Airventure 2021: July 26 - Aug 1

As always, Some News from National.

EAA AirVenture Safety Protocols Last updated April 19, 2021.

- EAA members now have the option to receive admissions credentials including wristbands in advance through our [Express Arrival program](#). This is offered at no extra charge when you purchase your
- Masks will be strongly recommended if you are unable to social distance (roughly 6 feet or 2 meters).
- Proof of COVID vaccine will not be required to attend.
- International visitation is dependent on current international travel regulations and mandates in the U.S. and individual countries of residence.
- Increased physical distancing will be encouraged in all areas.
- EAA is adding significant numbers of sanitizing facilities and working with industry-leading companies for continual disinfection throughout the grounds.
- Theater in the Woods, forums pavilions, and other outdoor venues will operate with reduced seating capacity, with social distancing opportunities on the open grounds at that location.
- There will be fewer exhibitors in each indoor exhibit building, creating more walkways and separation between exhibitors. Additional venues on the grounds are being re-purposed to accommodate indoor exhibitors that are moved this year.
- Wherever possible, ventilation will be increased in tents and indoor facilities.
- Several annual events where physical distancing is not possible will not be held this year, including the Monday night concert; the Young Eagles, EAA Lifetime Member, and International Visitors dinners; the Runway 5K run/walk; the WomenVenture social; the Seaplane Base's Watermelon social, and large corporate events and receptions.
- High-demand forums and presentations will be scheduled more than once to accommodate demand while allowing for distancing.

As always, we invite your ideas and input at feedback@eaa.org. We will see you on the Oshkosh flight line this summer!

One of the exasperating elements of COVID guidance for everyone, whether it pertains to a large public events or individual actions, is the continuing uncertainty and lack of specific dates for a return

to normalcy. With that said, all guidelines are established for circumstances at the specific moment. As those circumstances evolve, so will the guidelines to reflect the current situation. We hope, naturally, that it will continue to be in a positive direction. That information will be updated as necessary at [EAA.org/COVID](https://www.eaa.org/COVID).

Be sure to go to [EAA.org](https://www.eaa.org) for all the latest news. You will find news of the different air show performers that will be at Airventure 2021.

Help EAA Grow Participation in Aviation

Spread the word – EAA flight training scholarship applications are open!

If you know someone who dreams of becoming a pilot or is looking to receive an additional rating, EAA is here to help their aviation dreams become a reality.

Through dozens of generous donors, benefactors, and others who “pay it forward” by endowing these programs, EAA awards more than \$1 million in aviation scholarship money each year to individuals who are well-rounded and involved in their school or community.

Learn more about the scholarship qualifications at [EAA.org/Scholarships](https://www.eaa.org/Scholarships). One application qualifies you for multiple scholarships. The scholarship application deadline is June 1, 2021.

February 25, 2021 – EAA AirVenture Oshkosh 2021 is coming, and we know it will be worth the wait! In anticipation of getting everyone back to Oshkosh, EAA is looking to spark some excitement for our attendees and members. We are compiling short videos from those who know AirVenture the best: air show performers, volunteers, members, attendees, and our partners! These videos will be featured on EAA's social media channels and the EAA website. We are looking for these videos to be enthusiastic and fun, and get people motivated to attend AirVenture.

It's simple. Just shoot a short video including the following:

1. Introduce yourself!
2. Finish this sentence:
 - "AirVenture 2021 will be **worth the wait** because..."
3. End video with, "**See you at Oshkosh!**"

Video Requirements:

- Please include your name via email when you send us your video link upon submission.
- Please speak clearly and loudly.
- Record in a space where there are limited background distractions, preferably in front of an airplane or something aviation-related.
- Please make sure background noise is eliminated or significantly reduced before recording.
- For best results, ask a friend or family member to record for you. Please make sure that if you or someone else is recording on a smartphone, that you are holding the phone **horizontally** while recording.
- Please send video submissions via a Dropbox link or Google Drive link to cbasken@eaa.org.
- Please keep videos short, preferably no longer than 30 seconds.

And it looks like Audrey's Park will be opening back up in May for those of that 'live' in the Park during Airventure. I can hardly wait to be 'home' again.

VIRUS Alert: Know before you go.

Before attending or traveling to any destination or event listed, be sure and email or call ahead to see if the event or destination is open and/or available. Be safe and healthy.

IAC Announces National Aerobatics Day

March 11, 2021 – The skill, beauty, and excitement of aerobatic flight will be celebrated on Saturday, June 26, during the inaugural National Aerobatics Day, as announced by Jim Bourke, President of the International Aerobatics Club (IAC).

"National Aerobatics Day is the perfect day to host an aerobatic camp, a BBQ, a practice session, or to share videos of aerobatic activity online," Bourke said. "With over 40 chapters nationwide and two international chapters, IAC members will be organizing these types of activities and others to engage the public and general aviation pilots in aerobatics."

IAC has established National Aerobatics Day as the fourth Saturday in June each year. It will highlight the dedicated pilots who fly these precision maneuvers as well as the ground support teams that make it possible.

Greg Principato, President and CEO of the National Aeronautic Association, enthusiastically stated: "Aerobatics thrill. They also inspire. And there is no telling to what heights that inspiration will take someone!"

Originally developed as evasive maneuvers during World War I, aerobatics is a proven discipline that builds confidence and improves pilot proficiency. The loops, rolls, hammerheads, and lomcevaks are examples of precision flying at its finest, and most fun!

"There are few things in life and nothing else in aviation that are as joyful and liberating as flying aerobatics," said John Cudahy, President of the International Council of Air Shows. "And the idea of devoting one day each year to celebrating aerobatics is brilliant."

The IAC exists to promote the safety and enjoyment of this great sport — what better way to celebrate than to set aside a special day to recognize the aerobatic community, and engage in sharing a passion that too few get to experience?

More information is available at IAC.org — including IAC chapters throughout the country and IAC contest and events calendars for aerobatic activity on June 26 and year-round!

Please check out our Facebook page for the latest up to date information

<https://www.facebook.com/groups/2221359754604751/>

Our Board has been meeting & social distancing. We hope that the COVID-19 restrictions lift even more so that we can finalize our 2021 plans. We should be able to finalize a few of our plans for 2021 at our April meeting. So, stay tuned.

Locations of our meetings will be posted on the website and on our Facebook page. Our Chapter dues are \$ 10.00 year. Make checks payable to EAA Chapter 1625. Checks can be mailed to EAA Chapter 1625 P.O. Box 476 Chillicothe, OH 45601. Please include your EAA member #

Our new website is up and running. The direct link is <https://chapters.eaa.org/eaa1625>

EAA Chapter 1629 Marysville, OH Union County KMRT

Currently meetings are on hold, but we hope to start having a few with the social distancing. The Board has been meeting and have made some tentative plans. We are hoping that the COVID-19 restrictions will lift, and we can finalize them. Hopefully, we will soon have some great news to tell you!

Our email is marysvilleeachapter@gmail.com

Other events and meetings are also being planned so stay tuned.

As always you can visit our website at <http://eaa1629.org> for the latest up to date information regarding the chapter.

With all these events going on now would be a good time to renew with the chapter if you have not already done so. You can renew your membership in one of three ways:

1. To renew your membership with a credit card or PayPal go to the following link: <https://eaa1629.org> and click the Join or Renew link on the left.
2. Mail a check for \$10.00 made payable to The Marysville EAA Chapter 1629 to Marysville EAA Chapter 1629 760 Clymer Rd. Marysville, OH 43040
3. Bring a check for \$10.00 made payable to the Marysville EAA Chapter 1629 or \$10.00 cash (Correct Change preferred) to any of the Marysville EAA 1629 functions.

AOPA always has some great articles on their website. I highly recommend that you check out their website for some great information. It will help make you a better pilot with the knowledge. Thanks Alyssa for this article.

AME guidance released for pilots who have had COVID-19 By Alyssa J. Cobb

The FAA on March 26 released much-anticipated [guidance to aviation medical examiners](#) about how to handle medical certificate applications from pilots and air traffic control specialists who have had confirmed cases of COVID-19.

As long as the pilot or ATC specialist is otherwise qualified, an AME can issue a medical certificate when the person who had a confirmed case of COVID-19 has fully recovered and was asymptomatic or had a mild infection, had a prolonged infection but was not hospitalized, or was hospitalized but did not require intensive care. For those who were hospitalized (but not in intensive care), the AME should forward any applicable records to the FAA after issuing the medical certificate.

AMEs must defer applications for individuals who were in intensive care or “are experiencing ongoing residual signs and/or symptoms of confirmed COVID-19.” The ongoing signs and symptoms “may include but are not limited to cardiovascular dysfunction, respiratory abnormalities, kidney injury, neurological dysfunction, psychiatric conditions (e.g., depression, anxiety, moodiness), or symptoms such as fatigue, shortness of breath, cough, arthralgia, or chest pain,” according to the guidance sent to AMEs. This means the AME cannot issue the medical certificate in the office and sends the completed application and any other medical records to the FAA's Aerospace Medical Certification Division. The FAA then works directly with the pilot.

The guidance comes at a time when pilots, controllers, and AMEs were unsure of how to handle medical applications that involved a history of COVID-19.

“We appreciate the FAA’s scaled approach to granting medical certificates for pilots and air traffic control specialists who have had COVID-19,” said AOPA Senior Vice President of Government Affairs Jim Coon. “This guidance allows AMEs to issue medical certificates for the vast majority of pilots and controllers who have had COVID-19, requiring deferral in only the most severe cases.”

The FAA has previously released policies regarding the three coronavirus vaccines currently available—[PfizerBioNTech](#), [Moderna](#), and [Johnson & Johnson](#). The policies require a 48-hour rest period after each dose (the Pfizer-BioNTech and Moderna vaccines require two shots) before resuming flying or controlling air traffic. Pilots and ATC specialists are not required to submit any documentation regarding their vaccination.

Great place to camp and fly into, right beside the Ohio River and a great restaurant on the field.

Great place to camp and fly into, right beside the Ohio

The Tin Goose Diner has changed their hours! : Tin Goose Diner is a restored 1950s diner attached to the Liberty Aviation Museum, located next door to the Erie-Ottawa International Airport, Carl R Keller Field KPCW. The diner is open 7 days a week serving top flight meals. For hours, please visit our website as our hours do change throughout the year! When in doubt about the weather, please visit our Facebook Twitter pages for closures due to inclement weather. Call in orders are accepted.

Parking available for airplanes behind the museum hangar is available, provided no special events are going on at the museum. Large planes can park at the airport terminal and guests can be shuttled over or take the sidewalk, located by the street, beyond the fence. Please do not attempt to walk through the grass from the airport or walk on the active taxiway. We have a FREE shuttle service from our facility to the airport and vice versa. You can let us know if you need a shuttle either by radioing in as you are taxiing in, by calling us to request a shuttle pickup or inquire inside the airport 419-732-0236 or 419-732-0234 for a shuttle from the museum to bring you over. All proceeds from the diner help fund the operation of the Liberty Aviation Museum, home to the B-25J Georgie's Gal, the Island Airlines Tri-Motor restoration, a current WWII PT boat restoration of the PT-728 Thomcat and more! To see photos, check out the website www.tingoosediner.com or view our Facebook page for more info!

A note about events

Please call MAPS or check our website, Facebook, or Instagram for any updates on the events above if you are planning to attend.

MAPS Air Museum is an internationally known museum of aviation and serves as a center of aviation history for Northeast Ohio. The museum features exciting educational displays of its collection of acquired artifacts, interactive exhibits, and historical archives in its own library.

Whether you have an hour or a whole day, there is something for you at MAPS.

If you have never been to the MAPS Museum, I recommend going. It is a fun place to visit. Something for everyone here. Lots of fun. You can either fly in or drive in. Very nice pleasant group of people working there. They have a great giftshop also. Be sure to sign up for their newsletter!

EVENTS 2021

We are in the pre planning stages for our 2021 events. Volunteers are needed!

If you would like to volunteer for any of the following events or if there is an event you would like to see happen, please let me know.

joedeaton@laibe.com

We will be adding dates to the events as planning progresses.

Every Friday - Hangin' At The Hangar

7/11/21 - Car's Planes & Coffee

10/24/21 - Mini Chili Fly In

The Toledo Public Schools Aerospace & Natural Science Academy of Toledo has requested that the mighty Five Eighty Second put together a Young Eagle Rally again this year and I am itching to give airplane rides to kids so I think we should do it.

The event date is May 22nd and 23rd, 2021.

The event location will be at the ANSAT hangar at Toledo Express Airport (TOL).

The details are not finalized, but the dates are set so this email is just to get the date on your calendar and give pilots/volunteers time to make sure they are current with the EAA Youth Protection Policy and Program.

<https://www.eaa.org/eaa/youth/youth-protection-policy-and-program>

Ground volunteers and pilots will be using the new rally management system. The EAA has established an online Young Eagle event management system that will allow us to better manage events like this. The website allows Young Eagles to pre-register online in time slots which means we can meter the number of participants coming at any one time which should help with social distancing. It worked well last year with the exception of internet access for our system. I will work on making that better so we can print right at the desk from our own printer. Here is a link to the website.

<https://youngeaglesday.org/>

Please go to that website and familiarize yourself with it if you plan to take part in this event or any events in the future. There are instructional videos available. It does not lend itself well to open "first come/first served" events like Plane Fun, but should work well for events like this.

Pilots who want to fly Young Eagles will have to register on this website to have Young Eagles assigned to them on the day of the event.

As the pandemic is still with us, we will apply the same precautions that we did last year. This list is likely to have additions and/or modifications, but this should cover the basics.

1. Flights will be scheduled on an hourly basis. My initial thoughts are 3 morning flights starting at 9:00 and 3 afternoon flights starting at 1:00. The event will be pre-registered and not on a first come first served basis.
2. Ground volunteers will disinfect seats, headsets, and high touch surfaces after each flight (70% isopropyl will be used on those surfaces). If pilots want their windows cleaned after each flight an acrylic cleaner (like Prist) will be used (not alcohol).
3. Multiple layer masks will be required. Bandanas, fleece, or any single layer fabric masks will not be permitted. I may reconsider this for the pilot if that pilot has been vaccinated, but out of an abundance of caution I will request they wear a mask anyway.
4. We will apply some form of CDC guidelines for pre-flight health evaluation but what exact measures will be taken have not been determined.

When the details are complete, I will send out another email with a link for registration.

Pilots, be advised that I will need a firm commitment from you on your participation as the number of available seats directly affects pre-registration and scheduling.

If you have general questions please feel free to email me or call me.

Steve Cechner 419-350-7008 caslcech@bex.net

Thanks,
Steve

Atterbury-Bakalar Air Museum Complex, Columbus,

**JOHN ALDEN CLARK AND
MARIE MOUNTAIN CLARK
SCHOLARSHIP APPLICATION
2021**

*Opportunity
Awaits!*

Dr. John Clark established the **John Alden Clark and Marie Mountain Clark Scholarship** to help students interested in aviation, math, and science afford the cost of higher education.

Dr. John Clark was a professor of mechanical engineering at the University of Michigan, and is an accomplished World War II veteran, having flown with the 8th Air Force as a B-17 copilot. **Marie Mountain Clark** was an accomplished musician and dedicated World War II pilot. Marie was a member of the Women's Air Force Service Pilots (WASP), the first women to serve as pilots in the United States' Air Force.

The John Alden Clark and Marie Mountain Clark Scholarship is intended for graduating high school seniors pursuing a major in a STEM, aviation, or aeronautics field at a Michigan-based college.

The deadline to apply is May 15th, 2021.

Click on below to learn more and download an application! <https://yankeeairmuseum.org/clark/>

KAZO

When you visit the Air Zoo's aircraft collection, you are entering the land of giants.

You will see a Curtiss P-40 Warhawk. Gaze up at an awesome F-18. You will get up close and personal with an overpowering F-14 Tomcat, the star of Top Gun. And you will stand face-to-face with the SR-71B Blackbird spy plane, still unmatched in speed and altitude.

Fly in and park right at the Air Zoo East Campus.

Visit this Website: <http://www.airzoo.org/>

International Women's Air & Space Museum

The team at the International Women's Air & Space Museum has been working behind the scenes to revamp our programs and offerings, to ensure that we continue to inform, educate, and inspire. This process includes planning for all scenarios to eventually welcome people back for in-person events, and plan for our continued collections preservation projects. Beginning the week of March 15, the museum will reopen to visitors. We believe it is our responsibility to do so in a measured and responsible way.

All visitors to the Burke Lakefront Airport are required at all times to wear masks that cover both their nose and mouth. If you do not have a mask, the museum has some for purchase both in the online, and at the instore gift shop. Hand sanitizing stations are regularly supplied and available throughout the building. The museum staff regularly disinfects high touch surfaces throughout the day, such as interactive exhibit elements. We are limiting the total number of individuals to enter the gift shop at any given time, and we are following all new information provided by the CDC and State of Ohio Department of Health. If you plan to visit the museum, please continue to self-monitor and if you feel ill, please stay home, and visit us at another time. At this time, the museum will not host in-person events. However, we welcome all to participate in our upcoming virtual programs.

For questions, please call 216.623.1111 or email us at info@iwasm.org.

Stay safe. Stay healthy. Mask up. We are in this together! If you are in need of a mask, we are selling some! With a big thanks to museum advisor, Teresa, we have three different patterns to choose from. Pictured is our

Rosie print.

Hot air balloons and planes also available. Quantities are limited.

International Young Eagles Day June 12

Hagerstown 10AM-1PM

Young Eagles Coordinator, Mike Davis is busy preparing for International Young Eagles Day at Hagerstown Airport. We are making this a Hagerstown area targeted event for local kids. We are looking for pilots and volunteers to help fly our target of about 50 kids. We need volunteers for paperwork, ground ops and other duties. Our June breakfast will be at 9AM before the event. If you would like to volunteer, please email Mike at mdavisrfd@gmail.com .

Custom U.S. Aeronautical Chart Apron

<https://www.chartitall.com/>

A boy's dream, an aeronautical chart, and a bit of creative magic united in 2015 to create Chart it All. Trevor Simoneau, 15, is a student pilot. In 2015, Trevor crafted a plan to finance his future education at Embry-Riddle Aeronautical University and the cost of AvGas with custom, one-of-a-kind shirts printed with aeronautical charts. Trevor is an IB Sophomore at DeLand High School and president of Aviation Explorers 747, a club dedicated to inspiring kids of all ages interested in all aspects of aviation. He also works as an aviation news reporter for Sun 'n Fun Radio.

Today, his small family business offers distinctive clothing and gifts with your choice of aeronautical sectional charts.

Your purchase goes a long way to fuel his dream. Check out the website for all kinds of aviation items that would make fantastic gifts for Christmas or a birthday. Trevor is a little older now, but still has some great ideas!

They now have Sectional Chart Face Masks and Custom U. S. Aeronautical Chart Face Masks! Also new are Custom Aeronautical Chart Pocket T-Shirts!

This newsletter goes out to all EAA Chapters in Ohio, Indiana, West Virginia, Kentucky, and Michigan. It also goes to a lot of the FBO's in those states also.

So, if you are planning to host an event and would like to get it out there, this is a place to do so.

If you are a Chapter that would like an article published in the Ohio Region Chapter Newsletter, please feel free to submit an article to me. Also, if you are a manager of an airport / FBO we would like your articles also. Tell us about an event that is going to take place at your airport, a great restaurant that is on the airfield for those pilots that like those \$100 hamburgers.

A great place to visit that is close to the airport where you have a courtesy car or that they are willing to pick up visitors and take them to the location.

If you are a local chapter and are willing to transport visitors of your airport to a local event that is great. Let us know and we can post it here. Afterall, EAA is known for its hospitality.

If someone from your Chapter has a plane, parts, or tools for sale we can include it here.

If you do not want to write an article and would like for me to visit your website / Facebook page and gather my own 'intel' for an article, let me know.

Be sure to let me know if you have a different person that will be sending articles or to receive the newsletter to distribute to your Chapter members.

Please share this with your aviator friends.

I will be starting a comment section so please send your comments as to what you would like to see from Chapters and FBO's.

Thanks to all who sent me an article! Also, even if you do not have an event to talk about or an upcoming event to let us know about, a human-interest article with pics is also welcome. We love to hear about your members. Also please start thinking about the June newsletter. I would like the articles for it by June 19th.

Send those articles or stories to me at Daford1957@gmail.com

Thanks again - Darlene Ford
