Join Us for a Holiday Breakfast This Saturday, Dec 11

**New Website.** Go to <https://chapters.eaa.org/ea203> to see the new look! New Category called Membership Forms allows you to print out necessary documents.

No Aircraft Identification this month. All links should be copied to your browser to access content.

## Find the Air Speed Indicator

Hidden somewhere within the pages of this newsletter is an ASI similar to the one shown here (may be smaller). All you need to do is find the page on which it appears, specify the article or photo and send to [scott@placestofly.com](mailto:scott@placestofly.com) to win. **If Multiple entries, only one winner will be selected from those submitted.**

Winning Entries will be published in the newsletter. **One Prize Only** awarded for correct ASI location.

## Last Month's ASI

**Location:** Page 2, Barntoons...  
On Firewall.

## Calendar of Events

**Dec 11  
EAA Meeting  
Chapter Hangar  
9 am  
Holiday Breakfast!**

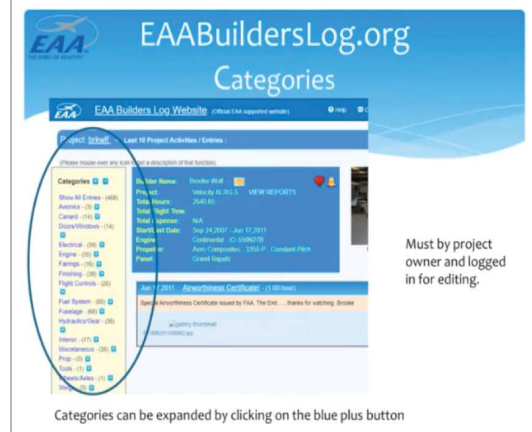

## VMC Club Starting

We are starting a VMC (Visual Meteorological Conditions) Club at EAA 203. The VMC club is an opportunity to share knowledge and experience while discussing real-world scenarios. The next meeting is this Saturday after the General Meeting. Future meetings are likely to be monthly on Thursday Evenings. Be sure to attend this Saturday! —Eric Flaig

As an aircraft builder, you know that you must document work on your project in order to demonstrate compliance with the FAA's 51% rule. Did you know EAA offers a free online builder's log for all EAA members? If you have not yet had an opportunity to check it out, I would highly recommend doing so.

The EAA Builder's Log allows members to post an unlimited number of entries, which can consist of photos, text, PDF documents, Excel files, and more, to create a detailed record of the work done on build and restoration projects alike. It is a great way to show your work to a designated airworthiness representative as well as sharing your progress with other members.

Beside unlimited entries and photos, perhaps its greatest feature is that it is keyword-searchable, making it a particularly useful tool when it comes to troubleshooting issues. Users can follow along other builds, although there is also a private entry feature that allows some entries to be visible to only the creator of the build log. It's also possible to document multiple builds at once, and multiple builders can contribute to the log in the case of group build projects.

## Young Eagles

Ever wondered what your neighborhood looks like from the sky? Or maybe you're

**curious how airplanes even work. You might even dream about being a pilot.**

If you're nodding your head "Yes" and are between the ages of 8 and 17, you're ready to take a free Young Eagles flight and see what real pilots do on the ground and in the air.

Since 1992, more than 2 million Young Eagles have enjoyed a flight from EAA's network of volunteer pilots.

**For more information contact Rick Golightly, metro9100@aol.com.**

## Directions

The next EAA Chapter 203 meeting will be held at the hangar located at North County Airport (F45). The EAA Hangar is found by going to the junction of the Beeline Highway (SR710) and PGA Blvd (SR786). Then go 2.6 miles NW; turn left at the airport sign, and cross the train tracks. Follow the road to the hangar, which is on the left-hand side before you get to the FBO terminal, hangar 11250-5.
