

The CHAPTER 221 FLYER

Proudly Serving the Experimental Aircraft Association Chapter 221 in Kalamazoo, Michigan
www.EAA221.org

June 2019

President's Message

Hello Everyone.

April showers bring May flowers but what do May showers bring besides higher water levels and runway grass mowing every five days?

Our meeting last month was very special and I want to thank local pilot Frank Woodhams for being present to receive his Wright Brothers Master Award, Tony Lorentz another local pilot for making it happen at our chapter meeting and Sam Heiter and Tim Sokol of the FAA Safety Team who presented the award. For more information about the award see:
www.faasafety.gov/content/MasterPilot/

Our regular monthly meeting next Wednesday on June 5 will take place at the home of Mike Courter, one of our chapter members to see the progress he has made on his Vans RV-14 after working on it for the last five years. Note the location because it **is not** at Newman's Field. I emphasize the location because at our last meeting I said it would be at Newman's. A visit to Newman's will happen later this summer or fall to see the completed Spacewalker II and the progress on the AirKnocker Champ. Please give some thought to our July meeting which has traditionally been a cookout. Would anyone want to organize and coordinate the cookout part? What else might you like to do?

Looking forward to seeing everyone soon. ✈

Bob Aardema

President, EAA Chapter 221
robert.aardema@wmich.edu

Next Event...

Mike Courter's RV-14

Wednesday, June 5 at 7:00 pm

July VMC Club Meeting

Time and Location TBA

Summer = Pancakes!

The following pages are assorted photos of upcoming pancake breakfasts, which provide you a great opportunity to exercise your flying privileges.

Also, please check out our www.eaa221.org website. Each week Jeff Bishop is indentifying a flying location and encourages all EAA 221 members to join him on the Saturday Dawn Patrol.

Jeff writes, "After many a Saturdays enjoying pancakes at our local establishments my need for distance pancakes has grown. So I asked Andy to add a link to the EAA221 site for Dawn Patrol. This should make it easier to find some of those pancakes. Yes there may also be lunch/dinner runs too. This page may be updated early in the week or right before I/we leave. General information about the place will be added. I am sending this to everyone to get it started. Then I will just send to the people who would like to go. You may always just click the page and see where we will be." ✈

Google Sheets Fly-in List

Not every event makes it to the Michigan Aero calendar or the SocialFlight.com app. Jeff and I are therefore creating a Google Sheets list. In your travels, if you come across one of the above posters, please take a photo and forward it to Ron Ryan. Or, if you have knowledge of one of these events, you can text it to me at 269-267-0496 and I will add it to the list.

Lastly, if you would like a link to the list, please send me an email at rryan@lewisreedallen.com. You will need a gmail.com account to modify the list. ✈

IMC Club

Our next meeting is
Tuesday, June 11 at 8:00 PM.

**WMU Parkview Campus
Room C124**

Contact Andy Millin: amillin@sbcglobal.net

For a map and more info visit www.eaa221.org. IMC meeting information at the bottom of the webpage.

IMC Question of the Month:

Can you carry old, outdated charts in your aircraft? Are you required to have a current chart in the aircraft for the flight you are making??? ✈

VMC Club

All pilots who want to improve their proficiency now have an excellent new resource through EAA's VMC Club.

The VMC Club is modeled after the popular IMC Club concept which provides organized “hangar flying” focused on building proficiency in instrument flying. The VMC Club will do the same, but for pilots who are not instrument rated and fly primarily under visual flight rules and under VMC.

The VMC Club offers monthly meetings in which pilots can network and share knowledge and experience. The meetings use real-world scenarios to engage members and allow a free exchange of information that improves awareness and skills. The intent is to create a community of pilots willing to share information, provide recognition, foster communications, promote safety, and build proficiency. All are welcome to join us and participate.

Our next meeting is Tuesday, June 26, 2019 at 7 pm at Brewster's once again. Mark your calendar. For more information see the www.eaa221.org website or contact Andy Cotyk at acotyky@wmis.net. ✈

Falcon Ultralight for Sale

The photo is an example of the airplane that is for sale.

For sale by third owner family. Falcon Ultralight plus trailer. Last flown in the year 2000. Only sold as complete parts plane. \$4,500.00. Always hangared or garaged. Ballistic parachute. Custom windscreen cover. UP kit for rudders. NEVER DAMAGED.

Contact Steve Weaver (269) 615-1500. ✈

The Build(s)

N4493E, a 1948 Aeronca Champ, was purchased out of New York in early June 2018. It is an 85 hp version, known as a 7DC, as opposed to the popular 65 hp 7AC model.

What is better than one Champ? Two Champs of course! So, we have picked up a second Champ in need of a new life. The second Champ last flew in 1956. It has been in a barn in Kansas City, Missouri and a project plane for 63 years!

The plan is to use some of the parts that we need and sell off the rest of the parts. Who says you can't make money in aviation? So, if you need a project Continental A65-8 engine, Case magnetos, a Champ fuel tank, or a Champ fuselage that is in pretty good condition, we'll quickly be able to help you out. ✈
