

FOR THE APRIL MEETING

•**NOTICE!** It was the consensus of the Board of Directors of the Chapter to cancel the March EAA Chapter 228 in-person membership meeting in support of the preventative measures underway nationally, and statewide to prevent the further spread of the Coronavirus. An attempt will be made to have a “webinar” type April meeting. Watch for an e-mail with details.

•**It's membership renewal time.** A real bargain, your Chapter dues are still only \$20 per year. See Don Croyle to renew your commitment to Chapter 228 this month.

EAA FLIGHT TEST MANUAL

If you have completed your airplane project and are preparing to make the first flight, and subsequent test flights, you really need to get the new EAA Flight Test Manual. The EAA is [accepting orders](#); the member price is \$17.95 and \$22.95 for nonmembers. **Order now and the shipping is free.**

The EAA Flight Test Manual is a new, comprehensive program for test flying your new airplane. Unique to the EAA's system are test cards that take you through each test flight point-by-point and allow for easy data collection.

Builders who use the EAA Flight Test Manual will complete the program with a thoroughly tested aircraft, a full understanding of their craft's performance, characteristics, and limitations, and have enough data to easily build a comprehensive operating handbook for the airplane.
