Can You Identify This Aircraft?

By FlugKerl2 - Own work, CC BY-SA 3.0

Send your Answer to sdthatcher@bellsouth.net
The answer will be in Next Months Hangar Talk

Find the Air Speed Indicator

Hidden somewhere within the pages of this newsletter is an ASI similar to the one shown here (will be smaller). All you need to do is find the page on which it appears, specify article or photo and send to sdthatcher@bellsouth.net to win. **If Multiple entries, only one winner will be selected from those submitted.**

Winning Entries will be published in the newsletter. **One Prize Only** awarded for correct ASI location.

Last Month's ASI (Dec)

Location: Page 1, Breakfast Photo, Top of Salt Shaker. Rick Golightly, winner.

Calendar of Events

Feb 12
EAA Meeting
Chapter Hangar
9 am

Breakfast includes sausage, eggs, pancakes, fruit and coffee!

VMC Club Following Meeting

The VMC club is an opportunity to share knowledge and experience while discussing real-world scenarios. The next meeting is this Saturday after the General Meeting. Be sure to attend this Saturday!

Eric Flaig

New Website. Go to <https://chapters.eaa.org/ea203> to see the new look! New Category called Membership Forms allows you to print out necessary documents.

Aircraft Identification starts again this month with an aircraft owned by a past Officer of EAA203.

Young Eagles Taking Flight

Young Eagles

Ever wondered what your neighborhood looks like from the sky? Or maybe you're

curious how airplanes even work. You might even dream about being a pilot.

If you're nodding your head "Yes" and are between the ages of 8 and 17, you're ready to take a free Young Eagles flight and see what real pilots do on the ground and in the air.

Since 1992, more than 2 million Young Eagles have enjoyed a flight from EAA's network of volunteer pilots.

For more information contact Rick Golightly, metro9100@aol.com.

Directions

The next EAA Chapter 203 meeting will be held at the hangar located at North County Airport (F45). The EAA Hangar is found by going to the junction of the Beeline Highway (SR710) and PGA Blvd (SR786). Then go 2.6 miles NW; turn left at the airport sign, and cross the train tracks. Follow the road to the hangar, which is on the left-hand side before you get to the FBO terminal, hangar 11250-5.

Craig Buttery Progress on his Bearhawk & RV10

CRAIG BUTTERY BEARHAWK

Disassembled the spar [of the Bearhawk] and de-burred about 1750 holes. I don't remember so many holes on the rear spars. Next is to strip, alodine and prime these parts .

On the RV10, I worked on de burring and dimpling parts as called out in the plan sheets. The trailing edge of the skins called for a seam seal edge.

Russ Karnap Progress on his RV7

Continued researching the cabin frame assembly.

Clecoed the upper fwd fuselage together and clecoed it to the fuselage. Roughed in the tip up frame and both forward top skins.

Finished riveting aft row of firewall bottom with Dad's help (was done on Saturday).

Cut and smoothed both vent fittings. Haven't installed screens.

Finished drilling and riveting the forward elevator pushrod.

Cleaned, lubed and installed several fuel selector and aux pump fittings. Added torque stripe to differentiate the ones that haven't been torqued.

Finished drilling both crotch strap brackets. Won't rivet them. Ground down the second

“FINISHED DRILLING AND RIVETING THE FORWARD ELEVATOR PUSHROD.”

strap bushing so it will fit in the .125” gap between bracket halves.

Continued working on cabin frame.
