A new year is almost upon us once again

I wanted to thank everyone who came to the holiday party. It was totally worth the cheat day. And a big thanks to everyone who jumped in for clean up at the end the wife and I have never left a holiday party so early before.

While it was a great time getting to see everyone and experience what makes our club special this is also a good time to reflect on our past experience and events and look forward to ways to improve and make next year even better. Thank you to all our members and family that put up with us! EAA 219 is great because our members make it so. Let's make 2025 the next best year!

ANNOUNCEMENTS

Club meeting night agenda.

Meeting starting at 7pm doors open by 630 coffee and cookies available.

VMC Meeting topic, Discussion of Young Eagles Credits with Dave's findings from looking into Simulator. Tim A. Will be sharing his experience from his recent IMC checkride, Followed by social time

It's that time again. Local membership dues are coming up

Club dues are due January 1st. Dues this year are same as last year (\$40) please make checks out to EAA 219 and get check or cash to [Mark Dicky](#) . Checks can also be Dropped off in lock box at clubhouse (Blue Box)

Officer Elections

With the new year comes your chance to help improve the club through leadership. This year the positions that are up for election are President, Secretary, and News letter editor. Voting will be held in person during the January meeting. Make sure to nominate next meetings anyone you think would be a good fit for these rolls. Or if you just want to punish someone Im not picky :)

"I'd love to add something to this discussion but I have no idea what we're talking about."

Riley Byrd

VMC Question December

Question: You are flying a single engine aircraft, the POH for which identifies a Demonstrated Crosswind Capability (DCC) of 17 knots. Approaching an airport for landing on runway 24, you check the ASOS to learn that the winds are 300 at 15 gusting to 25 knots. Is it a violation of the FARs to land this aircraft under these crosswind conditions?

EAA IMC Club
Question of the Month

Question: You've taken an over the counter cold medication containing diphenhydramine, which may cause various symptoms including drowsiness. The dosage is 50 mg every 6 hours as needed. If you plan to fly, what is the minimum time you should wait after taking a dose for the medication to be out of your system?

Upcoming Dates

AOPA Rusty Pilot Seminar

Bergstrom Aircraft Inc.
Saturday, February 15
9:00 AM - 12:30 PM

Next General meeting
December 17th
