinctive clothing and gifts with your choice of aeronautical sectional charts.

Your purchase goes a long way to fuel his dream.

Check out the website for all kinds of aviation items that would make fantastic gifts for Christmas or a birthday.

If you are a Chapter that would like an article published in the Ohio Region Chapter Newsletter, please feel free to submit an article to me. Also, if you are a manager of an airport / FBO we would like your articles also. Tell us about an event that is going to take place at your airport, a great restaurant that is on the airfield for those pilots that like those \$100 hamburgers.

A great place to visit that is close to the airport where you have a courtesy car or that they are willing to pick up visitors and take them to the location.

If you are a local chapter and are willing to transport visitors of your airport to a local event that is great. Let us know and we can post it here. Afterall, EAA is known for its hospitality.

If someone from your Chapter has a plane, parts, or tools for sale we can include it here.

If you do not want to write an article and would like for me to visit your website / Facebook page and gather my own 'intel' for an article, let me know.

Be sure to let me know if you have a different person that will be sending articles or to receive the newsletter to distribute to your Chapter members.

Please share this with your aviator friends.

I will be starting a comment section so please send your comments as to what you would like to see from Chapters and FBO's.

*Thanks to all who sent me an article! Also, even if you do not have an event to talk about or an upcoming event to let us know about, a human-interest article with pics is also welcome. We love to hear about your members. Also please start thinking about the September newsletter. I would like the articles for it by September 20th please.*

*Thanks again - Darlene Ford*
