Fly In Theatre

EAA AirVenture Oshkosh 2022 is in the books, and it turned out to be a record setting year.

“We introduced a tagline of ‘Unlike Anything Else’ for this year’s AirVenture event and 2022’s fly-in proved to truly be unlike anything else,” said EAA CEO and Chairman Jack Pelton. “We had seven days of nearly perfect weather, along with this year’s programs and activities, which brought out people and airplanes in numbers that we haven’t seen before.”

This year’s attendance was approximately 650,000 people, which was 7 percent more than 2021’s attendance, and exceeded the previous record of 642,000 which was set in 2019.

“There were several factors involved in the record attendance this year, in addition to the great weather,” said Jack. “Programs such as the 75th anniversary of the U.S. Air Force contributed to exciting aerial displays all week, and it was a joy to welcome our international visitors back in full force for the first time since 2019.”

Here are some other details from this year's fly-in:

Total aircraft: More than 10,000 aircraft arrived at Wittman Regional Airport in Oshkosh and other airports in east-central Wisconsin. At Wittman alone, there were 18,684 aircraft operations in the 11-day period from July 21-31, which is an average of approximately 121 takeoffs/landings per hour when the airport is open.

Total showplanes: 3,226, including: 1,375 registered in vintage aircraft parking, plus 1,156 homebuilt aircraft (up 6 percent over 2021), 369 warbirds (up 5 percent from '21), 137 ultralights, 87 seaplanes, 77 aerobatic aircraft, and 25 rotorcraft.

Camping: More than 12,000 sites in aircraft and drive-in camping accounted for an estimated 40,000 visitors.

Forums, Workshops, and Presentations: More than 1,400 sessions hosted throughout the week.

Social Media, Internet, and Mobile: More than 10.6 million people were reached by EAA's social media channels during AirVenture, with engagement of 1.1 million; More than 83,000 hours of viewing EAA video clips online also occurred during the event.

International guests: International visitors returned in a big way in 2022, with attendees from 92 countries outside the U.S., just one behind the record total from 2019.

The Gathering shines: The EAA Aviation Foundation's annual event to support its aviation education programs attracted more than 1,000 people and raised more than \$2 million dollars that will be focused on EAA's mission of growing participation in aviation.

Media: 797 media representatives on-site, from six continents.

Economic impact*: \$170 million for the five counties in the Oshkosh region (Winnebago, Outagamie, Fond du Lac, Calumet, and Brown). * - based on 2017 University of Wisconsin Oshkosh economic impact study.

Looking ahead to 2023, Jack pointed out that the early planning conversations have already begun.

"We're going to take a little time to give our staff and volunteers a well-deserved rest, but there were numerous discussions at AirVenture 2022 about possibilities for next year," he said.

"Certainly the 70th anniversary year of EAA will be among the big considerations as we look forward to next year's edition of The World's Greatest Aviation Celebration."

2022 One Week Wonder Makes First Flight

This year's completed One Week Wonder had a successful first flight at Wittman Regional Airport on Thursday morning, August 18. Joe Norris, EAA Lifetime 113615, was at the controls of the [Sonex Waix-B](#) on a beautiful sunny day.

The One Week Wonder project began as a kit on Monday morning of AirVenture Oshkosh 2022, July 25, and ended on Sunday, July 31, with the aircraft's first official taxi during the air show.

EAA Director, Chapters & Homebuilt Community Manager Charlie Becker reports that more than 2,200 people stopped by the booth to pull a rivet.

What makes this Waix-B unique is that it is the first to incorporate a factory-designed installation of a Rotax 912iS engine.

The aircraft will also feature a custom paint scheme courtesy of the “Pick The Paint” contest presented by The Sherwin-Williams Company and supported by Scheme Designers Inc. Voters had 10 options to pick from, created by Craig Barnett, CEO of Scheme Designers Inc. After more than 5,000 votes, an American flag-based design was the winner.

More test flights are on the horizon as the aircraft certification process continues. Once certified, the One Week Wonder will be flown by EAA to chapter events and other activities throughout the country.

The [2022 One Week Wonder](#) project was presented by Sonex Aircraft and Rotax Aircraft Engines, and supported by AeroLEDs, Aircraft Specialty Flightlines, Aircraft Spruce & Specialty, Crow Safety Gear, David Clark, earthX, Flightline Interiors, FlyONSPEED, MGL Avionics, Midwest Panel Builders, Sandia Aerospace, Scheme Designers, Sensenich, Sherwin-Williams, Toucan Exhaust, True Blue Power, uAvionix, and WB Parts Express.

Be sure to patronize these vendors that so graciously donated their products, time and expertise to this project.

Young Eagles Special Programs Announced

Believe it or not, the EAA Young Eagles program is now in its 30th year of providing free introductory flights to kids ages 8 to 17! This is all thanks to the efforts of 50,000 dedicated volunteers. The Young Eagles 30th Anniversary was officially launched at EAA AirVenture 2022, but the year-round participation by EAA members is what will make this celebration special!

To celebrate the Young Eagles 30th Anniversary and to launch the program into the next three decades, EAA is excited to announce a number of special Young Eagles programs.

Young Eagles 30 Flight for 30 Years - Any Young Eagles pilot that flies 30 Young Eagles from August 1, 2022 to July 31, 2023 will be awarded a commemorative Young Eagles 30th Anniversary polo shirt. EAA will track these flights, and contact the pilots as they reach their milestones.

you are celebrating this Young Eagles milestone, and doing your part to ensure a strong future for aviation.

Pilots can follow along with their progress and the progress of other pilots using the [World's Largest Logbook](#) and the [Young Eagles 30th Anniversary webpage](#).

Recognition for Ground Volunteers – Young Eagles ground volunteers are the unsung heroes of the chapter rallies hosted all over the county! To show appreciation for these volunteers' efforts, Young Eagles coordinators can order commemorative Young Eagles 30th pins as recognition items for chapter ground volunteers at [EAA.org/YE30](#).

New Young Eagles Pilot Drawings - EAA is actively recruiting new Young Eagles pilots. The fact of the matter is that there will always be aspiring aviators looking to take flight for the first time, but there will also be a need for more volunteer pilots. This is where EAA members can make a difference in the future of aviation.

All first time Young Eagles pilots, who fly their first Young Eagle between August 1, 2022 and July 31, 2023, will be entered in a monthly basis to win a Lightspeed Zulu 3 headset!

Double Young Eagles Credits for EAA Chapters – To encourage chapters to participate in the Young Eagles 30th Anniversary, and host additional rallies, EAA will be offering double Young Eagles credits (\$10 per flight) to chapters from January 1, 2023 to July 31, 2023.

Young Eagles credits are accrued on a calendar year basis, and can be redeemed the following calendar year for a wide variety of items that improve the Young Eagles program. This includes sponsoring Air Academy attendees, supplies/equipment to improve the chapter's Young Eagles program, Young Eagles Workshop kits, and Young Eagles Build and Fly kits. Jim Steward, President of EAA Bruce McCombs Chapter 72 in Falcon, Colorado. We were gifted a nearly complete and professionally built RANS S-19 with a factory new Rotax engine and propeller still in the box. Chapter 72 members completed the project, and it is scheduled to be painted in June. We have elected to raffle this incredible airplane off. The proceeds of the raffle will be used to offer scholarships to future pilots and mechanics. In addition, we hope to acquire a new simulator in which to help these future pilots with additional training and at the same time provide a resource for other local pilots. Our goal is to sell 2500 tickets at \$100.00 each by the drawing date of December 17th 2022.

Would you please consider forwarding the attached flyer to your chapter membership and inserting it in your newsletter? The website for the raffle is www.eaa72raffle.org where you can find more information, official rules, and purchase tickets. This would be a huge favor to me and the chapter. Hopefully, we may be able to repay this favor in the future.

Thanks so much for your consideration.

Dinner with a Slice of History

"Flying over the Himalayas in WWII"

Featuring: Deborah Chung

October 7, 2022

6:00-8:00 p.m.

Burke Lakefront Airport

The speaker's late mother, Rebecca Chan Chung (1920-2011), was a U.S. World War II Army veteran having worked as a nurse with the Flying Tigers during the Battle for Hong Kong. For her service, she was awarded the Congressional Gold Medal. As a nurse, Rebecca Chan Chung's work included flying over the Hump for about 50 times—considered the most dangerous in the history of aviation

Vinton County Air Show

Ohio's largest free air show, the Vinton County Air Show, is held annually at the Vinton County Airport (22I) on the

Third Sunday in September. That is September 18th this year. They are looking for volunteers to help with the Event. So if you can help be sure to call Nick Rupert at 740-357-0268

This is Ohio's largest free air show. In addition to the aerial acts, be sure to try the airport's famous Barbecued chicken dinners. Meals are ready to sell to hungry diners beginning about 11 AM. Air show begins at 1 PM. A parking donation is requested. A number of vendors sell various items and food. There is always a candy drop for the kids. Airplane rides are available at the end of the show. It is Recommended you bring your own chair since the seating will be limited.

This newsletter goes out to all EAA Chapters in Ohio, Indiana, West Virginia, Kentucky, Michigan, and Pennsylvania. It also goes to a lot of the FBO's in those states also.

So, if you are planning to host an event and would like to get it out there, this is a place to do so. There is NO cost to advertise your events here.

If you are a Chapter that would like an article published in the Ohio Region Chapter Newsletter, please feel free to submit an article to me. Also, if you are a manager of an airport / FBO we would like your articles also. Tell us about an event that is going to take place at your airport, an excellent restaurant that is on the airfield for those pilots that like those \$100 hamburgers.

If someone from your Chapter has a plane, parts, or tools for sale we can include it here. There is no cost to put something in the newsletter to sell.

If you do not want to draft an article and would like for me to visit your website / Facebook page and gather my own 'intel' for an article, let me know.

Be sure to let me know if you have a different person that will be sending articles or to receive the newsletter to distribute to your Chapter members.

Please share this with your aviator friends. If you are getting this from a friend and would like to receive your own copy of the Newsletter, please let me know.

I will be starting a comment section so please send your comments as to what you would like to see from Chapters and FBO's.

Also, if you would like to be added directly to the mailing list, please send me an email.

Thanks to all who sent me an article! Also, even if you do not have an event to talk about or an upcoming event to let us know about, a human-interest article with pics is also welcome. We love to hear about your members. Also please start thinking about the October newsletter. I would like the articles for it by September 24th. Send those articles or stories to me at Daford1957@gmail.com

Thanks again – Darlene Ford
