Young Eagles Updates From HQ

David Leiting, EAA Eagle Programs Manager, EAA Lifetime

The month of May always signals the true kickoff to peak Young Eagles flying season. Our friends from the southern latitudes really spool up in March, and by the time we get to May, the northern latitudes are beginning to take part in the Young Eagles fun.

With the increased flight activity, as well as the continued transition to the new Young Eagles Online Registration Tool, the Young Eagles office is busier than ever. We strive to get back to all our phone calls and emails within 48 hours, but during this peak season it may take just a tad longer.

As we creep toward summer, that also means that EAA AirVenture Oshkosh is right around the corner! This year, we are upping the ante and looking to bring even more Young Eagles activity to the convention. This year, Tuesday, July 22 will be Young Eagles Day at AirVenture. The goal is to grow this day and what it offers to volunteers in future years.

- The Young Eagles Volunteer Banquet is scheduled for Tuesday, July 22, and new for 2025, EAA is introducing a Young Eagles Volunteer Breakfast on Tuesday, July 22. Full details on those events can be [found here](#).
- There will be a forum on the new Young Eagles Online Registration tool on Tuesday, July 22 at 11:30 a.m. in the EAA Blue Barn.
- EAA Young Eagles volunteer pilots can enter daily to win a Lightspeed headset. Simply stop by the EAA Blue Barn to enter for your chance to win.
- The Young Eagles display at the EAA Blue Barn will be expanded in 2025, and your chapter is invited to stop by and pledge its participation in the program throughout the remainder of 2025.
- The EAA Blue Barn is still looking for dedicated chapter and Young Eagles volunteers. You can see openings and select your slots [here](#).

As always — THANK YOU for your continued support of the Young Eagles program. I continue to be amazed by the volunteer support and passion, and it is what fuels us at EAA HQ. I hope to see you in Oshkosh this July!

Tailwinds, David Leiting, EAA Lifetime Eagles Program Manager

EAA's One Week Wonder Sonex Waix-B Arrives at National Air and Space Museum

EAA has delivered a Sonex Waix-B aircraft, built in one week at EAA AirVenture Oshkosh 2022, to the Smithsonian's National Air and Space Museum for display at its Udvar-Hazy Center at Dulles International Airport near Washington, D.C. The airplane will go on display there as an example of amateur-built and recreational aircraft.

EAA has delivered a Sonex Waix-B aircraft, built in one week at EAA AirVenture Oshkosh 2022, to the Smithsonian's National Air and Space Museum for display at its Udvar-Hazy Center at Dulles International Airport near Washington, D.C. The airplane will go on display there as an example of amateur-built and recreational aircraft.

"Thousands of people participated in the building of this 'One Week Wonder' at Oshkosh just a few years ago to show that building your own airplane is attainable," said Charlie Becker, EAA's director of chapters, communities, and homebuilt community manager, who accompanied the aircraft on the journey to its new home. "Now as many as a million people every year will see this aircraft as an example of a modern kit aircraft that can be built with simple hand tools by just about anyone."

More than 2,200 people were part of the aircraft build over the seven-day period, as they could place a rivet and have their names recorded as a builder. The airplane received its airworthiness

certificate and taxied on the final day of EAA AirVenture 2022 and made its first flight a few weeks later. It has since been part of EAA's aircraft collection until an agreement was reached this year with the National Air and Space Museum for it to be a permanent part of its displays at the Steven F. Udvar-Hazy Center, which range from historic personal aircraft to the legendary Concorde and the Space Shuttle Discovery.

"This airplane will impress visitors with the innovation and technology that is everywhere in the homebuilding movement and recreational aviation," said Russell Lee, curator of homebuilt aircraft at the National Air and Space Museum. "Although one of the smallest airplanes displayed at the Udvar-Hazy Center, its power to excite visitors about the freedom of flight equals the largest aircraft displayed here."

The Waix-B is a two-place, Y-tail aircraft designed by Sonex Aircraft of Oshkosh and powered by a Rotax 912iS engine. It is available as a kit and can be built for just over \$50,000. The aircraft can reach speeds of up to 170 mph, depending on its engine, and can fly more than 500 miles on a tank of fuel.

[AirVenture Oshkosh 2025 Notice Includes Important Procedure Updates](#)

There are several important FAA-approved updates in the EAA AirVenture Oshkosh 2025 Notice (commonly referred to as the Oshkosh NOTAM), featuring arrival and departure procedures for EAA's 72nd fly-in convention on July 21-27 at Wittman Regional Airport in Oshkosh. These changes are based on pilot feedback and FAA review of arrival procedure recommendations.

You can either download the notam or request a copy be sent to you. Be sure to read it if you are flying to Oshkosh. Encourage your friends to do the same. This way everyone can fly in safely.

Kenneth (Doc) Greer held his 4th annual Cessnas to Oshkosh Flying clinic. This event is held at Zanesville Municipal Airport (ZZV). The group goes through formation flying training to fly the Cessna Mass Arrival at EAA AirVenture. Pilots came from as far as St. Louis and South Carolina this year to attend the clinic. The clinics are held throughout the country each spring in preparation for the mass arrival. This year is the group's 20th anniversary.

On Saturday May 17, 2025 the Marysville EAA Chapter 1629 held its first Young Eagles Rally for the 2025 season. During this rally wind was the major issue and eventually caused us to end early. We had 3 pilots and 6 ground crew. The Triple P BBQ was at the event offering good food for lunch. A total of 21 young eagles were flown.

I'd like to personally thank the three Pilots that flew the kids:

Steve Koenig, one of our board members, and his Scottish Aviation Bulldog

Dr. Mike Stretanski, our chapter president, and his Mooney M20R

Michael Tobin and his Piper Arrow PA28-R200

I'd also like to thank the following Ground Volunteers who helped with the event:

Darlene Ford

Andrew Hale

Chuck Mosier

Joe Trepicone

Pam Ward

Excite Your Chapter Youths with STEM Challenges

Get ready to take flight with fun and learning! November 8 is National STEM Day, and we've got something special just for you! To celebrate, we've put together an exciting collection of STEM challenges that are perfect for a Young Eagles rally or any chapter youth event.

What is a STEM challenge? We're glad you asked! A STEM challenge is an activity designed to encourage creative thinking, collaboration, experimentation, and hands-on learning while discovering concepts in science, technology, engineering, and math. Participants are encouraged to follow the engineering design process, which involves brainstorming, planning, building, testing, and refining solutions to a given problem.

Check out these fun and engaging STEM challenges that are sure to spark curiosity and inspire the next generation of aviation enthusiasts!

AeroEducate is a way for students, teachers, parents, and EAA chapters to interact with aviation in a whole new way. By signing up for a FREE AeroEducate account, you can find awesome web-based projects, experiments, and experiences that can earn points toward progressive AeroEducate Badges. <https://www.aeroeducate.org/>

Weekend Work Parties

Get an insider's perspective of the World's Greatest Aviation Celebration® while helping it come to life by volunteering at an upcoming Weekend Work Party!

What's a Weekend Work Party?

Good question. It's a two-day volunteer event, where people from all across the country come to Oshkosh, Wisconsin, to help us prepare for EAA AirVenture Oshkosh.

Volunteering at a Weekend Work Party is a simple, fun, and easy way to get involved in the aviation community. You'll spend a weekend day (or two) connecting with people behind the scenes, learning how your skills relate to aviation, and helping the biggest fly-in in the world come to life.

We're looking for volunteers to help with a variety of tasks and projects as we prepare the grounds for EAA AirVenture Oshkosh. Projects can vary but can include grass cutting, tree planting, gardening, building construction/remodeling, fence removal, painting, material staging and more. The work varies in physical demand, but there are tasks suitable for all abilities.

Volunteer Benefits

- Daily admission exchange ticket for EAA AirVenture Oshkosh (good for any day)
 - A meal and beverages during volunteer shifts
- Water, gloves, tools, and training needed for the assigned duties.

- ### Weekend Work Party Dates:

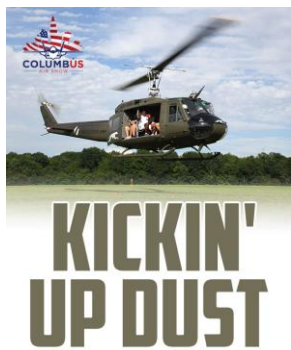

June 28-29

The WACO Aircraft Company was the largest manufacturer of civil aircraft in the country in the late 1920's and early 30's and this museum is dedicated to the plant and the employees that made it great.

With the help of the WACO Historical Society (founded in 1978) members and many generous donors and supporters, Historic WACO Field opened in 1997. The field consists of a 77-acre site and features a 2200-foot runway (2000 feet usable) south of Troy, Ohio. Historic WACO Field is maintained by WACO volunteers and is constantly receiving upgrades and improvements, but we are always in need of additional volunteers to assist in the upkeep of the site.

About The Ohio Air & Space Hall of Fame and Learning Center:

The Ohio Air & Space Hall of Fame and Learning Center (OAS) is a 501(c)(3) non-profit organization dedicated to permanently preserving the inspiring legacies of this state's outstanding pioneers of flight, prominently heralding their achievements as a point of pride and to foster continued innovation and a skilled aerospace and technology workforce. OAS will additionally educate the public about the rich history of Ohio's aviation and aerospace industries, and its airports, including that of OAS's future home in the soon-to-be-renovated original Port Columbus Air Terminal, located at John Glenn International Airport (CMH) in Columbus, Ohio.

Event Planning

If you are not sure you will have enough members in your Chapter to do an event, think about inviting a nearby Chapter to join in the event. A pancake breakfast, barbecue, field trip, Fly out. Remember, you can do these joint ventures with fellow EAA Chapters. They are a fantastic way to get to know your fellow members in EAA. A fantastic way to make new friends! This is a fantastic way to make an adventure more worthwhile. Just reach out to a nearby Chapter.

Also, consider helping out a neighboring Chapter with their events. If you are unsure if they need help, call or email to find out. You ARE allowed to help with their Young Eagle Rally's as long as you have the necessary training. Who knows, then if you need help, they may come to your rescue. Whether you are a pilot or just want to be a part of the ground crew, check with them.

Support their pancake breakfast or cook out.

EAA Chapter 1625 (SE Ohio) will be hosting a pancake breakfast on Saturday, June 28 at the Pike County Airport (KEOP), located at 2577 Alma Omega Airport. Stop out and say hi. Enjoy some pancakes with us.
