**As always, Some News from National.**

## **2022 AirVenture was a record-brEAAker**

*EAA says approximately 650,000 people attended AirVenture at some point, beating the previous record of 642,000 visitors in 2019. EAA attributes the high turnout to great weather and the U.S. Air Force's contributions to the aerial displays to mark the branch's 75th anniversary.*

*International visitors almost set a record, coming from 92 foreign countries. The record, set in 2019, is 93.*

*There were 18,684 aircraft operations at Wittman Regional Airport, or an average 121 takeoffs and landings every hour (2 per minute). More than 10,000 aircraft flew into Oshkosh, where there were 3,226 showplanes; 369 warbirds; 1,375 vintage aircraft registered; 1,156 homebuilt aircraft; 137 ultralights; 87 seaplanes; and 25 rotorcraft.*

*"We introduced a tagline of 'Unlike Anything Else' for this year's AirVenture event and 2022's fly-in proved to be truly unlike anything else," EAA CEO/chairman Jack Pelton wrote in a statement. "We had seven days of nearly perfect weather, along with this year's programs and activities, which brought out people and airplanes in numbers that we haven't seen before."*

*It was all possible thanks to the help of more than 5,000 volunteers who put in more than 250,000 manhours.*

*The event also has a significant economic impact, contributing \$170 million across five counties -- Fond du Lac, Winnebago, Outagamie, Calumet and Brown -- according to a 2017 economic survey.*

*Next year's EAA AirVenture is July 24 to July 30 and marks the organization's 70th anniversary.*

**Thanks to you Jack. As a volunteer, I have to say that this news makes you feel really good about volunteering. I recommend that if you are going to Airventure to next year, to try volunteering. There are many wonderful areas in which you could volunteer. Even if you try it for a few hours, I am sure you will want to do it more. We have the support of Jack and the staff of EAA. And this is s a good thing.**

**With sadness in my heart, it is hard to report the following.**

Tom Poberezny, the retired president and chairman of the Experimental Aircraft Association, is being mourned by EAA and aviation communities after his death early Monday, July 25, at age 75, following a brief illness. Tom was EAA president from 1989 until 2010, and also served as chairman of the board for two years until his retirement in 2011.

“It is not lost on us that Tom’s passing occurred on the opening day of EAA AirVenture Oshkosh, the event he led into world prominence as its chairman beginning in the 1970s,” said Jack J. Pelton, EAA CEO and chairman of the board. “Tom’s legacy is tremendous in the world of aviation with his personal achievements as well as the growth of EAA, especially the development of the current EAA Aviation Center in Oshkosh, the Young Eagles program, and the creation of sport pilot nearly 20 years ago. He will be greatly missed, but more importantly, he will be remembered for all that he did for EAA and aviation. Our deep condolences and prayers go to Tom’s wife, Sharon, and his daughter, Lesley, and the rest of the Poberezny family.”

An accomplished aviator in his own right, Tom was a member of the U.S. National Unlimited Aerobatic Team that captured the World Aerobatic Championships in 1972. The following year, he won the U.S. National Unlimited Aerobatic Championship. He subsequently flew for 25 years as one wing of the legendary Eagles Aerobatic Team (originally the Red Devils), the most successful civilian precision flying team in history.

During his career with EAA, Tom oversaw a number of the organization's milestone events. In the late 1970s he spearheaded EAA's first major capital campaign, which supported construction of the current EAA Aviation Center headquarters and museum complex at Wittman Regional Airport in Oshkosh, Wisconsin.

In 1992, he led the creation of EAA's Young Eagles, which has become the most successful aviation youth program in history. Realizing the importance of mentoring to the future of aviation, EAA aimed to give 1 million kids between the ages of 8 and 17 an airplane flight by the centennial of powered flight on December 17, 2003. The 1 millionth Young Eagle was flown in October 2003, celebrating the efforts of 85,000 EAA volunteers to reach the goal. The Young Eagles program has now flown nearly 2.3 million young people.

In 2002-2003, Tom led EAA's Countdown to Kitty Hawk program, which commissioned the construction of the first completely authentic reproduction of the 1903 Wright Flyer — the airplane that gave birth to powered flight. The airplane successfully flew at Kitty Hawk, North Carolina, in late 2003 and was present on those hallowed grounds on December 17, 2003 — 100 years to the minute from the Wrights' first flight.

Memorial services are still being determined at this time. EAA is also planning a memorial and tribute to Poberezny during AirVenture 2022. More information will be announced as it is finalized.

## **The Gathering Earns \$2 Million for EAA Education Programs**

The Gathering raised more than \$2 million for EAA's vital education outreach and advocacy programs such as Young Eagles Thursday night. The fundraiser was presented by Textron Aviation and raised about \$300,000 more than the 2021 event.

Two of the more expensive items sold included a customized Ford Bronco, which sold for \$160,000, according to EAA Director of Communications Dick Knapinski, and a Van's RV aircraft, which sold for \$170,000.

A change to The Gathering this year was that the reception was held in EAA's new Youth Education and Pilot Proficiency Centers, Knapinski said. The program again was held in the Eagle Hangar in the EAA AirVenture Museum.

# FAA Acting Administrator Billy Nolen Visits AirVenture

Sam Oleson

FAA Acting Administrator Billy Nolen discussed numerous topics, including the transition to unleaded avgas as well as MOSAIC, during the Meet the Administrator forum on Thursday morning at Theater in the Woods during EAA AirVenture Oshkosh 2022.

With a 2030 deadline to complete the transition to unleaded avgas, Nolen acknowledged that the issue is among the top priorities for the FAA, and he is confident in the progress that's been made so far.

"We believe we're on track," he said. "We've got a couple of STCs in the works around how we get there without lead and get to the point where we need to be. It is a collaborative effort, but there is still a lot of work to be done. ... It will take all of us working together, and we are never going to assume within the agency that we have all the answers."

As for MOSAIC, or the Modernization of Special Airworthiness Certificates, which has been in the works for years, Nolen was optimistic that the finish line was in sight.

"We're closing in on the finish line," Nolen said of MOSAIC. "When you think of rules and processes, [the difficulty is] pretty soon people throw everything including the kitchen sink into the mix. Our goal is to make sure it is doable, to never let good come at

the expense of great. We have to be safe. The public demands it, and they should demand it.” The FAA expects an NPRM available for comment in August 2023.

While Nolen has been a pilot for four decades, it was his first visit to AirVenture, and he couldn't have been more impressed with what he saw during his time in Oshkosh.

“This is a mecca. I know for many of you this is a pilgrimage to come here every year to see the best of the best of aviation — past, present, and future. I've been in aviation for more than four decades, and this is my first time at AirVenture. But it will not be my last time at AirVenture, I can promise you that. I've never seen anything like this. What a tribute to aviation.”

## **SAVE THE DATE!**

**Saturday, September 24<sup>th</sup>. Annual Fly In.**

**New this year – Helicopter Rides    Stay tuned for more details.**

We are a local chapter of Women in Aviation International, based in Dayton, Ohio – where it all began.

From the WAI website: “Women in Aviation International is a nonprofit organization dedicated to the encouragement and advancement of women in all aviation career fields and interests. Our diverse membership includes astronauts, corporate pilots, maintenance technicians, air traffic controllers, business owners, educators, journalists, flight attendants, high school and university students, air show performers, airport managers and many others. We provide year-round resources to assist women in aviation and to encourage young women to consider aviation as a career. WAI also offers educational outreach programs to educators, aviation industry members, and young people nationally and internationally.

We meet at Greene County Airport. You can check the Airports calendar to find out when we are meeting or contact us via email at [womeninaviationhuffmanprairie@gmail.com](mailto:womeninaviationhuffmanprairie@gmail.com)  
We would love to have you as part of our aviation family.

On August 13 we will be attending the Andy Barnhart Picnic. Bring a side dish, camp chairs, and enjoy the family show. Volunteers will be rotating to watch the coloring station.

**Aug 20<sup>th</sup> (Friday night).** Guest Flygirl Flowers bouquet making & pilot stories. We will hold a short quarterly chapter meeting during the event as well. If you are willing to bring a dessert let

us know. Reservations required for bouquet making due to needing to make sure enough supplies are available. Family & friends are welcome to attend (\$55/pp).

**GIAD:**

- **NEW DATE!! Sept 25th.** Museum had other activities on the 24th and was stretched thin. Decision was made to run Sunday instead to help get full access to the museum.
- National Aviation Hall of Fame and National Museum of the US Air Force is partnering with our program to potentially reach 2000 girls at the museum.
- GE Aviation has agreed to pay for any supplies for education material ~5K. Looking to send volunteers.
- Southwest Airlines sponsoring and sending representatives for an exhibitor table.

Areas that need help: Q&A cards for monopoly board. Reaching out to companies for sponsorship, volunteer at education table, & media announcements.

### Capri Drive-in Theater, Coldwater, MI

(KOEB) Capri Drive-In Theater is a cool old outdoor movie theater right next to the airport that you can taxi up to within a 5-minute walk. I flew in for the movie and camped overnight and had breakfast at the Prop Blast Cafe there on the grounds.

Messenger Lake is across the road part of the famous Chain of Lakes and offers dockside float plane fuel.

There is also a courtesy car at the FBO's hangar to get to nearby hotels and cabins.

Our gatherings are held on the last Wednesday of each month at **Doylestown Airport FBO (KDYL), 3879 Old Easton Rd. Doylestown, PA 18902**

## Traffic Pattern change at I68

I received an email from Alan Wolfson, Secretary/Treasurer, Airport Manager of Warren County Airport Authority that Warren County Airport/John Lane Field, I68, we will be changing the traffic pattern. This airport is in Lebanon, OH. If you want to contact the airport, call 513-932-7966.

The Lake County Executive Airport will be having a Wings & Wheels event on Saturday, August 6. We would like to invite you to bring out your aircraft and show it off. There is no registration fee and there will be trophies (bragging rights) for best in show, people's choice, and kid's choice. We have also secured gift cards from Aircraft Spruce & Specialty Co. for the winners.

Please pass this on to all aviation or car enthusiasts that you know!

If there are any builders or aircraft experts out there that are willing to judge aircraft, please let me know. Your expertise would be greatly appreciated!

Have a great weekend!

**September 14th - 17th 2023, we will be hosting the 100th Year Anniversary of WACO at Troy, OH.** As such, we have made a goal of attempting to get 100 WACO planes to the Museum those few days. To do this, we are reaching out to all WACO owners for some information. We will respect your privacy and this information is only used to send invitations and information for WACO Pilots for this event. We are looking for....

Owner Name, N-Number, Model and Year and a way you preferred to be contacted (email, phone etc.)

We are planning a big event and want to have you all visit and share in the celebration.

Thanks!

Eric

EAA's local Chapters 1095 is about people, bringing together individuals interested in learning more about aviation as well as sharing their own knowledge.

Chapter members are involved in a variety of social and educational activities, including Young Eagles rallies, fly-ins, building seminars, and more, to build awareness in the community.

**EAA Name Tags** if you would like to order name tags for your members or at least your officers please check out Chapter 1095's website. These name tags are very professional looking and hold up well. <https://chapters.eaa.org/eaa1095/eaa-name-tags>

**Jim Steward, President of EAA Bruce McCombs Chapter 72 in Falcon, Colorado.** We were gifted a nearly complete and professionally built RANS S-19 with a factory new Rotax engine and propeller still in the box. Chapter 72 members completed the project, and it is scheduled to be painted in June. We have elected to raffle this incredible airplane off. The proceeds of the raffle will be used to offer scholarships to future pilots and mechanics. In addition, we hope to acquire a new simulator in which to help these future pilots with additional training and at the same time provide a resource for other local pilots. Our goal is to sell 2500 tickets at \$100.00 each by the drawing date of December 17th 2022.

Would you please consider forwarding the attached flyer to your chapter membership and inserting it in your newsletter? The website for the raffle is [www.eaa72raffle.org](http://www.eaa72raffle.org) where you can find more information, official rules, and purchase tickets. This would be a huge favor to me and the chapter. Hopefully, we may be able to repay this favor in the future.

Thanks so much for your consideration.

**AIR FORCE MUSEUM FOUNDATION**

## **75th Anniversary of the Department of the Air Force - New Special Exhibit Now Open!**

Innovate, Accelerate, Thrive: Celebrating the US Department of the Air Force at 75 conveys how the US Department of the Air Force has impacted the world. Through the use of six videos and 30 photos, visitors will learn about the Air Force's involvement in developing technologies like the oxygen mask, LASERs, and the Global Positioning System (GPS). The exhibit will be open in the Museum's Cold War Art Gallery through September 2022.

**This newsletter goes out to all EAA Chapters in Ohio, Indiana, West Virginia, Kentucky, Michigan, and Pennsylvania. It also goes to a lot of the FBO's in those states also.**

**So, if you are planning to host an event and would like to get it out there, this is a place to do so. There is NO cost to advertise your events here.**

**If you are a Chapter that would like an article published in the Ohio Region Chapter Newsletter, please feel free to submit an article to me. Also, if you are a manager of an airport / FBO we would like your articles also. Tell us about an event that is going to take place at your airport, an excellent restaurant that is on the airfield for those pilots that like those \$100 hamburgers.**

**If someone from your Chapter has a plane, parts, or tools for sale we can include it here. There is no cost to put something in the newsletter to sell.**

**If you do not want to draft an article and would like for me to visit your website / Facebook page and gather my own 'intel' for an article, let me know.**

**Be sure to let me know if you have a different person that will be sending articles or to receive the newsletter to distribute to your Chapter members.**

**Please share this with your aviator friends. If you are getting this from a friend and would like to receive your own copy of the Newsletter, please let me know.**

**I will be starting a comment section so please send your comments as to what you would like to see from Chapters and FBO's.**

**Also, if you would like to be added directly to the mailing list, please send me an email.**

***Thanks to all who sent me an article! Also, even if you do not have an event to talk about or an upcoming event to let us know about, a human-interest article with pics is also welcome. We love to hear about your members. Also please start thinking about the September newsletter. I would like the articles for it by August 23<sup>rd</sup>.***

***Send those articles or stories to me at [Daford1957@gmail.com](mailto:Daford1957@gmail.com)***

***Thanks again –  
Darlene Ford***
