EAA Offers Young People Free AirVenture Admission With Boeing Support

Young people age 18 and under will be admitted free to EAA AirVenture Oshkosh 2020 as a way to introduce more youth to the possibilities in the world of flight. The Boeing Company is financially supporting this effort for the next two years to encourage more aviation-minded families and their children to attend the event that brings more than 10,000 aircraft from around the world to Oshkosh each year.

"EAA's mission is growing participation in aviation, and in 2019, after EAA reduced admission costs for students, we saw an increased number of families coming to AirVenture," said Jack J. Pelton, EAA's CEO and chairman of the board. "Inspiring young people and giving them a first look at what's possible in aviation is only achievable if they can get in the gate. This effort will build on the more than 60 years where AirVenture has earned a reputation as a wonderful family event. We're incredibly appreciative of Boeing's support and like EAA, Boeing is committed to inspiring the next generation of aeronautical innovators. Because of Boeing's belief in our mission, we can invite youth from around the world to experience AirVenture at no cost."

The free youth admission is available throughout AirVenture week. Along with Boeing's financial support, a small fee on AirVenture advanced-purchase adult admissions and value-added opportunities such as the Aviators Club will support this free admission opportunity for young people.

"At Boeing, we aim to inspire and prepare the next generation of innovators, and EAA AirVenture provides a unique opportunity to encourage the natural curiosity of young people," said William Ampofo, vice president of business aviation, general aviation, and OEM services, Boeing Global Services. "We are proud to provide an opportunity for thousands of youth to experience this world-class event, and be inspired to use their talents, creativity, and vision for the future of aviation."

Longstanding youth activities and programs at AirVenture include such popular offerings as the hands-on KidVenture display and program area; technology, innovation, and education options at Aviation Gateway Park; and extraordinary events such as daily air shows and more than 1,500 forums, workshops, and seminars.

EAA Encourages Caution Regarding Aircraft Registration Renewal

January 16, 2020 - EAA is warning its members to regard any solicitation they may receive regarding aircraft registration renewal, especially those that call for using a search engine to find the registration site, with a healthy dose of suspicion.

EAA is aware of several businesses — with names, web URLs, and logos that may appear reminiscent of a government agency — that notify aircraft owners of impending registration expiration (mined from publicly available registration information) and direct them to use search engines such as Google to find the proper renewal site. These businesses then buy ads from search engines to make their site appear first, before the FAA website, in search results.

Such operations add little or no actual value to the transaction, and charge a hefty fee for essentially duplicating the same process that the FAA directly administers for a mere \$5. EAA members should ensure they are on the [FAA's online registration portal](#) before filling out information and entering payment. Unless a business is known to be reputable and offers a tangible service above and beyond a simple registration renewal, such as expedited processing or automatic renewal, EAA members should deal directly with the FAA. If any members want EAA's help with registration renewal or any other issue, please contact us at 800-564-6322.

EAA Chapter 846 Newsletter - Wadsworth, Ohio

We have lots of members doing so much for the benefit of our chapter. With all the hard and dedicated work of you all, our chapter is recognized as a Gold Level status with the EAA. The current score for our EAA chapter is 10 out of 10, which places us in the 100 percentile. Here's our chapter's breakdown: Leadership training 1 Membership 1 IMC/VMC 1 Young Eagles 1 Flight Advisor/Tech Counselor 1 Annual survey 1 ChapterGram 1 Chapter promotions 1 Events 1 Facility 1 Doing much together.

We have some potential candidates for the Ray Scholarship and for the EAA Air Academy. Look for the latest on these programs in the Newsletter. Mike Guenther, Ray Scholarship coordinator and Art Hernandez, EAA Academy coordinator will be providing the details. Thanks to Mike and Art for their hard work!

Work on the Mustang is well on its way. A big thank you to all who have signed up. This is a great opportunity to invest in the future of our chapter. We have had two maintenance days on the Mustang. Most of the panels are off for inspection; the canopy is off and the frame is out for repair; changing oil and filters; found a small issue with the tailwheel that needs repaired; swung the gear and everything was good there and other miscellaneous items are in progress. It was great to see the folks there working with a common goal in mind. The goal is to have an airworthy aircraft. I'm sure most of you know that Jeff was the original builder of the T-51 Mustang. Since Jeff is the builder, he obtained the Repairmen Certificate which allows him to sign off the Condition Inspection. When that day comes, it will be a time of celebration.

The first two scheduled T-51 Mustang Maintenance and Repairs took place on January 29th and February 1st

CHAPTER MISSION STATEMENT: “EAA Chapter 113’s major focus is on the relationships with people who have diverse aviation interests, centered around their love of flight, fellowship, learning, and fun. Chapter members have a passion for flying and are willing to share it with others. Chapter 113 provides the opportunity for exchange of information, as well as the interaction that leads to friendships that last a lifetime.”

BOARD OF DIRECTORS: “The Board of Directors are to provide both advice and assistance to the chapter officers on an ongoing basis.”

PRESIDENT’S PODIUM Dave Steiner president@eaa113.org

February 2020 Well except for one weekend in January, we dodged the winter snow bullets pretty well, at least at 1D2. Now that February is here, we hope to start seeing that orange ball in the sky some more, at least towards the end of the month. And since this year there is an extra day to do so, maybe it will be CAVU. I knew a Delta pilot, Flip Colmer (tragically killed in a GA accident last year at Howell) who said he got to see the sun every day he went to work...not something a lot of people in Michigan can say. It is nice to be able to get above the cloud layer. As your new president, I’ve survived leading a board meeting and a general membership gathering. So far, so good. Thanks for all your help and enthusiasm that make this such a great EAA chapter to lead.

Eaa 113 Banquet March 31st Deadline for tickets (\$30 each) is March 19th. The program this year will be entertainment with the singing pilot, Ken Dravis. Don’t miss it. Fully catered event. BYOB. Tickets online at: <https://www.113.eaachapter.org/apps/webstore/>

CHaPTER 113 EaRNs GOLD CHaPTER RECOGNITION Congratulations on reaching the Gold Chapter Recognition level! EAA is thrilled to help EAA Chapter 113 celebrate this achievement. Your chapter will be mailed a banner to proudly display where your chapter meets. Your level also will be displayed online at EAA.org/FindAChapter

with a specially designed emblem. You're encouraged to use it on your website, newsletter, and other promotional materials. EAA Chapter 113's custom emblem will be attached to a follow up to this email. This program was created to recognize chapters that have demonstrated outstanding commitment to general aviation. Developed in partnership with EAA's Chapter Advisory Council, it's based on 10 criteria that are consistently found in active and engaged chapters. Each is worth a point, and there are three levels of recognition: bronze (7 out of 10), silver (8 out of 10), and gold (at least 9 out of 10).

- 1) Attended a chapter leadership training session
- 2) Growing or steady membership
- 3) Offers IMC or VMC club programs
- 4) Participates in Young Eagles or Flying Start programs
- 5) Has an EAA-approved flight advisor or technical counselor
- 6) Participates in EAA's annual chapter member survey
- 7) Reads EAA ChapterGram regularly
- 8) Requested EAA promotional materials or ChapterBlast email
- 9) Hosts at least two public events each year
- 10) Owns/leases a facility

Below is an old picture of the Compass Rose on the intersection of the ramp and taxiways at the Niles airport. A few years ago, my son Jeff made a proposal to us at our meeting to paint one on the same location. Of course, it never happened, but I think that it should. Let's give it another shot. It could be laid out and painted in a few hours with a crew of 5 or 6 members. It would be a great addition and even better if we could have it done before our June 28 Fly-In.

A boy's dream, an aeronautical chart and a bit of creative magic united in 2015 to create Chart it All.

Trevor Simoneau, 15, is a student pilot. In 2015, Trevor crafted a plan to finance his future education at Embry-Riddle Aeronautical University and the cost of AvGas with custom, one-of-a-kind shirts printed with aeronautical charts. Trevor is an IB Sophomore at DeLand High School and president of Aviation Explorers 747, a club dedicated to inspiring kids of all ages interested in all aspects of aviation. He also works as an aviation news reporter for Sun 'n Fun Radio.

Today, his small family business offers distinctive clothing and gifts with your choice of aeronautical sectional charts.

Your purchase goes a long way to fuel his dream.

Check out the website for all kinds of aviation items that would make fantastic gifts for Christmas or a birthday.

Now is a good time to get your nametags!

This way you will have them before Airventure and people will know who you are.

EAA Chapter 1095 out of Gaylord MI does a great job on them.

LaPorte Airport (KPPO) – LaPorte, Indiana

New Professional Flight Simulator at LaPorte Municipal Airport Teaches Students About Aviation

The LaPorte Municipal Airport recently took possession of a \$33,000 FAA certified Fly Elite PI-1000 Professional flight simulator, which was purchased by Arconic Foundation in order to promote aviation STEM (Science, Technology, Engineering, Math) education to area students. Students can now experience flying an airplane without ever leaving the ground.

Area schools, scouting groups, and other youth organizations are encouraged to participate in lessons about aviation and using the simulator. The simulator lessons will also be part of the airport's summer Aviation Camp, which is open to students in 6th – 12th grades. This year, camp will be held June 15 – 19, and includes classes, speakers, a flight, field trip, and a Career Fair.

Tera Grinnell, HR Director, Arconic Engines, and Andy Sickinger, Plant Manager, Arconic LaPorte Operations, facilitated the purchase of the simulator for the airport. Their commitment to empowering area youth with STEM skills prompted the purchase of this high-tech simulator, which can be programmed for both single and twin-engine aircraft.

Sitting in the captain's chair provides an accurate depiction of an aircraft, with glass cockpit, rudder pedals, and all flight controls. Students can choose to fly from nearly any airport in the world. An instructor's screen allows the simulator to be used for actual, loggable flight training. While most students will fly VFR (visual), the simulator can also be used for IFR (instrument) training.

Learning to fly requires mastering many STEM skills. Using the simulator makes using those skills a hands-on experience.

If your group is interested in more information, contact Diane Schwarz at diane@laportearport.com.

If you are a Chapter that would like an article published in the Ohio Region Chapter Newsletter please feel free to submit an article to me.

Also if you are a manager of an airport / FBO we would like your articles also.

Tell us about an event that is going to take place at your airport, a great restaurant that is on the airfield for those pilots that like those \$100 hamburgers.

A great place to visit that is close to the airport where you have a courtesy car or that they are willing to pick up visitors and take them to the location.

If you are a local chapter and are willing to transport visitors of your airport to a local event that is great. Let us know and we can post it here.

Afterall, EAA is known for its hospitality.

If someone from your Chapter has a plane, parts or tools for sale we can include it here.

If you don't want to write an article and would like for me to visit your website / Facebook page and gather my own 'intel' for an article, let me know.

Be sure to let me know if you have a different person that will be sending articles or to receive the newsletter to distribute to your Chapter members.

Please share this with your aviator friends.

I will be starting a comment section so please send your comments as to what you would like to see from Chapters and FBO's.

Thanks to all who sent me an article!

Also even if you don't have an event to talk about or an upcoming event to let us know about, a human interest article with pics is also welcome. We love to hear about your members in. Also please start thinking about the April newsletter. I would like the articles for it by March 21st please.

Thanks again - Darlene Ford
