Fly Out to AirVenture '23

Club is planning to fly to Oshkosh this year for AirVenture. Currently we have two planes planning to go and 6 people. We are looking for a head count So we can reserve Enough campsites for the club. If your wanting to go get with Dave Miller to get your name on the list so we can get enough campsites reserved. AirVenture is July 24th-30th more info can be found by clicking the link in picture above.

History of EAA AirVenture

The first gathering was in September 1953 as a small part of the Milwaukee (Wis.) Air Pageant. That original EAA fly-in at Wright-Curtiss (now Timmerman) Field was attended by a handful of airplanes, mostly homebuilt and modified aircraft. Fewer than 150 people registered as visitors.

EXTRA EXTRA READ ALL ABOUT IT

EAA 219 Official Officers Elections

It has come to the board's attention that we never had an official vote for officers. During the November meeting it was discussed and no one present nominated anyone or had objections to keeping existing officers. However no vote was ever called. It is necessary to have an official vote for officers. Currently the officers positions that are up for election are as follows

President, Held by David Miller

Secretary, Held interm by Jordan Beehner

Newsletter Editor, At Large

Currently David Miller and Jordan Beehner are running unopposed for the same positions currently held. If anyone would like to be nominated for any of these positions put your name forth at our next regular meeting or you can put someone else's name forth if they aren't there (Thats how I got nominated lol)

We will be doing a vote for these positions at our January meeting 1/17/23 at 7pm

Local membership dues

Club dues are due January 1st. Dues this year are same as last year (\$40) please make checks out to EAA 219 and get check or cash to Tom Currin. Checks can be mailed directly to Tom at

meeting January
17th
at 7pm**

VMC Question January

This Month's Question:

You are contemplating a short, daytime over water VFR flight (sea level) in Class G airspace with overlying Class E airspace having a floor of 700 feet. The current conditions include a ceiling of 1,100 feet and 10 miles visibility. What is the highest altitude at which you can legally fly?

Upcoming Dates

EAA 604

Young Eagles workshop
1/28/23
9am-3pm at Martin Field
Contact David Miller

Pancake feed

Pendleton clubhouse
1/21/23
Grill on 8am-10am
