FAA Reauthorization

The U.S. Congress has passed the 2024 FAA Reauthorization Act (H.R. 3935), providing a 5-year authorization for the agency's programs, revenue collection, and setting many new mandates for national aviation policy. The passage of this long-term reauthorization ensures the FAA has the proper staffing and infrastructure it needs to safeguard operations in the National Airspace System. EAA recognizes and thanks the leadership and staffs of the Senate Committee on Commerce, Science, and Transportation, and the House Committee on Transportation and Infrastructure, as well as the Aviation Subcommittees in both chambers, for their continuing efforts in creating and championing this important piece of legislation.

"A long-term FAA reauthorization is essential for the stable operations of the National Airspace System," said Jack Pelton, EAA CEO and chairman of the board. "This bill, in addition to funding key infrastructure for general aviation, advances many policy priorities of our community for innovation and modernization."

The FAA Reauthorization Act includes the first-ever general aviation title, a specific section that encompasses numerous provisions supported by EAA that benefit general aviation growth. Of note, the bill mandates the expansion of BasicMed, increasing the size of covered aircraft to 12,500 pounds, the number of allowable passengers to six, and the number of seats to seven. Another provision provides a 24-month maximum deadline for the FAA's completion of the MOSAIC final rule. While the rule is expected significantly sooner – likely in 2025 – Congress providing a deadline highlights the importance of the rulemaking.

Also included are sections that provide for the continued availability of avgas, direct a review of the process for reserving aircraft registration numbers to reduce unfair profiteering, and spur development of a suitable position reporting system for voluntary use in non-rule airspace.

In further efforts to protect pilots from unfair enforcement, language is included that prohibits the use of ADS-B Out data by the FAA to initiate an investigation, and additional sections amend the Pilot's Bill of Rights to ensure pilots have adequate time to respond to a letter of investigation.

"The first-time inclusion of a general aviation title recognizes the value and significance of our industry to the nation," Pelton said. "We appreciate the leadership of lawmakers who see the importance of this section and worked in a bipartisan manner to include provisions that enhance safety and support general aviation."

Hanging at the Hangar Party 5-22-24

This was the last Hangar Party. However, a few of us have tossed around the idea of continuing this event. Instead of having it in someone's hangar however, we were thinking about just holding it at JP's. In talking to Carole about it, we were thinking about everyone being on their own and purchasing their meal from JP's and sitting under the big tent. This way aviation camaraderie could still be found. We would be changing it to Thursday evening or even a Sunday afternoon. If you have thoughts on this, please feel free to email me at DAFord1957@gmail.com

We would then discuss it further with Carole and a few others and decide. So please let us know.

Here are a few pictures from the 5/22 event.

Canada's SkyHawks, USAF A-10 Demo Team Confirmed for Oshkosh

Two big additions to the EAA AirVenture Oshkosh 2024 lineup were confirmed in the past week, as the Canadian Armed Forces SkyHawks skydiving team and the U.S. Air Force A-10 Demo Team committed to performances during The World's Greatest Aviation Celebration.

The SkyHawks will attend as part of the 100th anniversary commemoration for the Royal Canadian Air Force. The SkyHawks are Canada's only military parachute demonstration team, comprised of 13 jumpers from the Canadian Army, the Royal Canadian Navy, and the Royal

Canadian Air Force. This includes both Regular Force and Reserve members with diverse professional backgrounds. They will perform during the afternoon air shows at Oshkosh.

Meanwhile, the [U.S. Air Force's A-10 Demo Team](#) — marking its final season of air show performances — will be at Oshkosh on July 22-25. The Republic A-10 Thunderbolt II, affectionately known as the Warthog, has long been a favorite on the air show circuit. The demo team is based at Davis-Monthan AFB and commanded by Maj. Lindsay “MAD” Johnson, who flies the aircraft at air shows throughout the country.

EAA Chapter 55 Mason, MI (KTEW)

Celebrate Veterans at AirVenture 2024

To express our gratitude, EAA has designated Friday, July 26, as Salute to Veterans Day during AirVenture. We would also like to extend a Veterans and Active Military discount as a token of our appreciation. This special celebration is our way of recognizing and celebrating the contributions of all veterans. Whether you served on the ground, in the air, or at sea, your sacrifice has paved the way for us to enjoy the freedoms we cherish today. We look forward to celebrating your service and the rich history of aviation with you at AirVenture.

Meet Our 2024 Beneficiary VetPets of Southwestern PA

Each year, FlightFest donates all proceeds to a local charity. Last year, the event donated over \$20,000! VetPets of Southwestern Pennsylvania is a family-owned, veteran-operated nonprofit organization dedicated to helping returning heroes find emotional support, hands-on therapy dog programs, and hands-on service dog programs.

This newsletter goes out to the EAA Chapters in Ohio, Indiana, West Virginia, Kentucky, Michigan, and Pennsylvania. It also goes out to the FBO's in those states. So, if you are planning to host an event and would like to get the information out there, this is one of the places to do so. There is NO cost to advertise your events or your Airport Restaurant.

We would like to put your events or happenings in the Ohio Region Chapter Newsletter. So please feel free to get the article to me about a week before the end of the month. This way it can be included in the following month's newsletter. If you have an interesting story you want to share, send it.

If someone from your Chapter, or on the airfield has a plane, parts, or tools they want to sell or give away let us know. It can be included in the newsletter. There is NO cost for this.

Please share this with your fellow Chapter members, aviator friends and your local FBO's. You never know who would be interested in one of the articles/events in the newsletter. Or if you received this from a friend and would like to receive it directly, please let me know.

Send in your comments as to what you would like to see in the newsletter. We like those human-interest stories, especially those with pictures.

Send articles for the July newsletter to me by June 20th if possible. Email them to Daford1957@gmail.com

Thanks again and enjoy the newsletter.
